46 Section 1. Section 1 of part I of chapter 413 of the laws of 1999
47 relating to providing for mass transportation payments, as amended by
48 section 1 of part E of chapter 58 of the laws of 2024, is amended to
49 read as follows:

50 Section 1. Notwithstanding any other law, rule or regulation to the
51 contrary, payment of mass transportation operating assistance pursuant
52 to section 18-b of the transportation law shall be subject to the

1 provisions contained herein and the amounts made available therefor by

 3 In establishing service and usage formulas for distribution of mass
 4 transportation operating assistance, the commissioner of transportation
 5 may combine and/or take into consideration those formulas used to
 6 distribute mass transportation operating assistance payments authorized
 7 by separate appropriations in order to facilitate program administration
 8 and to ensure an orderly distribution of such funds.
 9 To improve the predictability in the level of funding for those
 10 systems receiving operating assistance payments under service and usage
 11 formulas, the commissioner of transportation is authorized with the
 12 approval of the director of the budget, to provide service payments
 13 based on service and usage statistics of the preceding year.
 14 In the case of a service payment made, pursuant to section 18-b of the

9 Notwithstanding any other inconsistent provisions of section 18-b of
10 the transportation law or any other law, any moneys provided to a public
11 benefit corporation constituting a transportation authority or to other
12 public transportation systems in payment of state operating assistance
13 or such lesser amount as the authority or public transportation system
14 shall make application for, shall be paid by the commissioner of trans-
15 portation to such authority or public transportation system in lieu, and
16 in full satisfaction, of any amounts which the authority would otherwise
17 be entitled to receive under section 18-b of the transportation law.

18 Notwithstanding the reporting date provision of section 17-a of the
19 transportation law, the reports of each regional transportation authori-
20 ty and other major public transportation systems receiving mass trans-
21 portation operating assistance shall be submitted on or before July 15
22 of each year in the format prescribed by the commissioner of transporta-
23 tion. Copies of such reports shall also be filed with the chairpersons
24 of the senate finance committee and the assembly ways and means commit-
25 tee and the director of the budget. The commissioner of transportation
26 may withhold future state operating assistance payments to public trans-
27 portation systems or private operators that do not provide such reports.

28 Payments may be made in quarterly installments as provided in subdivi-
29 sion 2 of section 18-b of the transportation law or in such other manner
30 and at such other times as the commissioner of transportation, with the
31 approval of the director of the budget, may provide; and where payment
32 is not made in the manner provided by such subdivision 2, the matching
33 payments required of any city, county, Indian tribe or intercity bus
34 company shall be made within 30 days of the payment of state operating
35 assistance pursuant to this section or on such other basis as may be
36 agreed upon by the commissioner of transportation, the director of the
37 budget, and the chief executive officer of such city, county, Indian
38 tribe or intercity bus company.

39 The commissioner of transportation shall be required to annually eval-
40 uate the operating and financial performance of each major public trans-
41 portation system. Where the commissioner's evaluation process has iden-
42 tified a problem related to system performance, the commissioner may
43 request the system to develop plans to address the performance deficien-
44 cies. The commissioner of transportation may withhold future state oper-
45 ating assistance payments to public transportation systems or private
46 operators that do not provide such operating, financial, or other infor-
47 mation as may be required by the commissioner to conduct the evaluation
48 process.

49 Payments shall be made contingent upon compliance with regulations
50 deemed necessary and appropriate, as prescribed by the commissioner of
51 transportation and approved by the director of the budget, which shall
52 promote the economy, efficiency, utility, effectiveness, and coordinated
53 service delivery of public transportation systems. The chief executive
54 officer of each public transportation system receiving a payment shall
55 certify to the commissioner of transportation, in addition to informa-

1 tion required by section 18-b of the transportation law, such other
2 information as the commissioner of transportation shall determine is
3 necessary to determine compliance and carry out the purposes herein.

4 Counties, municipalities or Indian tribes that propose to allocate
5 service payments to operators on a basis other than the amount earned by
6 the service payment formula shall be required to describe the proposed
7 method of distributing governmental operating aid and submit it one
8 month prior to the start of the operator's fiscal year to the commis-
9 sioner of transportation in writing for review and approval prior to the
10 distribution of state aid. The commissioner of transportation shall only
11 approve alternate distribution methods which are consistent with the
12 transportation needs of the people to be served and ensure that the
13 system of private operators does not exceed established maximum service
14 payment limits. Copies of such approvals shall be submitted to the
15 chairpersons of the senate finance and assembly ways and means commit-
16 tees.

17 Notwithstanding the provisions of subdivision 4 of section 18-b of the
18 transportation law, the commissioner of transportation is authorized to
19 continue to use prior quarter statistics to determine current quarter
20 payment amounts, as initiated in the April to June quarter of 1981. In
21 the event that actual revenue passengers and actual total number of
22 vehicle, nautical or car miles are not available for the preceding quar-
23 ter, estimated statistics may be used as the basis of payment upon
24 approval by the commissioner of transportation. In such event, the
25 succeeding payment shall be adjusted to reflect the difference between
26 the actual and estimated total number of revenue passengers and vehicle,
27 nautical or car miles used as the basis of the estimated payment. The
28 chief executive officer may apply for less aid than the system is eligi-
29 ble to receive. Each quarterly payment shall be attributable to operat-
30 ing expenses incurred during the quarter in which it is received, unless
31 otherwise specified by such commissioner. In the event that a public
32 transportation system ceases to participate in the program, operating
33 assistance due for the final quarter that service is provided shall be
34 based upon the actual total number of revenue passengers and the actual
35 total number of vehicle, nautical or car miles carried during that quar-
36 ter.

37 Payments shall be contingent on compliance with audit requirements
38 determined by the commissioner of transportation.

39 In the event that an audit of a public transportation system or
40 private operator receiving funds discloses the existence of an overpay-
41 ment of state operating assistance, regardless of whether such an over-
42 payment results from an audit of revenue passengers and the actual
43 number of revenue vehicle miles statistics, or an audit of private oper-
44 ators in cases where more than a reasonable return based on equity or
45 operating revenues and expenses has resulted, the commissioner of trans-
46 portation, in addition to recovering the amount of state operating
47 assistance overpaid, shall also recover interest, as defined by the
48 department of taxation and finance, on the amount of the overpayment.

49 Notwithstanding any other law, rule or regulation to the contrary,
50 whenever the commissioner of transportation is notified by the comp-
51 troller that the amount of revenues available for payment from an
52 account is less than the total amount of money for which the public mass
53 transportation systems are eligible pursuant to the provisions of
54 section 88-a of the state finance law and any appropriations enacted for
55 these purposes, the commissioner of transportation shall establish a

1 maximum payment limit which is proportionally lower than the amounts set
2 forth in appropriations.

3 Notwithstanding paragraphs (b) of subdivisions 5 and 7 of section 88-a
4 of the state finance law and any other general or special law, payments
5 may be made in quarterly installments or in such other manner and at
6 such other times as the commissioner of transportation, with the
7 approval of the director of the budget may prescribe.

8 § 2. This act shall take effect immediately and shall be deemed to
9 have been in full force and effect on and after April 1, 2025.

48 which it applies has been permanently removed from use or the final
49 resolution of all cases involving notices of liability issued based on
50 photographs, microphotographs, video or other recorded images produced
51 by such system.

52 (i) Such demonstration program shall utilize necessary technologies to
53 ensure, to the extent practicable, that photographs, microphotographs,
54 videotape or other recorded images produced by such photo speed
55 violation monitoring systems shall not include images that identify the
56 driver, the passengers, or the contents of the vehicle. Provided,

1 however, that no notice of liability issued pursuant to this section
2 shall be dismissed solely because such a photograph, microphotograph,
3 videotape or other recorded image allows for the identification of the
4 driver, the passengers, or the contents of vehicles where the commis-
5 sioner or the chair, as applicable, shows that they made reasonable
6 efforts to comply with the provisions of this paragraph in such case.

7 (b) If the commissioner or chair establishes a demonstration program
8 pursuant to subdivision (a) of this section, the owner of a vehicle
9 shall be liable for a penalty imposed pursuant to this section if such
10 vehicle was used or operated with the permission of the owner, express
11 or implied, within a highway construction or maintenance work area
12 located on a controlled-access highway or on the thruway in violation of
13 paragraph two of subdivision (d) or subdivision (f), or when other speed
14 limits are in effect in violation of subdivision (b) or (g) or paragraph
15 one of subdivision (d), of section eleven hundred eighty of this arti-
16 cle, such vehicle was traveling at a speed of more than ten miles per
17 hour above the posted speed limit in effect within such highway
18 construction or maintenance work area, and such violation is evidenced
19 by information obtained from a photo speed violation monitoring system;
20 provided however that no owner of a vehicle shall be liable for a penal-
21 ty imposed pursuant to this section where the operator of such vehicle
22 has been convicted of the underlying violation of subdivision (b), (d),
23 (f) or (g) of section eleven hundred eighty of this article.

24 (e) An owner liable for a violation of subdivision (b), (d), (f) or
25 (g) of section eleven hundred eighty of this article pursuant to a
26 demonstration program established pursuant to this section shall be
27 liable for monetary penalties not to exceed fifty dollars for a first
28 violation, seventy-five dollars for a second violation both of which
29 were committed within a period of eighteen months, and one hundred
30 dollars for a third or subsequent violation all of which were committed
31 within a period of eighteen months; provided, however, that an addi-
32 tional penalty not in excess of twenty-five dollars for each violation
33 may be imposed for the failure to respond to a notice of liability with-
34 in the prescribed time period.

35 (f) An imposition of liability under the demonstration program estab-
36 lished pursuant to this section shall not be deemed a conviction as an
37 operator and shall not be made part of the operating record of the
38 person upon whom such liability is imposed nor shall it be used for
39 insurance purposes in the provision of motor vehicle insurance coverage.

40 3. The notice of liability shall contain information advising the
41 person charged of the manner and the time in which [~~he or she~~] the owner
42 may contest the liability alleged in the notice. Such notice of liabil-
43 ity shall also contain a prominent warning to advise the person charged
44 that failure to contest in the manner and time provided shall be deemed
45 an admission of liability and that a default judgment may be entered
46 thereon.

