A local government entity shall be eligible for only one payment of funds hereunder per year. A local government entity may seek assistance under the electric generation facility cessation mitigation fund once a generator has submitted its notice to the federally designated electric bulk system operator (BSO) serving the state of New York of its intent to retire the facility or of its intent to voluntarily remove the facility from service subject to any return-to-service provisions of any tariff, and that the facility also is ineligible to participate in the markets operated by the BSO. The date of submission of a local government entity's application for assistance shall establish the order in which assistance is paid to program applicants, except that in no event shall assistance be paid to a local government entity until such time that an electric generating facility has retired or become ineligible to participate in the markets operated by the BSO. For purposes of this section, any local government entity seeking assistance under the electric generation facility cessation mitigation fund must submit an attestation to the department of public service that a facility is no longer producing electricity and is no longer participating in markets operated by the BSO. After receipt of such attestation, the department of public service shall confirm such information with the BSO. In the case that the BSO confirms to the department of public service that the facility is no longer producing electricity and participating in markets operated by such BSO, it shall be deemed that the electric generating facility located within the local government entity has ceased operation. The department of public service shall provide such confirmation to the urban development corporation upon receipt. The determination of the amount of such annual payment shall be determined by the president of the urban development corporation based on the amount of the differential between the annual real property taxes and payments in lieu of taxes imposed upon the facility, exclusive of interest and penalties, during the last year of operations and the current real property taxes and payments in lieu of taxes imposed upon the facility, exclusive of interest and penalties. The total amount awarded from this program shall not exceed $140,000,000.
