2025-2026 Regular Sessions

IN ASSEMBLY

June 9, 2025

Introduced by M. of A. BICHOTTE HERMELYN -- read once and referred to the Committee on Health

AN ACT to amend the education law and the public health law, in relation to providing guidelines, corrective actions, and transparency, and to reconfigure the composition of committees of professional conduct within the office of professional medical conduct

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative intent. On May 15, 2025, Newsday published
2 "Broken Practice: Doctor misconduct on Long Island", a two-year inves-
3 tigation that found that forty-six doctors on Long Island were allowed
4 to practice freely for months or years despite criminal convictions
5 including fraud, sexual abuse and the illegal dispensing of opioids.
6 This legislature finds that the office of professional medical conduct
7 currently reviews complaints made against physicians to determine the
8 verity of allegations of professional misconduct. Yet there is currently
9 no uniform framework established in the law to outline specific penal-
10 ties or actions that could be taken following the determination that a
11 licensee had violated professional misconduct law. Therefore, this
12 legislature establishes a uniform set of legal guidelines for penalties
13 and actions which can be taken by any committee to provide a more
14 uniform framework for the provision of justice.
15 Currently, licensees offering to provide services for sexual favors,
16 or engaging in sexual impropriety or sexual contact are not prohibited
17 under the professional misconduct law. As such, this legislature finds
18 that such actions should be prohibited under the law.
19 Additionally, the legislature finds that to ensure a variety of opin-
20 ions and expertise on the committees which investigate allegations of
21 professional misconduct, to include one physician, and two lay members,
22 one of whom shall hold a doctoral degree and are currently or have

1 previously taught medicine within an academic institution's department
2 of medicine or hold a master's in public health.

3 The legislature holds that to increase awareness of such office that
4 medical facilities should provide contact information and links to such
5 office's website available to the patients through printed forms in a
6 manner deemed fit by the commissioner of health.

7 Finally, to provide greater transparency to the operations of such
8 office, the legislature shall require final determinations of penalties
9 or actions against a licensee to be published on the office's website
10 and for notification to be provided to the source of the initial
11 complaint within ten days of the office making any final determinations.

12 § 2. Section 6530 of the education law is amended by adding three new
13 subdivisions 51, 52 and 53 to read as follows:

14 51. Sexual impropriety, including but not limited to verbal or phys-
15 ical behavior, gestures, or expressions that could be reasonably inter-
16 preted as sexual, disrespectful of patient privacy, or sexually demean-