47 (h) Adjudication of the liability imposed upon owners of this section
48 shall be by a traffic violations bureau established pursuant to section
49 three hundred seventy of the general municipal law where the violation
50 occurred or, if there be none, by [~~the court having jurisdiction over~~
51 ~~traffic infractions where the violation occurred, except that if a city~~
52 ~~has established an administrative tribunal to hear and determine~~
53 ~~complaints of traffic infractions constituting parking, standing or~~
54 ~~stopping violations such city may, by local law, authorize such adjudi-~~
55 ~~cation by such tribunal] a hearing officer designated by the commis-
56 er of motor vehicles provided, however, if a city with a population of~~

one million or more has established an administrative tribunal to hear and determine complaints of traffic infractions constituting parking, standing or stopping violations, such tribunal shall adjudicate liability pursuant to this section for violations occurring within such city. Provided further that such hearing officer or administrative tribunal shall cooperate and consult with the office of the state comptroller as necessary to implement the program, including with respect to providing necessary revenue collection and notice of liability data.

(i) If an owner receives a notice of liability pursuant to this section for any time period during which the vehicle or the number plate or plates of such vehicle was reported to the police department as having been stolen, it shall be a valid defense to an allegation of liability for a violation of subdivision (b), (d), (f) or (g) of section eleven hundred eighty of this article pursuant to this section that the vehicle or the number plate or plates of such vehicle had been reported to the police as stolen prior to the time the violation occurred and had not been recovered by such time. For purposes of asserting the defense provided by this subdivision, it shall be sufficient that a certified copy of the police report on the stolen vehicle or number plate or plates of such vehicle be sent by first class mail to the traffic violations bureau, ~~[court having jurisdiction or parking violations bureau]~~ hearing officer, or administrative tribunal as applicable, and may also send to the department of transportation or thruway authority as applicable.

(j) 1. ~~[Where the adjudication of liability imposed upon owners pursuant to this section is by a traffic violations bureau or a court having jurisdiction, an]~~ An owner who is a lessor of a vehicle to which a notice of liability was issued pursuant to subdivision (g) of this section shall not be liable for the violation of subdivision (b), (d), (f) or (g) of section eleven hundred eighty of this article pursuant to this section, provided that ~~[he or she]~~ the owner sends to the traffic violations bureau ~~[or court having jurisdiction],~~ hearing officer, or administrative tribunal as applicable, and may also send to the commissioner or chair as applicable a copy of the rental, lease or other such contract document covering such vehicle on the date of the violation, with the name and address of the lessee clearly legible, within thirty-seven days after receiving notice from the bureau ~~[or court],~~ hearing officer, or administrative tribunal as applicable, or from the commissioner or chair as applicable of the date and time of such violation, together with the other information contained in the original notice of liability. Failure to send such information within such thirty-seven day time period shall render the owner liable for the penalty prescribed by this section. Where the lessor complies with the provisions of this paragraph, the lessee of such vehicle on the date of such violation shall be deemed to be the owner of such vehicle for purposes of this section, shall be subject to liability for the violation of subdivision (b), (d), (f) or (g) of section eleven hundred eighty of this article pursuant to this section and shall be sent a notice of liability pursuant to subdivision (g) of this section.

2. ~~[(i)]~~ In a city which, by local law, has authorized the adjudication of liability imposed upon owners by this section by a parking violations bureau, an owner who is a lessor of a vehicle to which a notice of liability was issued pursuant to subdivision (g) of this section shall not be liable for the violation of subdivision (b), (d), (f) or (g) of section eleven hundred eighty of this article, provided that:

1 [~~(A)~~] (i) prior to the violation, the lessor has filed with the bureau
2 in accordance with the provisions of section two hundred thirty-nine of
3 this chapter; and

4 [~~(B)~~] (ii) within thirty-seven days after receiving notice from the
5 [bureau] chair or commissioner as applicable of the date and time of a
6 liability, together with the other information contained in the original
7 notice of liability, the lessor submits to the bureau the correct name
8 and address of the lessee of the vehicle identified in the notice of
9 liability at the time of such violation, together with such other addi-
10 tional information contained in the rental, lease or other contract
11 document, as may be reasonably required by the bureau, hearing officer,
12 administrative tribunal, chair or commissioner as applicable pursuant to
13 regulations that may be promulgated for such purpose.

14 [~~(ii)~~] 3. Failure to comply with [~~clause (B) of subparagraph (i) of~~]
15 this [~~paragraph~~] subdivision shall render the owner liable for the
16 penalty prescribed in this section.

17 [~~(iii)~~] 4. Where the lessor complies with the provisions of this
18 [~~paragraph~~] subdivision, the lessee of such vehicle on the date of such
19 violation shall be deemed to be the owner of such vehicle for purposes
20 of this section, shall be subject to liability for such violation pursu-
21 ant to this section and shall be sent a notice of liability pursuant to
22 subdivision (g) of this section.

23 If the commissioner or chair adopts a demonstration program pursuant
24 to subdivision (a) of this section the commissioner or chair, as appli-
25 cable, shall conduct a study and submit a report on or before May first,
26 two thousand twenty-four, and [a] report on or before [~~May first, two~~
27 ~~thousand twenty-six~~] every two years thereafter, on the results of the
28 use of photo devices to the governor, the temporary president of the
29 senate and the speaker of the assembly. The commissioner or chair shall
30 also make such reports available on their public-facing websites,
31 provided that they may provide aggregate data from paragraph one of this
32 subdivision if the commissioner or chair finds that publishing specific
33 location data would jeopardize public safety. Such report shall include:

34 § 2. The vehicle and traffic law is amended by adding a new section
35 1180-h to read as follows:

36 § 1180-h. Owner liability for failure of operator to comply with
37 certain posted maximum speed limits; Triborough bridge and tunnel
38 project highway construction or maintenance work area. (a) 1. Notwith-
39 standing any other provision of law, the Triborough bridge and tunnel
40 authority, a body corporate and politic constituting a public benefit
41 corporation created and constituted pursuant to title three of article
42 three of the public authorities law, is hereby authorized to establish a
43 program imposing monetary liability on the owner of a vehicle for fail-
44 ure of an operator thereof to comply with posted maximum speed limits in
45 a construction or maintenance work area located at any Triborough bridge
46 and tunnel authority project referred to in subdivision nine of section
47 five hundred fifty-three of the public authorities law, or as otherwise
48 provided in an applicable interagency agreement, (i) when construction
49 or maintenance work is occurring and a work area speed limit is in
50 effect as provided in paragraph two of subdivision (d) or subdivision
51 (f) of section eleven hundred eighty of this article or (ii) when
52 construction or maintenance work is occurring and other speed limits are
53 in effect as provided in subdivision (b) or (g) or paragraph one of
54 subdivision (d) of section eleven hundred eighty of this article. Such
55 program shall empower the Triborough bridge and tunnel authority to
56 install photo speed violation monitoring systems within no more than

1 nine construction or maintenance work areas located at Triborough bridge
2 and tunnel authority projects and to operate such systems within such
3 work areas (iii) when construction or maintenance work is occurring and
4 a work area speed limit is in effect as provided in paragraph two of
5 subdivision (d) or subdivision (f) of section eleven hundred eighty of
6 this article or (iv) when construction or maintenance work is occurring
7 and other speed limits are in effect as provided in subdivision (b) or
8 (g) or paragraph one of subdivision (d) of section eleven hundred eighty
9 of this article. The Triborough bridge and tunnel authority shall deter-
10 mine the location of the construction or maintenance work areas located
11 at a Triborough bridge and tunnel authority project in which to install
12 and operate photo speed violation monitoring systems. In selecting a
13 construction or maintenance work area in which to install and operate a
14 photo speed violation monitoring system, the Triborough bridge and
15 tunnel authority shall consider criteria including, but not limited to,
16 the speed data, crash history, and roadway geometry applicable to such
17 construction or maintenance work area.

18 2. No photo speed violation monitoring system shall be used in a
19 construction or maintenance work area unless (i) on the day it is to be
20 used it has successfully passed a self-test of its functions; and (ii)
21 it has undergone an annual calibration check performed pursuant to para-
22 graph four of this subdivision. The Triborough bridge and tunnel author-
23 ity shall install signs giving notice that a photo speed violation moni-
24 toring system is in use, in conformance with standards established in
25 the MUTCD.

26 3. Operators of photo speed violation monitoring systems shall have
27 completed training in the procedures for setting up, testing, and oper-
28 ating such systems. Each such operator shall complete and sign a daily
29 set-up log for each such system that the operator operates that (i)
30 states the date and time when, and the location where, the system was
31 set up that day, and (ii) states that such operator successfully
32 performed, and the system passed, the self-tests of such system before
33 producing a recorded image that day. The Triborough bridge and tunnel
34 authority shall retain each such daily log until the later of the date
35 on which the photo speed violation monitoring system to which it applies
36 has been permanently removed from use or the final resolution of all
37 cases involving notices of liability issued based on photographs, micro-
38 photographs, video or other recorded images produced by such system.

39 4. Each photo speed violation monitoring system shall undergo an annu-
40 al calibration check performed by an independent calibration laboratory
41 which shall issue a signed certificate of calibration. The Triborough
42 bridge and tunnel authority shall keep each such annual certificate of
43 calibration on file until the final resolution of all cases involving a
44 notice of liability issued during such year which were based on photo-
45 graphs, microphotographs, videotape or other recorded images produced by
46 such photo speed violation monitoring system.

47 5. (i) Such program shall utilize necessary technologies to ensure, to
48 the extent practicable, that photographs, microphotographs, videotape or
49 other recorded images produced by such photo speed violation monitoring
50 systems shall not include images that identify the driver, the passen-
51 gers, or the contents of the vehicle. Provided, however, that no notice
52 of liability issued pursuant to this section shall be dismissed solely
53 because such a photograph, microphotograph, videotape or other recorded
54 image allows for the identification of the driver, the passengers, or
55 the contents of vehicles where the Triborough bridge and tunnel authori-

1 ty shows that it made reasonable efforts to comply with the provisions
2 of this paragraph in such case.

