STATE OF NEW YORK

8430

IN SENATE

January 29, 2024

Introduced by Sen. SKOUFIS -- read twice and ordered printed, and when printed to be committed to the Committee on Health

AN ACT to amend the public health law, in relation to requiring immunization against rotavirus for certain children

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 2164 of the public health law, as amended by chapter 401 of the laws of 2015, subdivision 6 as amended by chapter 35 of the laws of 2019, is amended to read as follows:

- 2164. Definitions; immunization against poliomyelitis, 5 measles, diphtheria, rubella, varicella, Haemophilus influenzae type b (Hib), pertussis, tetanus, pneumococcal disease, meningococcal disease, [and] hepatitis B, and rotavirus. 1. As used in this section, unless the context requires otherwise:
- a. The term "school" means and includes any public, private or paro-9 10 chial child caring center, day nursery, day care agency, nursery school, 11 kindergarten, elementary, intermediate or secondary school.

7

- 12 b. The term "child" shall mean and include any person between the ages 13 of two months and eighteen years.
- c. The term "person in parental relation to a child" shall mean and 14 include his father or mother, by birth or adoption, his legally appointed guardian, or his custodian. A person shall be regarded as the 15 16 17 custodian of a child if he has assumed the charge and care of the child because the parents or legally appointed guardian of the minor have died, are imprisoned, are mentally ill, or have been committed to an 19 institution, or because they have abandoned or deserted such child or 20 are living outside the state or their whereabouts are unknown, or have 21 22 designated the person pursuant to title fifteen-A of article five of the 23 general obligations law as a person in parental relation to the child.
- 24 d. The term "health practitioner" shall mean any person authorized by 25 law to administer an immunization.
- 26 2. a. Every person in parental relation to a child in this state shall 27 have administered to such child an adequate dose or doses of an immunizing agent against poliomyelitis, mumps, measles, diphtheria, rubella,

EXPLANATION -- Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

varicella, Haemophilus influenzae type b (Hib), pertussis, tetanus, pneumococcal disease, [and] hepatitis B, and rotavirus, which meets the standards approved by the United States public health service for such 4 biological products, and which is approved by the department under such conditions as may be specified by the public health and health planning council; provided, however, no person in parental relation to a child in this state shall be required to have administered to such child any immunizing agent required by this section where such child would not be able to have such immunizing agent administered in a manner approved by the department under such conditions as may be specified by the public health and health planning council due to the child's age.

- b. Every person in parental relation to a child in this state born on or after January first, nineteen hundred ninety-four and entering sixth grade or a comparable age level special education program with an unassigned grade on or after September first, two thousand seven, shall have administered to such child a booster immunization containing diphtheria and tetanus toxoids, and an acellular pertussis vaccine, which meets the standards approved by the United States public health service for such biological products, and which is approved by the department under such conditions as may be specified by the public health and health planning council.
- c. Every person in parental relation to a child in this state entering or having entered seventh grade and twelfth grade or a comparable age level special education program with an unassigned grade on or after September first, two thousand sixteen, shall have administered to such child an adequate dose or doses of immunizing agents against meningococdisease as recommended by the advisory committee on immunization practices of the centers for disease control and prevention, which meets the standards approved by the United States public health service for such biological products, and which is approved by the department under such conditions as may be specified by the public health and health planning council.
- The person in parental relation to any such child who has not previously received such immunization shall present the child to a health practitioner and request such health practitioner to administer the necessary immunization against poliomyelitis, mumps, diphtheria, Haemophilus influenzae type b (Hib), rubella, varicella, pertussis, tetanus, pneumococcal disease, meningococcal disease, [and] hepatitis B, and rotavirus, as provided in subdivision two of this section.
- 4. If any person in parental relation to such child is unable to pay for the services of a private health practitioner, such person shall present such child to the health officer of the county in which the child resides, who shall then administer the immunizing agent without charge.
- 5. The health practitioner who administers such immunizing agent against poliomyelitis, mumps, measles, diphtheria, Haemophilus influenzae type b (Hib), rubella, varicella, pertussis, tetanus, pneumococcal disease, meningococcal disease, [and] hepatitis B, and rotavirus, to any such child shall give a certificate of such immunization to the person in parental relation to such child.
- 6. In the event that a person in parental relation to a child makes 53 application for admission of such child to a school or has a child attending school and there exists no certificate or other acceptable evidence of the child's immunization against poliomyelitis, mumps, 55 measles, diphtheria, rubella, varicella, hepatitis B, pertussis,

nus, rotavirus, and, where applicable, Haemophilus influenzae type b (Hib), meningococcal disease, and pneumococcal disease, the principal, teacher, owner or person in charge of the school shall inform such person of the necessity to have the child immunized, that such immuniza-5 tion may be administered by any health practitioner, or that the child may be immunized without charge by the health officer in the county 7 where the child resides, if such person executes a consent therefor. In the event that such person does not wish to select a health practitioner 9 to administer the immunization, he or she shall be provided with a form 10 which shall give notice that as a prerequisite to processing the appli-11 cation for admission to, or for continued attendance at, the school such person shall state a valid reason for withholding consent or consent shall be given for immunization to be administered by a health officer 13 14 in the public employ, or by a school physician or nurse. The form shall 15 provide for the execution of a consent by such person and it shall also 16 state that such person need not execute such consent if subdivision 17 eight of this section applies to such child. 18

