5 or fire company in a county, city, town, village, fire district, fire
6 protection district, any other entity that operates a volunteer fire
7 department or company, an independent volunteer fire company, or an
8 independent fire company that operates as a fire corporation may elect
9 to permit active volunteer firefighters to serve as call firefighters
10 such that they may receive a stipend each time such call firefighter
11 responds to an emergency call of their fire department or fire company
12 and/ or provides certain standby services.

13 3. A pay per call and/or paid on call compensation (stipend) program
14 for volunteer firefighters of a fire department or fire company may be

17 district, fire protection district, any other entity that operates a
18 volunteer fire department or company, an independent volunteer fire
19 company, or an independent fire company that operates as a fire corpo-

21 program and the program may later be discontinued by that entity by
22 local law, ordinance or resolution if it determines that the program no
23 longer is in the best interests of the community served. Only the
24 authority having jurisdiction may authorize the expenditure of its oper-

43 without receiving any stipend payments. Volunteer firefighters wishing
44 to waive their right to participate in the program shall file a written
45 waiver with the authority managing the program on the form it creates
46 for that purpose. Failure to register for the program if registration is
47 required shall also serve as a waiver.

3 fire company. They shall meet attendance requirements set by the local
4 authority having jurisdiction over the fire department or fire company.

9 8. Eligible personnel will be active members, who are adequately
10 trained and qualified to rapidly respond to all types of emergency