3 (ii) Photographs, microphotographs, videotape or any other recorded
4 image from a photo speed violation monitoring system shall be for the
5 exclusive use of the Triborough bridge and tunnel authority for the
6 purpose of the adjudication of liability imposed pursuant to this
7 section and of the owner receiving a notice of liability pursuant to
8 this section, and shall be destroyed by the Triborough bridge and tunnel
9 authority upon the final resolution of the notice of liability to which
10 such photographs, microphotographs, videotape or other recorded images
11 relate, or one year following the date of issuance of such notice of
12 liability, whichever is later. Notwithstanding the provisions of any
13 other law, rule or regulation to the contrary, photographs, microphoto-
14 graphs, videotape or any other recorded image from a photo speed
15 violation monitoring system shall not be open to the public, nor subject
16 to civil or criminal process or discovery, nor used by any court or
17 administrative or adjudicatory body in any action or proceeding therein
18 except that which is necessary for the adjudication of a notice of
19 liability issued pursuant to this section, and no public entity or
20 employee, officer or agent thereof shall disclose such information,
21 except that such photographs, microphotographs, videotape or any other
22 recorded images from such systems:

23 (A) shall be available for inspection and copying and use by the motor
24 vehicle owner and operator for so long as such photographs, microphoto-
25 graphs, videotape or other recorded images are required to be maintained
26 or are maintained by such public entity, employee, officer or agent; and

27 (B) (1) shall be furnished when described in a search warrant issued
28 by a court authorized to issue such a search warrant pursuant to article
29 six hundred ninety of the criminal procedure law or a federal court
30 authorized to issue such a search warrant under federal law, where such
31 search warrant states that there is reasonable cause to believe such
32 information constitutes evidence of, or tends to demonstrate that, a
33 misdemeanor or felony offense was committed in this state or another
34 state, or that a particular person participated in the commission of a
35 misdemeanor or felony offense in this state or another state, provided,
36 however, that if such offense was against the laws of another state, the
37 court shall only issue a warrant if the conduct comprising such offense
38 would, if occurring in this state, constitute a misdemeanor or felony
39 against the laws of this state; and

40 (2) shall be furnished in response to a subpoena duces tecum signed by
41 a judge of competent jurisdiction and issued pursuant to article six
42 hundred ten of the criminal procedure law or a judge or magistrate of a
43 federal court authorized to issue such a subpoena duces tecum under
44 federal law, where the judge finds and the subpoena states that there is
45 reasonable cause to believe such information is relevant and material to
46 the prosecution, or the defense, or the investigation by an authorized
47 law enforcement official, of the alleged commission of a misdemeanor or
48 felony in this state or another state, provided, however, that if such
49 offense was against the laws of another state, such judge or magistrate
50 shall only issue such subpoena if the conduct comprising such offense
51 would, if occurring in this state, constitute a misdemeanor or felony in
52 this state; and

53 (3) may, if lawfully obtained pursuant to this clause and clause (A)
54 of this subparagraph and otherwise admissible, be used in such criminal
55 action or proceeding.

1 (b) The owner of a vehicle shall be liable for a penalty imposed
2 pursuant to this section if such vehicle was used or operated with the
3 permission of the owner, express or implied, within a construction or
4 maintenance work area located at a Triborough bridge and tunnel authori-
5 ty project in violation of paragraph two of subdivision (d) or subdivi-
6 sion (f), or when other speed limits are in effect in violation of
7 subdivision (b) or (g) or paragraph one of subdivision (d) of section
8 eleven hundred eighty of this article, such vehicle was traveling at a
9 speed of more than ten miles per hour above the posted speed limit in
10 effect within such construction or maintenance work area, and such
11 violation is evidenced by information obtained from a photo speed
12 violation monitoring system; provided however that no owner of a vehicle
13 shall be liable for a penalty imposed pursuant to this section where the
14 operator of such vehicle has been convicted of the underlying violation
15 of subdivision (b), (d), (f) or (g) of section eleven hundred eighty of
16 this article.

17 (c) For purposes of this section, the following terms shall have the
18 following meanings:

19 1. "manual on uniform traffic control devices" or "MUTCD" shall mean
20 the manual and specifications for a uniform system of traffic control
21 devices maintained by the commissioner of transportation pursuant to
22 section sixteen hundred eighty of this chapter;

23 2. "owner" shall have the meaning provided in article two-B of this
24 chapter;

25 3. "photo speed violation monitoring system" shall mean a vehicle
26 sensor installed to work in conjunction with a speed measuring device
27 which automatically produces two or more photographs, two or more micro-
28 photographs, a videotape or other recorded images of each vehicle at the
29 time it is used or operated in a construction or maintenance work area
30 located at a Triborough bridge and tunnel authority project in violation
31 of subdivision (b), (d), (f) or (g) of section eleven hundred eighty of
32 this article in accordance with the provisions of this section;

33 4. "Triborough bridge and tunnel authority projects" shall mean the
34 projects referred to in subdivision nine of section five hundred fifty-
35 three of the public authorities law, or as otherwise provided in an
36 applicable interagency agreement.

37 (d) A certificate, sworn to or affirmed by a technician employed by
38 the Triborough bridge and tunnel authority or its agent as applicable,
39 or a facsimile thereof, based upon inspection of photographs, micropho-
40 tographs, videotape or other recorded images produced by a photo speed
41 violation monitoring system, shall be prima facie evidence of the facts
42 contained therein. Any photographs, microphotographs, videotape or other
43 recorded images evidencing such a violation shall include at least two
44 date and time stamped images of the rear of the motor vehicle that
45 include the same stationary object near the motor vehicle to the extent
46 practicable and shall be available for inspection reasonably in advance
47 of and at any proceeding to adjudicate the liability for such violation
48 pursuant to this section.

49 (e) An owner liable for a violation of subdivision (b), (d), (f) or
50 (g) of section eleven hundred eighty of this article pursuant to a
51 program established pursuant to this section shall be liable for mone-
52 tary penalties not to exceed fifty dollars for a first violation, seven-
53 ty-five dollars for a second violation both of which were committed
54 within a period of eighteen months, and one hundred dollars for a third
55 or subsequent violation all of which were committed within a period of
56 eighteen months; provided, however, that an additional penalty not in

1 excess of twenty-five dollars for each violation may be imposed for the
2 failure to respond to a notice of liability within the prescribed time
3 period.

4 (f) An imposition of liability under the program established pursuant
5 to this section shall not be deemed a conviction as an operator and
6 shall not be made part of the operating record of the person upon whom
7 such liability is imposed nor shall it be used for insurance purposes in
8 the provision of motor vehicle insurance coverage.

9 (g) 1. A notice of liability shall be sent by first class mail to each
10 person alleged to be liable as an owner for a violation of subdivision
11 (b), (d), (f) or (g) of section eleven hundred eighty of this article
12 pursuant to this section, within fourteen business days if such owner is
13 a resident of this state and within forty-five business days if such
14 owner is a non-resident. Personal delivery on the owner shall not be
15 required. A manual or automatic record of mailing prepared in the ordi-
16 nary course of business shall be prima facie evidence of the facts
17 contained therein.

18 2. A notice of liability shall contain the name and address of the
19 person alleged to be liable as an owner for a violation of subdivision
20 (b), (d), (f) or (g) of section eleven hundred eighty of this article
21 pursuant to this section, the registration number of the vehicle
22 involved in such violation, the location where such violation took
23 place, the date and time of such violation, the identification number of
24 the camera which recorded the violation or other document locator
25 number, at least two date and time stamped images of the rear of the
26 motor vehicle that include the same stationary object near the motor
27 vehicle to the extent practicable, and the certificate charging the
28 liability.

29 3. The notice of liability shall contain information advising the
30 person charged of the manner and the time in which such person may
31 contest the liability alleged in the notice. Such notice of liability
32 shall also contain a prominent warning to advise the person charged that
33 failure to contest in the manner and time provided shall be deemed an
34 admission of liability and that a default judgment may be entered there-
35 on.

36 4. The notice of liability shall be prepared and mailed by the Tribor-
37 ough bridge and tunnel authority or by any other entity authorized by
38 the Triborough bridge and tunnel authority to prepare and mail such
39 notice of liability.

40 (h) Adjudication of the liability imposed upon owners of this section
41 shall be by the New York city parking violations bureau.

42 (i) If an owner receives a notice of liability pursuant to this
43 section for any time period during which the vehicle or the number plate
44 or plates of such vehicle was reported to the police department as
45 having been stolen, it shall be a valid defense to an allegation of
46 liability for a violation of subdivision (b), (d), (f) or (g) of section
47 eleven hundred eighty of this article pursuant to this section that the
48 vehicle or the number plate or plates of such vehicle had been reported
49 to the police as stolen prior to the time the violation occurred and had
50 not been recovered by such time. For purposes of asserting the defense
51 provided by this subdivision, it shall be sufficient that a certified
52 copy of the police report on the stolen vehicle or number plate or
53 plates of such vehicle be sent by first class mail to the Triborough
54 bridge and tunnel authority.

55 (j) 1. An owner who is a lessor of a vehicle to which a notice of
56 liability was issued pursuant to subdivision (g) of this section shall

1 not be liable for the violation of subdivision (b), (d), (f) or (g) of
2 section eleven hundred eighty of this article pursuant to this section,
3 provided that the owner sends to the Triborough Bridge and tunnel
4 authority a copy of the rental, lease or other such contract document
5 covering such vehicle on the date of the violation, with the name and
6 address of the lessee clearly legible, within thirty-seven days after
7 receiving notice from the Triborough bridge and tunnel authority of the
8 date and time of such violation, together with the other information
9 contained in the original notice of liability. Failure to send such
10 information within such thirty-seven-day time period shall render the
11 owner liable for the penalty prescribed by this section. Where the
12 lessor complies with the provisions of this paragraph, the lessee of
13 such vehicle on the date of such violation shall be deemed to be the
14 owner of such vehicle for purposes of this section, shall be subject to
15 liability for the violation of subdivision (b), (d), (f) or (g) of
16 section eleven hundred eighty of this article pursuant to this section
17 and shall be sent a notice of liability pursuant to subdivision (g) of
18 this section.

