2 a new section 607-m to read as follows:

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would provide a performance of duty (POD) disability presumption to certain fire marshal titles employed by Nassau county who are impaired due to a disease of the lung. The benefit is 50% of final average salary, as defined in section 607-j of the retirement and social security law.

This proposal would likely lead to an increased number of POD disability benefits for future retirees.

We estimate that the annual contributions of Nassau county will not materially increase because of this proposal.

There will be an immediate past service cost of \$23,300 which will be borne by Nassau county as a one-time payment. This estimate assumes that payment will be made on February 1, 2027. If Nassau county elects to amortize this cost over 10 years, the cost for each year will be \$2,980.

Further, there could be some administrative costs to implement the provisions of this legislation.

These estimated costs are based on 42 affected members employed by Nassau county, with annual salary of approximately \$7.2 million as of March 31, 2025.
