## IN SENATE

January 12, 2024

Introduced by Sens. COONEY, GRIFFO -- read twice and ordered printed,  
and when printed to be committed to the Committee on Judiciary

AN ACT to amend the civil practice law and rules, in relation to providing a statute of limitations for certain actions against professional engineers, architects, landscape architects, land surveyors and construction contractors and to repeal section 214-d, subdivision (h) of rule 3211 and subdivision (i) of rule 3212 of the civil practice law and rules relating thereto

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Statement of findings and purpose. The legislature finds  
2 that (a) the open-ended and continuing liability imposed upon members of  
3 the design professions and construction contractors, due to alleged  
4 deficiencies relating to improvements to real property, has resulted in  
5 an unfair burden on such professionals and a general increase in the  
6 cost of both public and private improvements to real property, (b) the  
7 cost of maintaining adequate insurance coverage is so expensive that a  
8 significant number of design professionals and construction contractors  
9 are forced to forego insurance coverage altogether to the detriment of  
10 the public's safety and welfare. The legislature further finds that the  
11 best designed and constructed improvement is dependent upon proper main-  
12 tenance to preserve its integrity and safety and it is thus of impor-  
13 tance to the public safety and welfare to ensure that an owner maintains  
14 and repairs that which is the property of the owner. The legislature  
15 therefore finds that it is necessary and desirable to establish a time  
16 limit after which tort claims for personal injury or wrongful death may  
17 not be asserted against such professionals and contractors. That statute  
18 of repose set forth herein, with a claim accruing on the date that the  
19 improvement was completed, will preserve the liability of the profes-  
20 sional and contractor during a period in which the defects, if any, will  
21 be revealed, and therefore will establish an appropriate limit on  
22 liability, while affording adequate protection to the public.

23 § 2. Section 214-d of the civil practice law and rules is REPEALED and  
24 a new section 214-d is added to read as follows:

EXPLANATION--Matter in italics (underscored) is new; matter in brackets  
[-] is old law to be omitted.