19 2. An owner who is a lessor of a vehicle to which a notice of liabil-
20 ity was issued pursuant to subdivision (g) of this section shall not be
21 liable for the violation of subdivision (b), (d), (f) or (g) of section
22 eleven hundred eighty of this article, provided that:

23 (i) prior to the violation, the lessor has filed with the bureau in
24 accordance with the provisions of section two hundred thirty-nine of
25 this chapter; and

26 (ii) within thirty-seven days after receiving notice from the Tribor-
27 ough bridge and tunnel authority of the date and time of a liability,
28 together with the other information contained in the original notice of
29 liability, the lessor submits to the Triborough bridge and tunnel
30 authority the correct name and address of the lessee of the vehicle
31 identified in the notice of liability at the time of such violation,
32 together with such other additional information contained in the rental,
33 lease or other contract document, as may be reasonably required by the
34 Triborough bridge and tunnel authority pursuant to regulations that may
35 be promulgated for such purpose.

36 3. Failure to comply with this subdivision shall render the owner
37 liable for the penalty prescribed in this section.

38 4. Where the lessor complies with the provisions of this subdivision,
39 the lessee of such vehicle on the date of such violation shall be deemed
40 to be the owner of such vehicle for purposes of this section, shall be
41 subject to liability for such violation pursuant to this section and
42 shall be sent a notice of liability pursuant to subdivision (g) of this
43 section.

44 (k) 1. If the owner liable for a violation of subdivision (b), (d),
45 (f) or (g) of section eleven hundred eighty of this article pursuant to
46 this section was not the operator of the vehicle at the time of the
47 violation, the owner may maintain an action for indemnification against
48 the operator.

49 2. Notwithstanding any other provision of this section, no owner of a
50 vehicle shall be subject to a monetary fine imposed pursuant to this
51 section if the operator of such vehicle was operating such vehicle with-
52 out the consent of the owner at the time such operator operated such
53 vehicle in violation of subdivision (b), (d), (f) or (g) of section
54 eleven hundred eighty of this article. For purposes of this subdivision
55 there shall be a presumption that the operator of such vehicle was oper-
56 ating such vehicle with the consent of the owner at the time such opera-

1 tor operated such vehicle in violation of subdivision (b), (d), (f) or
2 (g) of section eleven hundred eighty of this article.

3 (l) Nothing in this section shall be construed to limit the liability
4 of an operator of a vehicle for any violation of subdivision (b), (d),
5 (f) or (g) of section eleven hundred eighty of this article.

6 (m) It shall be a defense to any prosecution for a violation of subdivi-
7 vision (b), (d), (f) or (g) of section eleven hundred eighty of this
8 article pursuant to this section that such photo speed violation moni-
9 toring system was malfunctioning at the time of the alleged violation.

10 § 3. The vehicle and traffic law is amended by adding a new section
11 1180-i to read as follows:

12 § 1180-i. Owner liability for failure of operator to comply with
13 certain posted maximum speed limits; New York state bridge authority
14 project highway construction or maintenance work area. (a) 1. Notwith-
15 standing any other provision of law, the New York state bridge authority
16 "bridge authority", a body corporate and politic constituting a public
17 benefit corporation created and constituted pursuant to title two of
18 article three of the public authorities law, is hereby authorized to
19 establish a program imposing monetary liability on the owner of a vehi-
20 cle for failure of an operator thereof to comply with posted maximum
21 speed limits in a construction or maintenance work area located at any
22 bridge authority project referred to in subdivision ten or ten-a of
23 section five hundred twenty-eight of the public authorities law, or as
24 otherwise provided in an applicable interagency agreement, (i) when
25 construction or maintenance work is occurring and a work area speed
26 limit is in effect as provided in paragraph two of subdivision (d) or
27 subdivision (f) of section eleven hundred eighty of this article or (ii)
28 when construction or maintenance work is occurring and other speed
29 limits are in effect as provided in subdivision (b) or (g) or paragraph
30 one of subdivision (d) of section eleven hundred eighty of this article.
31 Such program shall empower the bridge authority to install photo speed
32 violation monitoring systems within no more than five construction or
33 maintenance work areas located at bridge authority projects and to oper-
34 ate such systems within such work areas (iii) when construction or main-
35 tenance work is occurring and a work area speed limit is in effect as
36 provided in paragraph two of subdivision (d) or subdivision (f) of
37 section eleven hundred eighty of this article or (iv) when construction
38 or maintenance work is occurring and other speed limits are in effect as
39 provided in subdivision (b) or (g) or paragraph one of subdivision (d)
40 of section eleven hundred eighty of this article. The bridge authority
41 shall determine the location of the construction or maintenance work
42 areas located at a bridge authority project in which to install and
43 operate photo speed violation monitoring systems. In selecting a
44 construction or maintenance work area in which to install and operate a
45 photo speed violation monitoring system, the bridge authority shall
46 consider criteria including, but not limited to, the speed data, crash
47 history, and roadway geometry applicable to such construction or mainte-
48 nance work area.

49 2. No photo speed violation monitoring system shall be used in a
50 construction or maintenance work area unless (i) on the day it is to be
51 used it has successfully passed a self-test of its functions; and (ii)
52 it has undergone an annual calibration check performed pursuant to para-
53 graph four of this subdivision. The bridge authority shall install signs
54 giving notice that a photo speed violation monitoring system is in use,
55 in conformance with standards established in the MUTCD.

1 3. Operators of photo speed violation monitoring systems shall have
2 completed training in the procedures for setting up, testing, and oper-
3 ating such systems. Each such operator shall complete and sign a daily
4 set-up log for each such system that the operator operates that (i)
5 states the date and time when, and the location where, the system was
6 set up that day, and (ii) states that such operator successfully
7 performed, and the system passed, the self-tests of such system before
8 producing a recorded image that day. The bridge authority shall retain
9 each such daily log until the later of the date on which the photo speed
10 violation monitoring system to which it applies has been permanently
11 removed from use or the final resolution of all cases involving notices
12 of liability issued based on photographs, microphotographs, video or
13 other recorded images produced by such system.

14 4. Each photo speed violation monitoring system shall undergo an annu-
15 al calibration check performed by an independent calibration laboratory
16 which shall issue a signed certificate of calibration. The bridge
17 authority shall keep each such annual certificate of calibration on file
18 until the final resolution of all cases involving a notice of liability
19 issued during such year which were based on photographs, microphoto-
20 graphs, videotape or other recorded images produced by such photo speed
21 violation monitoring system.

22 5. (i) Such program shall utilize necessary technologies to ensure, to
23 the extent practicable, that photographs, microphotographs, videotape or
24 other recorded images produced by such photo speed violation monitoring
25 systems shall not include images that identify the driver, the passen-
26 gers, or the contents of the vehicle. Provided, however, that no notice
27 of liability issued pursuant to this section shall be dismissed solely
28 because such a photograph, microphotograph, videotape or other recorded
29 image allows for the identification of the driver, the passengers, or
30 the contents of vehicles where the bridge authority shows that it made
31 reasonable efforts to comply with the provisions of this paragraph in
32 such case.

33 (ii) Photographs, microphotographs, videotape or any other recorded
34 image from a photo speed violation monitoring system shall be for the
35 exclusive use of the bridge authority for the purpose of the adjudi-
36 cation of liability imposed pursuant to this section and of the owner
37 receiving a notice of liability pursuant to this section, and shall be
38 destroyed by the bridge authority upon the final resolution of the
39 notice of liability to which such photographs, microphotographs, vide-
40 otape or other recorded images relate, or one year following the date of
41 issuance of such notice of liability, whichever is later. Notwithstand-
42 ing the provisions of any other law, rule or regulation to the contrary,
43 photographs, microphotographs, videotape or any other recorded image
44 from a photo speed violation monitoring system shall not be open to the
45 public, nor subject to civil or criminal process or discovery, nor used
46 by any court or administrative or adjudicatory body in any action or
47 proceeding therein except that which is necessary for the adjudication
48 of a notice of liability issued pursuant to this section, and no public
49 entity or employee, officer or agent thereof shall disclose such infor-
50 mation, except that such photographs, microphotographs, videotape or any
51 other recorded images from such systems:

52 (A) shall be available for inspection and copying and use by the motor
53 vehicle owner and operator for so long as such photographs, microphoto-
54 graphs, videotape or other recorded images are required to be maintained
55 or are maintained by such public entity, employee, officer or agent; and

1 (B) (1) shall be furnished when described in a search warrant issued
2 by a court authorized to issue such a search warrant pursuant to article
3 six hundred ninety of the criminal procedure law or a federal court
4 authorized to issue such a search warrant under federal law, where such
5 search warrant states that there is reasonable cause to believe such
6 information constitutes evidence of, or tends to demonstrate that, a
7 misdemeanor or felony offense was committed in this state or another
8 state, or that a particular person participated in the commission of a
9 misdemeanor or felony offense in this state or another state, provided,
10 however, that if such offense was against the laws of another state, the
11 court shall only issue a warrant if the conduct comprising such offense
12 would, if occurring in this state, constitute a misdemeanor or felony
13 against the laws of this state; and

14 (2) shall be furnished in response to a subpoena duces tecum signed by
15 a judge of competent jurisdiction and issued pursuant to article six
16 hundred ten of the criminal procedure law or a judge or magistrate of a
17 federal court authorized to issue such a subpoena duces tecum under
18 federal law, where the judge finds and the subpoena states that there is
19 reasonable cause to believe such information is relevant and material to
20 the prosecution, or the defense, or the investigation by an authorized
21 law enforcement official, of the alleged commission of a misdemeanor or
22 felony in this state or another state, provided, however, that if such
23 offense was against the laws of another state, such judge or magistrate
24 shall only issue such subpoena if the conduct comprising such offense
25 would, if occurring in this state, constitute a misdemeanor or felony in
26 this state; and

27 (3) may, if lawfully obtained pursuant to this clause and clause (A)
28 of this subparagraph and otherwise admissible, be used in such criminal
29 action or proceeding.

