and shall retire upon the attainment of the mandatory retirement age prescribed by this section, by filing an application therefor in a manner similar to that provided in section three hundred seventy of this article.

1. Upon completion of twenty years of such service and upon retirement, each such member shall receive a pension which, together with an annuity for such years of service as provided in paragraph four of this subdivision, shall be sufficient to provide such member with a retirement allowance of one-half of such member's final average salary.

2. Upon completion of more than twenty years of such service and upon retirement, each such member shall receive, for each year of service in excess of twenty, an additional pension which, together with an annuity for each such year as provided in paragraph four of this subdivision, shall be equal to one-sixtieth of such member's final average salary, provided, however, that the pension payable pursuant to this section shall not exceed three-quarters of final average salary.

3. Upon attainment of the mandatory retirement age without completion of twenty years of such service, each such member shall receive a pension which, together with an annuity for such years of service as provided in paragraph four of this subdivision, shall be equal to one-fortieth of such member's final average salary for each year of creditable service in such titles. Every such member shall also be entitled to an additional pension equal to the pension for any creditable service rendered while not an employee in such titles as provided under paragraphs three and four of subdivision a of section three hundred seventy-five of this article. This latter pension shall not increase the total allowance to more than one-half of such member's final average salary.

4. The annuity provided under paragraphs one, two and three of this subdivision shall be the actuarial equivalent, at the time of retirement, of the member's accumulated contributions based upon the rate of contribution fixed under section three hundred eighty-three of this title and upon the salaries earned while in such service. Such annuity shall be computed as it would be if it were not reduced by the actuarial equivalent of any outstanding loan nor by reason of the member's election to decrease such member's contributions toward retirement in order to apply the resulting amount toward payment of contributions for old age and survivor's insurance. Any accumulated contributions in excess of the amount required to provide the annuity computed pursuant to this paragraph shall be used to increase the member's retirement allowance.

c. Credit for previous service. In computing the years of total creditable service for each member described herein, full credit shall be given and full allowance shall be made for service rendered as a police officer or state university peace officer or member of a police force or department of a state park authority or commission or an organized police force or department of a county, city, town, village, police district, authority or other participating employer or member of the capital police force in the office of general services while a member of the New York state and local police and fire retirement system, of the New York state and local employees' retirement system or of the New York city police pension fund and for all service for which full credit has been given and full allowance made pursuant to the provisions of section three hundred seventy-five-h of this article provided, however, that full credit pursuant to the provisions of such section shall mean only such service as would be creditable service pursuant to the provisions

d. Retirement for cause. Upon receipt of a certificate from the head of the entity where such member is employed or such member's designee, a member as described in subdivision a of this section, who has accrued twenty-five or more years of service credit under this section shall be retired on the first day of the second month next succeeding the date such certificate was filed with the comptroller.

e. Credit for military service. In computing the years of total creditable service full credit shall be given and full allowance shall be made for service of such member in war after world war I as defined in section three hundred two of this article, provided such member at the time of such member's entrance into the armed forces was in police service as defined in subdivision eleven of section three hundred two of this article.

f. Transfer of membership to employees' retirement system. Any member currently enrolled pursuant to this section and who previously transferred service credit from the New York state and local employees' retirement system to the New York state and local police and fire retirement system, may elect to transfer such previously transferred service credit back to the New York state and local employees' retirement system, and such member shall have the option to retroactively transfer such member's membership into such employees' retirement system.

Upon completion of twenty-five years of such service and upon retirement, each such member shall receive a pension which, together with an annuity, if any, which shall be the actuarial equivalent of such member's

accumulated contributions at the time of their retirement and an additional pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which such member may then be entitled, if any, shall be sufficient to provide such member with a retirement allowance equal to fifty-eight percent of their final average salary.