- 7. (a) No principal, teacher, owner or person in charge of a school shall permit any child to be admitted to such school, or to attend such school, in excess of fourteen days, without the certificate provided for in subdivision five of this section or some other acceptable evidence of the child's immunization against poliomyelitis, mumps, measles, diphtheria, rubella, varicella, hepatitis B, pertussis, tetanus, rotavirus and, where applicable, Haemophilus influenzae type b (Hib), meningococcal disease, and pneumococcal disease; provided, however, such fourteen day period may be extended to not more than thirty days for an individual student by the appropriate principal, teacher, owner or other person in charge where such student is transferring from out-of-state or from another country and can show a good faith effort to get the necessary certification or other evidence of immunization.
- (b) A parent, a guardian or any other person in parental relationship to a child denied school entrance or attendance may appeal by petition the commissioner of education in accordance with the provisions of section three hundred ten of the education law.
- 8. If any physician licensed to practice medicine in this state certifies that such immunization may be detrimental to a child's health, the requirements of this section shall be inapplicable until such immunization is found no longer to be detrimental to the child's health.
- 8-a. Whenever a child has been refused admission to, or continued attendance at, a school as provided for in subdivision seven of this section because there exists no certificate provided for in subdivision five of this section or other acceptable evidence of the child's immunization against poliomyelitis, mumps, measles, diphtheria, rubella, varicella, hepatitis B, pertussis, tetanus, rotavirus, and, where applicable, Haemophilus influenzae type b (Hib), meningococcal disease, and pneumococcal disease, the principal, teacher, owner or person in charge of the school shall:
- a. forward a report of such exclusion and the name and address of such child to the local health authority and to the person in parental relation to the child together with a notification of the responsibility such person under subdivision two of this section and a form of consent as prescribed by regulation of the commissioner, and
- b. provide, with the cooperation of the appropriate local health authority, for a time and place at which an immunizing agent or agents shall be administered, as required by subdivision two of this section, 56 to a child for whom a consent has been obtained. Upon failure of a local

health authority to cooperate in arranging for a time and place at which an immunizing agent or agents shall be administered as required by subdivision two of this section, the commissioner shall arrange for such administration and may recover the cost thereof from the amount of state 5 aid to which the local health authority would otherwise be entitled.

- 10. The commissioner may adopt and amend rules and regulations to effectuate the provisions and purposes of this section.
- 11. Every school shall annually provide the commissioner, on forms provided by the commissioner, a summary regarding compliance with the provisions of this section.
- § 2. Paragraph (a) of subdivision 1 of section 613 of the public 12 health law, as amended by section 24 of part E of chapter 56 of the laws of 2013, is amended to read as follows:
- 14 (a) The commissioner shall develop and supervise the execution of a 15 program of immunization, surveillance and testing, to raise to the high-16 est reasonable level the immunity of the children of the state against 17 communicable diseases including, but not limited to, influenza, poliomyelitis, measles, mumps, rubella, haemophilus influenzae type b (Hib), 18 diphtheria, pertussis, tetanus, rotavirus, varicella, hepatitis B, pneu-19 20 mococcal disease, and the immunity of adults of the state against 21 diseases identified by the commissioner, including but not limited to 22 influenza, smallpox, hepatitis and such other diseases as the commis-23 sioner may designate through regulation. Municipalities in the state shall maintain local programs of immunization to raise the immunity of 24 25 the children and adults of each municipality to the highest reasonable level, in accordance with an application for state aid submitted by the 26 27 municipality and approved by the commissioner. Such programs shall 28 include assurance of provision of vaccine, serological testing of individuals and educational efforts to inform health care providers and 29 target populations or their parents, if they are minors, of the facts 30 31 relative to these diseases and immunizations to prevent their occur-32 rence.
- 33 § This act shall take effect on the first of July next succeeding 34 the date on which it shall have become a law. Effective immediately the addition, amendment and/or repeal of any rule or regulation necessary for the implementation of this act on its effective date are authorized 36 37 to be made and completed on or before such date.