30 (b) The owner of a vehicle shall be liable for a penalty imposed
31 pursuant to this section if such vehicle was used or operated with the
32 permission of the owner, express or implied, within a construction or
33 maintenance work area located at a bridge authority project in violation
34 of paragraph two of subdivision (d) or subdivision (f), or when other
35 speed limits are in effect in violation of subdivision (b) or (g) or
36 paragraph one of subdivision (d) of section eleven hundred eighty of
37 this article, such vehicle was traveling at a speed of more than ten
38 miles per hour above the posted speed limit in effect within such
39 construction or maintenance work area, and such violation is evidenced
40 by information obtained from a photo speed violation monitoring system;
41 provided however that no owner of a vehicle shall be liable for a penal-
42 ty imposed pursuant to this section where the operator of such vehicle
43 has been convicted of the underlying violation of subdivision (b), (d),
44 (f) or (g) of section eleven hundred eighty of this article.

45 (c) For purposes of this section, the following terms shall have the
46 following meanings:

47 1. "manual on uniform traffic control devices" or "MUTCD" shall mean
48 the manual and specifications for a uniform system of traffic control
49 devices maintained by the commissioner of transportation pursuant to
50 section sixteen hundred eighty of this chapter;

51 2. "owner" shall have the meaning provided in article two-B of this
52 chapter;

53 3. "photo speed violation monitoring system" shall mean a vehicle
54 sensor installed to work in conjunction with a speed measuring device
55 which automatically produces two or more photographs, two or more micro-
56 photographs, a videotape or other recorded images of each vehicle at the

1 time it is used or operated in a construction or maintenance work area
2 located at a bridge authority project in violation of subdivision (b),
3 (d), (f) or (g) of section eleven hundred eighty of this article in
4 accordance with the provisions of this section; and

5 4. "bridge authority projects" shall mean the projects referred to in
6 subdivision ten or ten-a of section five hundred twenty-eight of the
7 public authorities law, or as otherwise provided in an applicable inter-
8 agency agreement.

9 (d) A certificate, sworn to or affirmed by a technician employed by
10 the bridge authority or its agent as applicable, or a facsimile thereof,
11 based upon inspection of photographs, microphotographs, videotape or
12 other recorded images produced by a photo speed violation monitoring
13 system, shall be prima facie evidence of the facts contained therein.
14 Any photographs, microphotographs, videotape or other recorded images
15 evidencing such a violation shall include at least two date and time
16 stamped images of the rear of the motor vehicle that include the same
17 stationary object near the motor vehicle to the extent practicable and
18 shall be available for inspection reasonably in advance of and at any
19 proceeding to adjudicate the liability for such violation pursuant to
20 this section.

21 (e) An owner liable for a violation of subdivision (b), (d), (f) or
22 (g) of section eleven hundred eighty of this article pursuant to a
23 program established pursuant to this section shall be liable for mone-
24 tary penalties not to exceed fifty dollars for a first violation, seven-
25 ty-five dollars for a second violation both of which were committed
26 within a period of eighteen months, and one hundred dollars for a third
27 or subsequent violation all of which were committed within a period of
28 eighteen months; provided, however, that an additional penalty not in
29 excess of twenty-five dollars for each violation may be imposed for the
30 failure to respond to a notice of liability within the prescribed time
31 period.

32 (f) An imposition of liability under the program established pursuant
33 to this section shall not be deemed a conviction as an operator and
34 shall not be made part of the operating record of the person upon whom
35 such liability is imposed nor shall it be used for insurance purposes in
36 the provision of motor vehicle insurance coverage.

37 (g) 1. A notice of liability shall be sent by first class mail to each
38 person alleged to be liable as an owner for a violation of subdivision
39 (b), (d), (f) or (g) of section eleven hundred eighty of this article
40 pursuant to this section, within fourteen business days if such owner is
41 a resident of this state and within forty-five business days if such
42 owner is a non-resident. Personal delivery on the owner shall not be
43 required. A manual or automatic record of mailing prepared in the ordi-
44 nary course of business shall be prima facie evidence of the facts
45 contained therein.

46 2. A notice of liability shall contain the name and address of the
47 person alleged to be liable as an owner for a violation of subdivision
48 (b), (d), (f) or (g) of section eleven hundred eighty of this article

51 place, the date and time of such violation, the identification number of
52 the camera which recorded the violation or other document locator
53 number, at least two date and time stamped images of the rear of the
54 motor vehicle that include the same stationary object near the motor
55 vehicle to the extent practicable, and the certificate charging the
56 liability.

1 3. The notice of liability shall contain information advising the
2 person charged of the manner and the time in which such person may
3 contest the liability alleged in the notice. Such notice of liability
4 shall also contain a prominent warning to advise the person charged that
5 failure to contest in the manner and time provided shall be deemed an
6 admission of liability and that a default judgment may be entered there-
7 on.

8 4. The notice of liability shall be prepared and mailed by the bridge
9 authority or by any other entity authorized by the bridge authority to
10 prepare and mail such notice of liability.

11 (h) Adjudication of the liability imposed upon owners of this section
12 shall be by a traffic violations bureau established pursuant to section
13 three hundred seventy of the general municipal law where the violation
14 occurred or, if there be none, by a hearing officer designated by the
15 commissioner of motor vehicles.

16 (i) If an owner receives a notice of liability pursuant to this
17 section for any time period during which the vehicle or the number plate
18 or plates of such vehicle was reported to the police department as
19 having been stolen, it shall be a valid defense to an allegation of
20 liability for a violation of subdivision (b), (d), (f) or (g) of section
21 eleven hundred eighty of this article pursuant to this section that the
22 vehicle or the number plate or plates of such vehicle had been reported
23 to the police as stolen prior to the time the violation occurred and had
24 not been recovered by such time. For purposes of asserting the defense
25 provided by this subdivision, it shall be sufficient that a certified
26 copy of the police report on the stolen vehicle or number plate or
27 plates of such vehicle be sent by first class mail to the bridge author-
28 ity.

29 (j) 1. An owner who is a lessor of a vehicle to which a notice of
30 liability was issued pursuant to subdivision (g) of this section shall
31 not be liable for the violation of subdivision (b), (d), (f) or (g) of
32 section eleven hundred eighty of this article pursuant to this section,
33 provided that the owner sends to the bridge authority a copy of the
34 rental, lease or other such contract document covering such vehicle on
35 the date of the violation, with the name and address of the lessee
36 clearly legible, within thirty-seven days after receiving notice from
37 the bridge authority of the date and time of such violation, together
38 with the other information contained in the original notice of liabil-
39 ity. Failure to send such information within such thirty-seven-day time
40 period shall render the owner liable for the penalty prescribed by this
41 section. Where the lessor complies with the provisions of this para-
42 graph, the lessee of such vehicle on the date of such violation shall be
43 deemed to be the owner of such vehicle for purposes of this section,
44 shall be subject to liability for the violation of subdivision (b), (d),
45 (f) or (g) of section eleven hundred eighty of this article pursuant to
46 this section and shall be sent a notice of liability pursuant to subdivi-

48 2. In a city which, by local law, has authorized the adjudication of
49 liability imposed upon owners by this section by a parking violations
50 bureau, an owner who is a lessor of a vehicle to which a notice of
51 liability was issued pursuant to subdivision (g) of this section shall
52 not be liable for the violation of subdivision (b), (d), (f) or (g) of
53 section eleven hundred eighty of this article, provided that:

54 (i) prior to the violation, the lessor has filed with the bureau in
55 accordance with the provisions of section two hundred thirty-nine of
56 this chapter; and

1 (ii) within thirty-seven days after receiving notice from the bridge
2 authority of the date and time of a liability, together with the other
3 information contained in the original notice of liability, the lessor
4 submits to the bridge authority the correct name and address of the
5 lessee of the vehicle identified in the notice of liability at the time
6 of such violation, together with such other additional information
7 contained in the rental, lease or other contract document, as may be
8 reasonably required by the bridge authority pursuant to regulations that
9 may be promulgated for such purpose.

10 3. Failure to comply with this subdivision shall render the owner
11 liable for the penalty prescribed in this section.

12 4. Where the lessor complies with the provisions of this subdivision,
13 the lessee of such vehicle on the date of such violation shall be deemed
14 to be the owner of such vehicle for purposes of this section, shall be
15 subject to liability for such violation pursuant to this section and
16 shall be sent a notice of liability pursuant to subdivision (g) of this
17 section.

18 (k) 1. If the owner liable for a violation of subdivision (b), (d),
19 (f) or (g) of section eleven hundred eighty of this article pursuant to
20 this section was not the operator of the vehicle at the time of the
21 violation, the owner may maintain an action for indemnification against
22 the operator.

23 2. Notwithstanding any other provision of this section, no owner of a
24 vehicle shall be subject to a monetary fine imposed pursuant to this
25 section if the operator of such vehicle was operating such vehicle with-
26 out the consent of the owner at the time such operator operated such
27 vehicle in violation of subdivision (b), (d), (f) or (g) of section
28 eleven hundred eighty of this article. For purposes of this subdivision
29 there shall be a presumption that the operator of such vehicle was oper-
30 ating such vehicle with the consent of the owner at the time such opera-
31 tor operated such vehicle in violation of subdivision (b), (d), (f) or
32 (g) of section eleven hundred eighty of this article.

33 (l) Nothing in this section shall be construed to limit the liability
34 of an operator of a vehicle for any violation of subdivision (b), (d),
35 (f) or (g) of section eleven hundred eighty of this article.

36 (m) It shall be a defense to any prosecution for a violation of subdivi-
37 vision (b), (d), (f) or (g) of section eleven hundred eighty of this
38 article pursuant to this section that such photo speed violation moni-
39 toring system was malfunctioning at the time of the alleged violation.

