FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY: This proposed legislation would permit NYCERS Tier 2 and Tier
 3 members participating in the Correction Officers 20-Year Improved
 Benefit Program (CO-20 Plans) and for similar plans for Correction
 Captains and above (CC-20 Plans), to take loans against their accumu-
 lated Additional Member Contributions (AMC) with interest.

INITIAL INCREASE (DECREASE) IN ACTUARIAL LIABILITIES
as of June 30, 2023 (\$ in Millions)

Present Value (PV)	NYCERS
PV of Benefits:	6.4
PV of Employee Contributions:	0.0
PV of Employer Contributions:	6.4
Unfunded Accrued Liabilities:	5.7

AMORTIZATION OF UNFUNDED ACCRUED LIABILITY

	NYCERS
Number of Payments:	2
Fiscal Year of Last Payment:	2026
Amortization Payment:	3.3 M

Unfunded Accrued Liability increases were amortized over the expected remaining working lifetime of those impacted by the benefit changes using level dollar payments.

CENSUS DATA: The estimates presented herein are based on preliminary census data collected as of June 30, 2023. The census data for the impacted population is summarized below.

	NYCERS
Active Members	
- Number Count:	489
- Average Age:	52.6
- Average Service:	22.4
- Average Salary:	149,300

IMPACT ON MEMBER BENEFITS: The proposed legislation would permit NYCERS members who are participants in the Tier 2 CO-20 and CC-20 Plans to borrow 100% of their AMC, and permit Tier 3 CO-20 and CC-20 Plan participants to borrow up to 75% of their AMC.

The loans on the AMC would be in addition to the currently permissible loans on Basic Member Contributions for such Plans.

Employer contributions will increase if a member takes a loan and the assets earn more than the rate of interest charged for the loan, or if there is an outstanding loan balance at retirement.

Currently, member contributions are invested with other NYCERS assets which are expected to earn 7.0% per annum. When an active member borrows member contributions from NYCERS, the loan is repaid with interest at 6.0% per annum prior to retirement. The potential costs related to lost

investment earnings are not included in the costs measured in this fiscal note.

In the event an outstanding loan balance exists at retirement, the balance of the unpaid loan is converted to an annuity based on the yield on 30-year U.S. Treasury securities and deducted from the annual retirement allowance otherwise payable. This conversion is made on an actuarial basis that is different than the basis used to determine the employer contributions to NYCERS, and unpaid loans therefore result in costs to employers.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems.

For purposes of this Fiscal Note, it has been assumed that the yield on 30-year U.S. Treasury securities would equal 3.5% per year and that 50% of member AMC balances available for borrowing would be taken as loans.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits).

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS but do not believe it impairs our objectivity and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2024-50 dated May 8, 2024 was prepared by the Chief Actuary for the New York City Retirement Systems and Pension Funds. This estimate is intended for use only during the 2024 Legislative Session.
