AN ACT to amend the environmental conservation law, in relation to the regulation of ingredients in personal care products and cosmetics

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Short title. This act shall be known and may be cited as
2 the "beauty justice act".

3 § 2. Legislative findings and intent. Thousands of chemicals are used
4 in cosmetics and personal care products. Some of these chemicals are
5 associated with asthma, allergies, hormone disruption, neurodevelopmen-
6 tal problems, infertility, even cancer. Exposure to personal care and
7 cosmetic products typically begins in infancy, with products such as

LBD01853-10-6

1 baby shampoo, lotion, and diaper cream, and continues throughout their
2 lifespan. According to the Environmental Working Group, "on average,
3 women use 12 personal care products a day, exposing themselves to 168
4 chemical ingredients. Men use six, exposing themselves to 85 unique
5 chemicals."

6 Further, The National Institutes of Health (NIH) conducted an eight-
7 year study of over 46,000 women who used permanent hair dyes and
8 straighteners. They found that women of color who regularly used dyes
9 and straighteners had a 45 percent higher breast cancer risk. White
10 women faced a 7 percent higher breast cancer risk.

11 European Union countries prohibit (with few exceptions) substances
12 classified as carcinogenic, mutagenic, or toxic for reproduction in
13 cosmetic products. The Canadian government regularly updates a Cosmetic
14 Ingredient Hotlist that includes hundreds of chemicals and contaminants
15 prohibited and restricted from cosmetics, such as formaldehyde, triclo-
16 san, and more. Furthermore, over 40 countries including Japan, Cambodia,
17 and Vietnam, have stricter restrictions on chemicals in personal care
18 products than does the United States.

19 Moreover, regarding the safety of using personal care products,
20 the federal Modernization of Cosmetics Regulation Act of 2022 is the
21 first federal law to significantly update the Food, Drug, and Cosmetic
22 Act. However, the Act fails to meaningfully restrict the use of harmful
23 chemicals in personal care/cosmetic products, and explicitly grants
24 states the ability to enact such restrictions.

25 Therefore, the legislature finds and declares that federal
26 restrictions of harmful chemicals in personal care and cosmetic products
27 are inadequate to educate and protect consumers and salon workers, and
28 that it shall be the policy of the state to restrict chemicals that
29 may harm the health of New Yorkers during production, use, or disposal
30 of personal care products and cosmetic products.

31 § 3. Article 37 of the environmental conservation law is amended by
32 adding a new title 12 to read as follows:

28 product containing: (a) a restricted substance as an intentionally added
29 ingredient in any amount, or (b) lead (CAS 7439-92-1) or lead compounds
30 at or above a level that the department shall establish in regulation
31 that is the lowest level that can feasibly be achieved, provided that
32 the department shall review such level every five years to determine
33 whether it should be lowered.

34 2. (a) The department's determinations regarding chemicals that
35 release formaldehyde, pursuant to paragraph (e) of subdivision five of
36 section 37-1201 of this title, shall be adopted by regulation. The
37 department shall identify a list of chemicals used in cosmetic products
38 and personal care products that release formaldehyde that may be deemed
39 restricted substances and subject to the restrictions of subdivision
40 one of this section. In establishing such list, the department should
41 consider: (i) estimated prevalence of use; (ii) potential to reduce
42 disproportionate exposure; and (iii) other information deemed relevant
43 by the department.

44 (b) The department may identify for restriction an initial set of no
45 more than ten of the listed chemicals used in personal care products and
46 cosmetic products that release formaldehyde. Any initial classification
47 as restricted substances shall take effect one year after the depart-
48 ment's adoption of regulations required by this subdivision and be
49 subject to the restrictions of subdivision one of this section.

50 (c) Classification as restricted substances on the remaining listed
51 chemicals used in personal care products and cosmetic products that
52 release formaldehyde may take effect two years after the department's
53 adoption of regulations required by this subdivision and shall be
54 subject to the restrictions of subdivision one of this section.

55 (d) The department may conduct additional rulemaking activities to
56 develop supplemental lists of chemicals that release formaldehyde and

1 adopt additional restrictions necessary to protect the health and safety
2 of product users.

3 3. (a) No person that sells or offers for sale any personal care prod-
4 uct or cosmetic product shall be held in violation of this section if
5 they can show that they relied in good faith on the written assurance of
6 the manufacturer that such personal care product or cosmetic product
7 meets the requirements of this title. Such written assurance shall take
8 the form of a certificate of compliance stating that the personal care
9 product or cosmetic product is in compliance with the requirements of
10 this title. The certificate of compliance shall be signed by an author-
11 ized official of the manufacturer.

12 (b) In addition to any other applicable penalties, it shall be a
13 violation of this section to provide a certificate of compliance as
14 contemplated by this subdivision when the applicable personal care prod-
15 uct or cosmetic product does not satisfy the limitations on the presence
16 of restricted substances set forth in this title.

17 § 37-1205. Identification of safer alternatives.

18 By January first, two thousand twenty-nine, the department, in consul-
19 tation with the department of health, shall make use of existing infor-
20 mation to identify and assess the hazards of chemicals or chemical
21 classes that can provide the same or similar function in personal care
22 products and cosmetic products as the chemicals or chemical classes
23 listed in section 37-1201 of this title and that can impact vulnerable
24 populations. In doing so they may consult with the New York state
25 pollution prevention institute and the interstate chemicals clearing-
26 house. The department shall make such information publicly available.

27 § 37-1207. Regulations.

28 Within one year of the effective date of this section, the department
29 shall adopt rules and regulations necessary for the implementation of
30 this title. When adopting such rules and regulations, the department
31 shall consider:

32 (a) relevant research;

33 (b) laws and policies in other states; and

34 (c) input from relevant stakeholders including but not limited to
35 representatives from independent cosmetologists, small businesses offer-
36 ing cosmetology services, such as beauty salons, manufacturers of
37 cosmetic products and personal care products, and trade associations
38 that represent manufacturers of cosmetic products and personal care
39 products.

40 § 4. Section 71-3703 of the environmental conservation law is amended
41 by adding a new subdivision 8 to read as follows:

42 8. Any person who violates any of the provisions of, or who fails to
43 perform any duty imposed by, section 37-1203 of this chapter or any
44 rule or regulation promulgated pursuant thereto, shall be liable for a
45 civil penalty not to exceed one thousand dollars for each day during
46 which such violation continues, and in addition thereto, such
47 person may be enjoined from continuing such violation. Such person shall
48 for a second violation be liable to the people of the state for a
49 civil penalty not to exceed two thousand five hundred dollars for each
50 day during which such violation continues.

51 § 5. Severability. If any provision of this act, or any application of
52 any provision of this act, is held to be invalid, or to violate or be
53 inconsistent with any federal law or regulation, that shall not affect
54 the validity or effectiveness of any other provision of this act, or of
55 any other application of any provision of this act, which can be given

1 effect without that provision or application; and to that end, the
2 provisions and applications of this act are severable.
3 § 6. This act shall take effect one year after it shall have become a
4 law. Effective immediately, the addition, amendment and/or repeal of any
5 rule or regulation necessary for the implementation of this act on its
6 effective date are authorized to be made and completed on or before such
7 effective date.