40 (n) If the chair of either authority adopts a demonstration program
41 pursuant to section 1180-h of this article or this section the respec-
42 tive executive director or chair, as applicable, shall conduct a study
43 and submit a report on or before May first, two thousand twenty-eight
44 and a report on or before May first, two thousand thirty on the results
45 of the use of photo devices to the governor, the temporary president of
46 the senate and the speaker of the assembly. The executive director or
47 chair shall also make such reports available on their public-facing
48 websites, provided that they may provide aggregate data from paragraph
49 one of this subdivision if the executive director or chair finds that
50 publishing specific location data would jeopardize public safety. Such
51 report shall include:

52 1. the locations where and dates when photo speed violation monitoring
53 systems were used;

54 2. the aggregate number, type and severity of crashes, fatalities,
55 injuries and property damage reported within all highway construction or

3 3. the aggregate number, type and severity of crashes, fatalities,

8 4. the number of violations recorded within all highway construction
9 or maintenance work areas on controlled-access highways or crossings, in
10 the aggregate on a daily, weekly and monthly basis to the extent the
11 information is maintained by the executive director, chair or the
12 department of motor vehicles of this state;

13 5. the number of violations recorded within each crossing construction
14 or maintenance work area where a photo speed violation monitoring system
15 is used, in the aggregate on a daily, weekly and monthly basis;

16 6. to the extent the information is maintained by the executive direc-
17 tor, chair or the department of motor vehicles of this state, the number
18 of violations recorded within all highway construction or maintenance

20 (i) more than ten but not more than twenty miles per hour over the
21 posted speed limit;

22 (ii) more than twenty but not more than thirty miles per hour over the
23 posted speed limit;

24 (iii) more than thirty but not more than forty miles per hour over the
25 posted speed limit; and

26 (iv) more than forty miles per hour over the posted speed limit;

27 7. the number of violations recorded within each highway construction

32 (ii) more than twenty but not more than thirty miles per hour over the
33 posted speed limit;

9 for failure of an operator thereof to comply with subdivision (b), (d),
10 (f) or (g) of section eleven hundred eighty of this chapter in accord-
11 ance with section eleven hundred eighty-e of this chapter, any fine or
12 penalty collected by a court, judge, magistrate or other officer for an
13 imposition of liability which occurs pursuant to such program shall be
14 paid to the state comptroller within the first [~~ten~~ thirty] days of the
15 month following collection, except as otherwise provided in subdivision
16 three of section ninety-nine-a of the state finance law. Every such

20 imposed for such liability shall be paid to the general fund, and twenty
21 percent of any such fine or penalty shall be paid to the city, town or

37 projects after deducting the expenses necessary to administer such
38 demonstration program, provided, however, that except as provided pursu-

40 provided pursuant to this subdivision shall be payable on the audit and
41 warrant of the comptroller and shall only be used to supplement and not

14 city, town or village in which the violation giving rise to the liabil-
15 ity occurred, provided, however, that (a) within a county that has
16 established a traffic and parking violations agency pursuant to section
17 three hundred seventy of the general municipal law and such liability is
18 disposed of by such agency, eighty percent of any such fine or penalty

25 shall submit an affidavit of financial solvency, including financial
26 statements, noting such capitalization requirements and access to such
27 credit or such other affirmation or information as may be prescribed by
28 the regulations of the superintendent. The applicant shall also submit
29 policies and procedures for the underwriting standards utilized in
30 extending buy-now-pay-later loans to consumers.

31 § 738. Conditions precedent to issuing a license; procedure where
32 application is denied. 1. After the filing of an application for a
33 license accompanied by payment of the fee pursuant to subdivision three
34 of section seven hundred thirty-seven of this article, it shall be
35 substantively reviewed. After the application is deemed sufficient and
36 complete, if the superintendent finds that the financial responsibility,
37 including meeting any capital requirements as established pursuant to
38 subdivision three of this section, experience, character and general
39 fitness of the applicant or any person associated with the applicant are
40 such as to command the confidence of the community and to warrant the
41 belief that the business will be conducted honestly, fairly and effi-
42 ciently within the purposes and intent of this article, the superinten-
43 dent shall issue the license. For the purpose of this subdivision, the
44 applicant shall be deemed to include all the members of the applicant if
45 it is a partnership or unincorporated association or organization, and
46 all the stockholders, officers and directors of the applicant if it is a
47 corporation.

48 2. If the superintendent refuses to issue a license, the superinten-
49 dent shall notify the applicant of the denial and retain the fee paid
50 pursuant to subdivision three of section seven hundred thirty-seven of
51 this article.

52 3. The superintendent shall promulgate rules and regulations setting
53 capital requirements to ensure the solvency and financial integrity of
54 licensees and their ongoing operations, taking into account the risks,
55 volume of business, complexity, and other relevant factors regarding
56 such licensees. Further, the superintendent may promulgate rules and

1 regulations prescribing a methodology to calculate capital requirements
2 with respect to licensees or categories thereof.

3 § 739. License provisions and posting. 1. A license issued under this
4 article shall state the name and address of the licensee, and if the
5 licensee be a co-partnership or association, the names of the members
6 thereof, and if a corporation the date and place of its incorporation.

7 2. Such license shall be kept conspicuously posted on the mobile
8 application, website, or other consumer interface of the licensee, as
9 well as listed in the terms and conditions of any buy-now-pay-later loan
10 offered or entered into by the licensee. The superintendent may provide
11 by regulation an alternative form of notice of licensure.

12 3. A license issued under this article shall not be transferable or
13 assignable.

14 § 740. Application for acquisition of control of buy-now-pay-later
15 lender by purchase of stock. 1. It shall be unlawful except with the
16 prior approval of the superintendent for any action to be taken which
17 results in a change of control of the business of a licensee. Prior to
18 any change of control, the person desirous of acquiring control of the
19 business of a licensee shall make written application to the superinten-
20 dent and pay an investigation fee as prescribed pursuant to section
21 eighteen-a of this chapter to the superintendent. The application shall
22 contain such information as the superintendent, by regulation, may
23 prescribe as necessary or appropriate for the purpose of making the
24 determination required by subdivision two of this section.

25 2. The superintendent shall approve or disapprove the proposed change
26 of control of a licensee in accordance with the provisions of section
27 seven hundred thirty-eight of this article.

28 3. For a period of six months from the date of qualification thereof
29 and for such additional period of time as the superintendent may
30 prescribe, in writing, the provisions of subdivisions one and two of
31 this section shall not apply to a transfer of control by operation of
32 law to the legal representative, as hereinafter defined, of one who has
33 control of a licensee. Thereafter, such legal representative shall
34 comply with the provisions of subdivisions one and two of this section.
35 The provisions of subdivisions one and two of this section shall be
36 applicable to an application made under such section by a legal repre-
37 sentative.

38 4. The term "legal representative," for the purposes of this section,
39 shall mean one duly appointed by a court of competent jurisdiction to
40 act as executor, administrator, trustee, committee, conservator or
41 receiver, including one who succeeds a legal representative and one
42 acting in an ancillary capacity thereto in accordance with the
43 provisions of such court appointment.

44 5. As used in this section, the term "control" means the possession,
45 directly or indirectly, of the power to direct or cause the direction of
46 the management and policies of a licensee, whether through the ownership
47 of voting stock of such licensee, the ownership of voting stock of any
48 person which possesses such power or otherwise. Control shall be
49 presumed to exist if any person, directly or indirectly, owns, controls
50 or holds with power to vote ten per centum or more of the voting stock
51 of any licensee or of any person which owns, controls or holds with
52 power to vote ten per centum or more of the voting stock of any licen-
53 see, but no person shall be deemed to control a licensee solely by
54 reason of being an officer or director of such licensee or person. The
55 superintendent may in the superintendent's discretion, upon the applica-
56 tion of a licensee or any person who, directly or indirectly, owns,

1 controls or holds with power to vote or seeks to own, control or hold
2 with power to vote any voting stock of such licensee, determine whether
3 or not the ownership, control or holding of such voting stock consti-
4 tutes or would constitute control of such licensee for purposes of this
5 section.

6 § 741. Grounds for revocation or suspension of license; procedure. 1.
7 A license granted under this article may be revoked or suspended by the
8 superintendent upon a finding that:

9 (a) the licensee has violated any applicable law or regulation;

10 (b) any fact or condition exists which, if it had existed at the time
11 of the original application for such license, clearly would have
12 warranted the superintendent's refusal to issue such license; or

13 (c) the licensee has failed to pay any sum of money lawfully demanded
14 by the superintendent or to comply with any demand, ruling or require-
15 ment of the superintendent.

16 2. Any licensee may surrender any license by delivering to the super-
17 intendent written notice that the licensee thereby surrenders such
18 license. Such surrender shall be effective upon its acceptance by the
19 superintendent, and shall not affect such licensee's civil or criminal
20 liability for acts committed prior to such surrender.

21 3. Every license issued under this article shall remain in force and
22 effect until the same shall have been surrendered, revoked or suspended,
23 in accordance with the provisions of this article, but the superinten-
24 dent shall have authority to reinstate suspended licenses or to issue a
25 new license to a licensee whose license has been revoked if no fact or
26 condition then exists which clearly would have warranted the superinten-
27 dent's refusal to issue such license.

28 4. Whenever the superintendent shall revoke or suspend a license
29 issued under this article, the superintendent shall forthwith execute a
30 written order to that effect, which order may be reviewed in the manner
31 provided by article seventy-eight of the civil practice law and rules.
32 Such special proceeding for review as authorized by this section must be
33 commenced within thirty days from the date of such order of suspension
34 or revocation.

35 5. The superintendent may, for good cause, without notice and a hear-
36 ing, suspend any license issued under this article for a period not
37 exceeding thirty days, pending investigation. "Good cause," as used in
38 this subdivision, shall exist only when the licensee has engaged in or
39 is likely to engage in a practice prohibited by this article or the
40 rules and regulations promulgated thereunder or engages in dishonest or
41 inequitable practices which may cause substantial harm to the public.

42 6. No revocation, suspension or surrender of any license shall impair
43 or affect any pre-existing lawful contracts between the licensee and any
44 borrower.

45 § 742. Superintendent authorized to examine. 1. The superintendent
46 shall have the power to make such investigations as the superintendent
47 shall deem necessary to determine whether any buy-now-pay-later lender
48 or any other person has violated any of the provisions of this article
49 or any other applicable law, or whether any licensee has conducted
50 itself in such manner as would justify the revocation of its license,
51 and to the extent necessary therefor, the superintendent may require the
52 attendance of and examine any person under oath, and shall have the
53 power to compel the production of all relevant books, records, accounts,
54 and documents.

55 2. The superintendent shall have the power to make such examinations
56 of the books, records, accounts and documents used in the business of

1 any licensee as the superintendent shall deem necessary to determine
2 whether any such licensee has violated any of the provisions of this
3 chapter or any other applicable law or to secure information lawfully
4 required by the superintendent.

