

# STATE OF NEW YORK

10750

## IN ASSEMBLY

March 27, 2026

Introduced by M. of A. BURDICK -- read once and referred to the Committee on Environmental Conservation

AN ACT to amend the environmental conservation law, in relation to enacting the restriction of anticoagulant pesticide transactions for online and retail stores act

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Short title. This act shall be known and may be cited as  
2 the "restriction of anticoagulant pesticide transactions for online and  
3 retail stores act" or "RAPTORS act".

4 § 2. Legislative intent. The legislature hereby finds and declares  
5 that it is the policy of this state to ensure that aquatic, terrestrial,  
6 and avian wildlife species remain a fully functional component of the  
7 ecosystems they inhabit and move through in New York. It is the intent  
8 of this act to facilitate this goal by prohibiting the general public  
9 from purchasing and utilizing the world's deadliest rodenticides, which,  
10 when misapplied or improperly used, can cause significant unintended  
11 harm to non-target wildlife and the ecosystem.

12 This legislation also comes in the wake of Flaco's passing. Flaco, the  
13 Eurasian eagle-owl whose escape from the Central Park Zoo and life on  
14 the loose captivated New York, had been exposed at the time of his death  
15 to four of the seven pesticides this bill restricts. The legislature  
16 takes this action to protect all non-target species, not only raptors  
17 such as eagles, hawks, and owls, but also the thousands of children and  
18 pets exposed to anticoagulants that poison control centers receive calls  
19 for each year.

20 § 3. Section 33-1301 of the environmental conservation law is amended  
21 by adding a new subdivision 14 to read as follows:

22 14. a. For any person within the state to sell, offer for sale or use,  
23 distribute, use, or deploy any pesticide or rodenticide containing a  
24 restricted SGAR or FGAR, in any concentration, unless such a purchaser  
25 or user has a valid purchase permit or certification identification card  
26 pursuant to section 33-0903 of this article or the user is a commercial  
27 pesticide technician or commercial pesticide apprentice.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets  
[-] is old law to be omitted.

LBD11733-04-6

1 b. For any person, including but not limited to, certified pesticide  
2 applicators, commercial pesticide technicians, or commercial pesticide  
3 apprentices, and government officials, to use a pesticide containing any  
4 restricted SGAR or FGAR in, or within five hundred feet of, a wildlife  
5 habitat area. The commissioner, in consultation with the commissioner of  
6 agriculture and markets, may promulgate rules and regulations to permit  
7 the use of pesticides containing SGARs or FGARs by pesticide applicators  
8 certified pursuant to section 33-0905 of this article, and commercial  
9 pesticide technicians, or commercial pesticide apprentices acting under  
10 the instructions and control of a pesticide applicator certified pursu-  
11 ant to section 33-0905 of this article, who is available if and when  
12 needed, even though such certified pesticide applicator is not phys-  
13 ically present at the time and place the pesticide is applied, where  
14 such use is not reasonably expected to result in significant adverse  
15 effects to non-target wildlife.

16 c. For the purposes of this subdivision the following terms shall have  
17 the following meanings:

18 (1) "First-generation anticoagulant rodenticide" or "FGAR" means any  
19 pesticide product containing any of the following active ingredients:

20 (i) Diphacinone.

21 (ii) Warfarin.

22 (iii) Chlorophacinone.

23 (2) "Second-generation anticoagulant rodenticide" or "SGAR" means any  
24 pesticide product containing any of the following active ingredients:

25 (i) Brodifacoum.

26 (ii) Bromadiolone.

27 (iii) Difenacoum.

28 (iv) Difethialone.

29 (3) "Wildlife habitat area" means any park, wetland, wetland buffer,  
30 nature reserve or preserve, or wildlife refuge managed by a state agen-  
31 cy, regional government, or quasi-government agency, or by a special  
32 district.

33 (4) "Significant adverse effect" means a direct or indirect activity  
34 that negatively affects the health or viability of a wildlife population  
35 or that damages or threatens wildlife habitats.

36 § 4. This act shall take effect on the ninetieth day after it shall  
37 have become a law. Effective immediately, the addition, amendment and/or  
38 repeal of any rule or regulation necessary for the implementation of  
39 this act on its effective date are authorized to be made and completed  
40 on or before such effective date.
