- Number Count:	10,574
- Average Age:	44.1
- Average Service:	18.3
- Average Salary:	165,900

IMPACT ON MEMBER BENEFITS: Pension benefits are primarily derived as a percentage of salary base. For Tier 2 POLICE members hired prior to July 1, 2000, the salary base is equal to the greater of

(1) the pensionable earnings in the final 12 months of service, or
 (2) the average pensionable earnings earned in any consecutive three years of service.

For Tier 2 POLICE members hired on or after July 1, 2000, the salary base is equal to the pensionable earnings earned in the final 12 months of service only.

Under the proposed legislation, the salary base shall be determined the same for Tier 2 POLICE members hired on or after July 1, 2000, as it is for Tier 2 members hired prior to July 1, 2000.

Note, pensionable earnings in the final 12 months or the highest three consecutive years, are subject to certain limits.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.