5 § 743. Licensee's books and records; reports. 1. A buy-now-pay-later
6 lender shall keep and use in its business such books, accounts and
7 records as will enable the superintendent to determine whether such
8 buy-now-pay-later lender is complying with the provisions of this arti-
9 cle and with the rules and regulations promulgated by the superintendent
10 thereunder. Every buy-now-pay-later lender shall preserve such books,
11 accounts and records for at least six years after making the final entry
12 in respect to any buy-now-pay-later loan recorded therein; provided,
13 however, the preservation of photographic or digital reproductions ther-
14 eof or records in photographic or digital form shall constitute compli-
15 ance with this requirement.

16 2. By a date to be set by the superintendent, each licensee shall
17 annually file a report with the superintendent giving such information
18 as the superintendent may require concerning the licensee's business and
19 operations during the preceding calendar year within the state under the
20 authority of this article. Such report shall be subscribed and affirmed
21 as true by the licensee under the penalties of perjury and be in the
22 form prescribed by the superintendent. In addition to such annual
23 reports, the superintendent may require of licensees such additional
24 regular or special reports as the superintendent may deem necessary to
25 the proper supervision of licensees under this article. Such additional
26 reports shall be in the form prescribed by the superintendent and shall
27 be subscribed and affirmed as true under the penalties of perjury.

28 § 744. Acts prohibited. 1. No buy-now-pay-later lender shall take or
29 cause to be taken any confession of judgment or any power of attorney to
30 confess judgment or to appear for the consumer in a judicial proceeding.

31 2. No buy-now-pay-later lender shall:

32 (a) employ any scheme, device, or artifice to defraud or mislead a
33 borrower;

34 (b) engage in any deceptive or unfair practice toward any person or
35 misrepresent or omit any material information in connection with the
36 buy-now-pay-later loans, including, but not limited to, misrepresenting
37 the amount, nature or terms of any fee or payment due or claimed to be
38 due on the loan, the terms and conditions of the loan agreement or the
39 borrower's obligations under the loan;

40 (c) misapply payments to the outstanding balance of any buy-now-pay-
41 later loan or to any related fees;

42 (d) provide inaccurate information to a consumer reporting agency; or

43 (e) make any false statement or make any omission of a material fact
44 in connection with any information or reports filed with a governmental
45 agency or in connection with any investigation conducted by the super-
46 intendent or another governmental agency.

47 § 745. Limitation on charges. 1. Subject to applicable federal law, no
48 buy-now-pay-later lender shall charge, contract for, or otherwise
49 receive from a consumer any interest, discount, or other consideration
50 in connection with a buy-now-pay-later loan.

51 2. The superintendent shall establish a standard amount or percentage
52 for total maximum charge or fee in connection with late payment,
53 default, any fee in connection with a buy-now-pay-later loan, or any
54 other violation of the buy-now-pay-later loan agreement that a buy-now-
55 pay-later lender can charge a consumer. Such fee or charge shall not be

1 collected more than once for a single such late payment, default, or
2 other violation of the buy-now-pay-later loan agreement.

3 3. The superintendent shall promulgate rules and regulations regarding
4 the manner of charging fees described in this section.

5 § 746. Consumer protections. 1. A buy-now-pay-later lender shall
6 disclose or cause to be disclosed to consumers the terms of buy-now-pay-
7 later loans, including the cost, such as fees, repayment schedule, the
8 means by which a consumer may dispute billing practices, whether the
9 transaction will or will not be reported to a credit reporting agency,
10 and other material conditions, in a clear and conspicuous manner.
11 Disclosures shall comply with applicable federal regulations, including
12 but not limited to regulation Z of title I of the Consumer Credit
13 Protection Act.

14 2. Subject to regulations to be promulgated by the superintendent, a
15 buy-now-pay-later lender shall, before providing or causing to be
16 provided a buy-now-pay-later loan to a consumer, perform reasonable
17 risk-based underwriting. A buy-now-pay-later lender shall disclose or
18 cause to be disclosed the factors considered in its underwriting proc-
19 ess, in a clear and conspicuous manner, to the consumer. A buy-now-pay-
20 later lender shall maintain or cause to be maintained policies and
21 procedures for reasonable underwriting standards that may be reviewed by
22 the superintendent. No buy-now-pay-later lender shall collect, evaluate,
23 report, or maintain in the file on a borrower the credit worthiness,
24 credit standing, or credit capacity of members of the borrower's social
25 network for purposes of determining the credit worthiness of the borrow-
26 er; the average credit worthiness, credit standing, or credit capacity
27 of members of the borrower's social network; or any group score that is
28 not the borrower's own credit worthiness, credit standing, or credit
29 capacity.

30 3. A buy-now-pay-later lender shall maintain or cause to be maintained
31 policies and procedures for maintaining accurate data that may be
32 reported to credit reporting agencies.

33 4. A buy-now-pay-later lender shall provide or cause to be provided
34 refunds or credits for goods or services purchased in connection with a
35 buy-now-pay-later loan, upon consumer request, in a manner that is fair,
36 transparent, and not unduly burdensome to consumers. A buy-now-pay-later
37 lender shall maintain or cause to be maintained policies and procedures
38 to provide such refunds or credits. Such policies and procedures shall
39 be fair, transparent, and not unduly burdensome to the consumer. A buy-
40 now-pay-later lender shall disclose or cause to be disclosed to consum-
41 ers, in a clear and conspicuous manner, the process by which they can
42 obtain refunds or credits for goods or services they have purchased in
43 connection with a buy-now-pay-later loan.

44 5. A buy-now-pay-later lender shall resolve or cause to be resolved
45 disputes in a manner that is fair and transparent to consumers. A buy-
46 now-pay-later lender shall create or cause to be created a readily
47 available and prominently disclosed method for consumers to bring a
48 dispute to the buy-now-pay-later lender. A buy-now-pay-later lender
49 shall maintain policies and procedures for handling consumer disputes.
50 The superintendent may promulgate rules and regulations regarding treat-
51 ment of unauthorized use, so that consumers are liable for use of buy-
52 now-pay-later loans in their name only under circumstances where such
53 liability would be fair and reasonable. A buy-now-pay-later lender shall
54 apply to buy-now-pay-later loans the dispute rights and unauthorized
55 charges requirements that apply to credit cards under the Truth in Lend-
56 ing Act, 15 U.S.C. § 1643, 1666, 1666a, 1666i, regardless of whether

1 such law applies to buy-now-pay-later loans or whether the buy-now-pay-
2 later lender offers a credit card within the scope of such law.

3 6. A buy-now-pay-later lender may use, sell, or share the data of a
4 consumer, other than in connection with the making of a particular buy-
5 now-pay-later loan to the consumer, only with the consumer's consent. A
6 buy-now-pay-later lender shall disclose or cause to be disclosed to a
7 consumer in a clear and conspicuous manner how such consumer's data may
8 be used, shared, or sold by the buy-now-pay-later lender before obtain-
9 ing such consumer's consent and also shall disclose or cause to be
10 disclosed to such consumer in a clear and conspicuous manner how such
11 consumer may subsequently withdraw consent to such use, sharing, or
12 sale. The superintendent, in their discretion, may by regulation prohib-
13 it certain uses of consumer data. A buy-now-pay-later lender shall main-
14 tain policies and procedures regarding its use, sale, and sharing of
15 consumers' data.

16 7. Any buy-now-pay-later loan made by a person not licensed under this
17 article, other than an exempt organization, shall be void, and such
18 person shall have no right to collect or receive any principal, interest
19 or charge whatsoever.

20 § 747. Authority of superintendent. 1. The superintendent is author-
21 ized to promulgate such general rules and regulations as may be appro-
22 priate to implement the provisions of this article, protect consumers,
23 and ensure the solvency and financial integrity of buy-now-pay-later
24 lenders. The superintendent is further authorized to make such specific
25 rulings, demands, and findings as may be necessary for the proper
26 conduct of the business authorized and licensed under and for the
27 enforcement of this article, in addition hereto and not inconsistent
28 herewith.

29 2. In addition to such powers as may otherwise be prescribed by law,
30 the superintendent is hereby authorized and empowered to promulgate such
31 rules and regulations as may in the judgment of the superintendent be
32 consistent with the purposes of this article, or appropriate for the
33 effective administration of this article, including, but not limited to:

34 (a) such rules and regulations in connection with the activities of
35 buy-now-pay-later lenders as may be necessary and appropriate for the
36 protection of borrowers in this state;

37 (b) such rules and regulations as may be necessary and appropriate to
38 define deceptive or unfair practices in connection with the activities
39 of buy-now-pay-later lenders;

40 (c) such rules and regulations as may define the terms used in this
41 article and as may be necessary and appropriate to interpret and imple-
42 ment the provisions of this article; and

43 (d) such rules and regulations as may be necessary for the enforcement
44 of this article.

45 § 748. Penalties. 1. Any person, including any member, officer, direc-
46 tor or employee of a buy-now-pay-later lender, who violates or partic-
47 ipates in the violation of section seven hundred thirty-seven of this
48 article, or who knowingly makes any incorrect statement of a material
49 fact in any application, report or statement filed pursuant to this
50 article, or who knowingly omits to state any material fact necessary to
51 give the superintendent any information lawfully required by the super-
52 intendent or refuses to permit any lawful investigation or examination,
53 shall be guilty of a misdemeanor and, upon conviction, shall be fined
54 not more than five hundred dollars or imprisoned for not more than six
55 months or both, in the discretion of the court.

1 2. Without limiting any power granted to the superintendent under any
 2 other provision of this chapter, the superintendent may, in a proceeding
 3 after notice and a hearing require a buy-now-pay-later lender, whether
 4 or not a licensee, to pay to the people of this state a penalty for any
 5 violation of this chapter, any rule or regulation promulgated there-
 6 under, any final or temporary order issued pursuant to section thirty-
 7 nine of this chapter, any condition imposed in writing by the super-
 8 intendent in connection with the grant of any application or request, or
 9 any written agreement entered into with the superintendent, and for
 10 knowingly making any incorrect statement of a material fact in any
 11 application, report or statement filed pursuant to this article, or
 12 knowingly omitting to state any material fact necessary to give the
 13 superintendent any information lawfully required by the superintendent
 14 or refusing to permit any lawful investigation or examination. As to any
 15 buy-now-pay-later lender that is not a licensee or an exempt organiza-
 16 tion, the superintendent is authorized to impose a penalty in the same
 17 amount authorized in section forty-four of this chapter for a violation
 18 of this chapter by any person licensed, certified, registered, author-
 19 ized, chartered, accredited, incorporated or otherwise approved by the
 20 superintendent under this chapter.

