FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would permit members of the New York State and Local Employees' Retirement System employed by the New York power authority who are members of the labor organization certified or recognized to represent the employees of such power authority to retire upon completion of twenty-five years of creditable service with a benefit of one-half final average salary. Members covered under Article 14 would be permitted one year to make an irrevocable election to switch to the twenty-five-year plan.

If this bill is enacted during the 2025 Legislative Session, we anticipate that there will be an increase of approximately \$3.0 million in the annual contributions of the New York power authority for the fiscal year ending March 31, 2026. In future years this cost will vary but is expected to average 4.0% of salary annually.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately \$15.3 million which will be borne by the New York power authority as a one-time payment. This estimate assumes that payment will be made on February 1, 2026.

These estimated costs are based on 564 affected members employed by the New York power authority, with annual salary of approximately \$58.8 million as of March 31, 2024. The affected members were identified using information provided by the office of Senator Joseph Griffo.
