IMPACT ON MEMBER BENEFITS: Currently, Tier 3 POLICE members who retire with at least 20 years of service are eligible to receive an annual benefit that is equal to 42% of Final Average Salary (FAS), increasing to a maximum benefit of 50% of FAS after 22 years of service.

Under the proposed legislation, Tier 3 POLICE members who retire with at least 20 years of service would be eligible to receive an annual benefit that is equal to 50% of FAS.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

- o Retirement rates were adjusted to reflect the earlier payability of the service retirement benefit associated with the proposed legislation.
- o New entrants were assumed to replace exiting members so that total payroll increases by 3% each year for impacted groups. New entrant demographics were developed based on data for recent new hires and actuarial judgement.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from

actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.
