FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would change the member contribution rates, and the wage ranges to which member contribution rates are applied, for Tier 6 members effective April 1, 2024.

The proposed contribution rates and wage ranges for Tier 6 members are:

- * three (3) percent for wages of \$75,000 or less,
- * four (4) percent for wages greater than \$75,000 but not more than \$100,000, or
- * five (5) percent for wages greater than \$100,000.

The current contribution rates and wage ranges for Tier 6 members are:

- * three (3) percent for wages of \$45,000 or less,
- * three and one-half (3.5) percent for wages greater than \$45,000 but not more than \$55,000,
- * four and one-half (4.5) percent for wages greater than \$55,000 but not more than \$75,000,
- * five and three-quarters (5.75) percent for wages greater than \$75,000 but not more than \$100,000, or
- * six (6) percent for wages greater than \$100,000.

It is anticipated that this proposal will not become law until after the effective date of April 1, 2024, in which case member contribution rates will need to be revised retroactively. This will result in significant administrative costs to the New York State and Local Retirement System and its more than 3,000 participating employers.

Insofar as this bill affects the New York State and Local Employees' Retirement System (NYSLERS), if this legislation is enacted during the 2024 Legislative Session, there would be an increase in the present value of future costs of approximately \$1.6 billion which would be shared by the State of New York and all local participating employers in the NYSLERS. These costs will be funded by increasing Tier 6 billing rates by an average 0.9% of salary.

The increased billing rates will result in a recurring, increasing annual contribution beginning in the fiscal year ending March 31, 2026 of approximately \$67 million to the State of New York and approximately \$90 million to local participating employers in the NYSLERS. These annual costs are expected to increase significantly in future years and will

vary by employer based upon the plan coverage and salary reported in Tier 6.

Insofar as this bill affects the New York State and Local Police and Fire Retirement System (NYSLPFRS), if this legislation is enacted during the 2024 Legislative Session, there would be an increase in the present value of future costs of approximately \$255 million which would be shared by the State of New York and all local participating employers in the NYSLPFRS. These costs will be funded by increasing Tier 6 billing rates by an average 1.0% of salary.

The increased billing rates will result in a recurring, increasing annual contribution beginning in the fiscal year ending March 31, 2026 of approximately \$5 million to the State of New York and approximately \$18 million to local participating employers in the NYSLPFRS. These annual costs are expected to increase significantly in future years and will vary by employer based upon the plan coverage and salary reported in Tier 6.

These estimated costs are based on 265,533 Tier 6 members with annual salary of approximately \$12 billion in the NYSLERS and 16,538 Tier 6 members with annual salary of approximately \$1.5 billion in the NYSLPFRS, as of March 31, 2023.

Membership data as of March 31, 2023 was used in measuring the impact of the proposed change, the same data used in the April 1, 2023 actuarial valuation. Distributions and other statistics can be found in the 2023 Report of the Actuary and the 2023 Annual Comprehensive Financial Report.

The actuarial assumptions and methods used are described in the 2023 Annual Report to the Comptroller on Actuarial Assumptions, and the Codes, Rules and Regulations of the State of New York: Audit and Control.

This estimate, dated March 4, 2024, and intended for use only during the 2024 Legislative Session, is Fiscal Note No. 2024-96, prepared by the Actuary for the New York State and Local Retirement System.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend various sections of the Retirement and Social Security Law and the Education Law to reduce the required employee contribution for Tier 6 members. The salary ranges and employee contribution rates for Tier 6 members would be changed to the following as of April 1, 2024:

Salary	Employee Contribution Rate
\$75,000 and less	3.00%
More than \$75,000 to \$100,000	4.00%
More than \$100,000	5.00%

The annual cost to the employers of members of the New York State Teachers' Retirement System for this benefit is estimated to be \$81.5 million or 0.42% of payroll if this bill is enacted.

The System's "new entrant rate", a hypothetical employer contribution rate that would occur if we started a new Retirement System without any

assets, is equal to 5.31% of pay under the current Tier 6 benefit structure. This can be thought of as the long-term expected employer cost of Tier 6, based on current actuarial assumptions. For the proposed change to the Tier 6 benefit structure under this bill, this new entrant rate is estimated to increase to 6.13% of pay, an increase of 0.82% of pay.

Member data is from the System's most recent actuarial valuation files as of June 30, 2023, consisting of data provided by the employers to the Retirement System. The most recent data distributions and statistics can be found in the System's Annual Report for fiscal year ended June 30, 2023. System assets are as reported in the System's financial statements and can also be found in the System's Annual Report. Actuarial assumptions and methods are provided in the System's Actuarial Valuation Report as of June 30, 2023.

The source of this estimate is Fiscal Note 2024-18 dated February 27, 2024 prepared by the Office of the Actuary of the New York State Teachers' Retirement System and is intended for use only during the 2024 Legislative Session. CENSUS DATA: The estimates presented herein are based on preliminary census data collected as of June 30, 2023. The census data for the impacted population is summarized below.

	NYCERS	TRS	BERS
Active Members			
- Number Count:	85,203	60,663	12,932
- Average Age:	42.4	38.1	46.9
- Average Service:	4.4	5.0	4.0
- Average Salary:	78,900	80,000	56,200

IMPACT ON MEMBER CONTRIBUTIONS: Currently, Tier 6 members of NYCERS, TRS, and BERS are generally required to make Basic Member Contributions (BMC) ranging from 3% to 6% of annual wages, determined by the member's annual wages for the second prior calendar year.

Under the proposed legislation, effective April 1, 2024:

* The required BMC rates for each salary band above \$45,000 would be reduced as shown in the table below.

Salary Band	Current Rate	Proposed Rate
\$45,000 or less	3.00%	3.00%
\$45,001 up to \$55,000	3.50%	3.00%
\$55,001 up to \$75,000	4.50%	3.00%
\$75,001 up to \$100,000	5.75%	4.00%
Greater than \$100,000	6.00%	5.00%

* The determination of the member's rate will use a one-year lookback instead of a two-year lookback.

* The annual wages used for the determination of the member's salary band would exclude overtime and compensation earned for extracurricular activities for all years. Currently, this exclusion is set to expire on January 1, 2025.

* New members would use a projection of wages for their first year instead of their first three years.

For purposes of this Fiscal Note, it has been assumed that members will retain rights to current rules for determining the contribution rate for a given calendar year if they result in a lower contribution rate than under the proposed legislation.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

* New entrants were assumed to replace exiting members so that total payroll increases by 3% each year for impacted groups. New entrant demographics were developed based on data for recent new hires and actuarial judgement.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits).

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS but do not believe it impairs our objectivity and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2024-19 dated March 6, 2024 was prepared by the Chief Actuary for the New York City Retirement Systems and Pension Funds. This estimate is intended for use only during the 2024 Legislative Session.