21 3. No person except a buy-now-pay-later lender licensed under this
 22 article shall make, directly or indirectly, orally or in writing, or by
 23 any method, practice or device, a representation that such person is
 24 licensed under this article.

25 § 749. Severability. If any provision of this article or the applica-
 26 tion thereof to any person or circumstances is held to be invalid, such
 27 invalidity shall not affect other provisions or applications of this
 28 article which can be given effect without the invalid provision or
 29 application, and to this end the provisions of this article are severa-
 30 ble.

46 PART OO

47 Section 1. Section 321 of the agriculture and markets law, as amended
 48 by chapter 158 of the laws of 2018, is amended to read as follows:

49 § 321. Statement of legislative findings and intent. It is hereby
 50 found and declared that agricultural lands are irreplaceable state
 51 assets. In an effort to maintain the economic viability, and environ-

1 mental and landscape preservation values associated with agriculture,
2 the state must explore ways to sustain the state's valuable farm economy
3 [~~and to protect~~] by protecting farm operations and the associated land
4 base [~~associated with it~~] and supporting local and regional food
5 systems. External pressures on farm stability such as population growth
6 [~~in non-metropolitan areas~~], climate change, lack of access to afforda-
7 ble farmland, and public infrastructure development pose a significant
8 threat to farm operations, yet are the pressures over which farmers have
9 the least control. Local initiatives in agricultural protection policy,
10 facilitated by the agricultural districts program established in article
11 twenty-five-AA of this chapter, have proved effective as a basic step in
12 addressing these pressures. In an effort to encourage further develop-
13 ment of agricultural and farmland protection programs, and to recognize
14 both the crucial role that local government plays in developing these
15 strategies, plus the state constitutional directive to the legislature
16 to provide for the protection of agricultural lands, it is therefore
17 declared the policy of the state to promote local initiatives for agri-
18 cultural and farmland protection.

19 § 2. Subdivision 1 of section 322 of the agriculture and markets law,
20 as amended by chapter 158 of the laws of 2018, is amended to read as
21 follows:

22 1. "Agricultural and farmland protection" means [~~the preservation~~]
23 local government initiatives to: preserve, [~~conservation~~] conserve,
24 [~~management~~] manage or [~~improvement of~~] improve lands which are part of
25 viable farming operations, for the purpose of encouraging such lands to
26 remain in agricultural production[~~. Such preservation efforts include~~]
27 including the use of farmland protection conservation easements [~~and~~
28 ~~purchase of development rights.~~]; and activities which support local and
29 regional food systems.

30 § 3. Subdivisions 6 and 7 of section 322 of the agriculture and
31 markets law, as added by chapter 158 of the laws of 2018, are amended to
32 read as follows:

33 6. "Farmer-purchaser farmland protection agreement" means preemptive
34 purchase rights or other provisions that are part of or linked to a
35 farmland protection conservation easement providing the easement holder
36 the preferential right to purchase protected farmland at its agricul-
37 tural use value in the event the landowner intends to sell such farmland
38 to a purchaser who does not intend to maintain the land in [~~commercial~~]
39 agricultural production and who does not have the requisite farming
40 experience and farming income to demonstrate, in a manner acceptable to
41 the department, a good faith plan to maintain the land in [~~commercial~~]
42 agricultural production. The purpose of such provisions is to ensure
43 that farmer-purchasers who would maintain protected farmland in [~~commer-~~
44 ~~cial~~] agricultural production can afford such farmland that might other-
45 wise be sold at a higher price to other purchasers.

46 7. "Agricultural use value" means the fair market value of a property
47 that is restricted by an easement to its productive [~~commercial~~] agri-

49 value for residential or other non-agricultural purposes.

53 that integrates sustainable production, processing, distribution, and
54 consumption of human food, and the associated management of wastes orig-
55 inating from within this network, in order to enhance the environmental,
56 economic, and social health of a particular area.

1 9. "Local food supply chain" means all processes involved in the local
 2 movement of human foods from the farm to the consumer, including market-
 3 ing, markets, distribution, aggregation, processing, packaging, purchas-
 4 ing, preparation, resource recovery, and waste disposal.

5 10. "Urban agriculture" means the production, processing, distrib-
 6 ution, and marketing of food within urban, suburban, and peri-urban
 7 (i.e., on the perimeter of urban areas) areas for commercial, non-com-
 8 mercial, educational, or not-for-profit purposes.

17 agreements are eligible for state assistance payments.

18 3. Upon receipt of a request for state assistance, the commissioner

15 agricultural economic development, such as opportunities to incorporate
16 agricultural tourism or other value-added enterprises to farm operations
17 in a manner compatible with agricultural land use; and

18 (f) compile and disseminate planning guide(s) that help identify
19 emerging land use conflicts with agriculture and suggested strategies
20 for municipalities to avoid or mitigate potential harm to local farm
21 operations.

22 § 325-c. State assistance payments for agricultural and farmland
23 protection capacity building initiatives. 1. Subject to the availability
24 of funds, state assistance payments may be awarded to counties, munici-

28 assistance payments may provide up to one hundred percent of the cost of
29 each awarded staff capacity initiative. The commissioner may require
30 such information as such commissioner deems necessary to evaluate such a
31 request for state assistance. Any county, municipality, soil and water
32 conservation district, or not-for-profit conservation organization which
33 has previously received state assistance from an award from this program
34 may, after one hundred twenty months from the date of the final payment

19 § 2. This act shall take effect June 1, 2021 [~~and shall expire and be~~
20 ~~deemed repealed December 31, 2025~~].

21 § 2. This act shall take effect immediately.

22 PART RR

23 Section 1. Section 27-1301 of the environmental conservation law is
24 amended by adding five new subdivisions 7-a, 8, 9, 10 and 11 to read as
25 follows:

26 7-a. "Municipality" means a city, county, town, village, public bene-
27 fit corporation or school district, or an improvement district within a
28 city, county, town, or village, or an Indian tribe residing within the
29 state, or any combination thereof.

30 8. "Natural resource damages" means the amount of money sought as
31 compensation for injury to, destruction of, or loss of natural
32 resources, including the reasonable costs of assessing such injury,
33 destruction, or loss resulting from the disposal of hazardous waste at
34 an inactive hazardous waste disposal site, and including administrative
35 and legal costs. Damages may also include the value of the natural
36 resource services lost for the time period from the disposal until the
37 attainment of such restoration, rehabilitation, replacement, and/or
38 acquisition of equivalent natural resources.

39 9. "Natural resources" means land, fish, wildlife, biota, air, water,
40 ground water, drinking water supplies, and other such resources belong-
41 ing to, managed by, held in trust by, appertaining to, or otherwise
42 controlled by the state or a municipality.

43 10. "Response costs" means the state's costs of developing, implement-
44 ing, and/or overseeing an inactive hazardous waste disposal site remedi-
45 al program.

46 11. "Responsible person" or "person responsible" for the disposal of
47 hazardous waste at a site means:

48 (a) any person who currently owns or operates a site or any portion
49 thereof;

50 (b) any person who owned or operated a site or any portion thereof at
51 the time of disposal of the hazardous waste;

52 (c) any person who generated any hazardous waste disposed at a site;

1 (d) any person who transported any hazardous waste to a site selected
2 by such person;
3 (e) any person who disposed of any hazardous waste at a site;
4 (f) any person who arranged for:
5 (i) the transportation of any hazardous waste to a site; or
6 (ii) the disposal of any hazardous waste at a site; and
7 (g) any other person who is responsible according to the applicable
8 principles of statutory or common law liability pursuant to subdivision
9 four of section 27-1313 of this title and/or the Comprehensive Environ-
10 mental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. §
11 9601 et seq.

12 § 2. Paragraph b of subdivision 2 of section 27-1305 of the environ-
13 mental conservation law, as amended by section 3 of part E of chapter 1
14 of the laws of 2003, is amended and a new paragraph b-1 is added to read
15 as follows:

16 b. The department shall, as part of the registry, assess and, based
17 upon new information received, reassess by March thirty-first of each
18 year, in cooperation with the department of health, the relative need
19 for action at each site to remedy environmental and health problems
20 resulting from the presence of hazardous wastes at such sites including
21 in such assessment whether sites shall be prioritized under paragraph b
22 of subdivision five of section 27-1313 of this title due to site
23 location in an area identified as a disadvantaged community pursuant to
24 subdivision five of section 75-0101 of this chapter; provided, however,
25 that if at the time of such assessment or reassessment, the department
26 has not placed a site in classification 1 or 2, as described in subpara-
27 graphs one and two of this paragraph, and such site is the subject of
28 negotiations for, or implementation of, a brownfield site cleanup agree-
29 ment pursuant to title fourteen of this article, obligating the person
30 subject to such agreement to, at a minimum, eliminate or mitigate all
31 significant threats to the public health and environment posed by the
32 hazardous waste pursuant to such agreement, the department shall defer
33 its assessment or reassessment during the period such person is engaged
34 in good faith negotiations to enter into such an agreement and, follow-
35 ing its execution, is in compliance with the terms of such agreement,
36 and shall assess or reassess such site upon completion of remediation to
37 the department's satisfaction. In making its assessments, the department
38 shall place every site in one of the following classifications:

39 (1) Causing or presenting an imminent danger of causing irreversible
40 or irreparable damage to the public health or environment--immediate
41 action required;

42 (2) Significant threat to the public health or environment--action
43 required;

44 (3) Does not present a significant threat to the public health or
45 environment--action may be deferred;

46 (4) Site properly closed--requires continued management;

47 (5) Site properly closed, no evidence of present or potential adverse
48 impact--no further action required.

49 b-1. The department shall prioritize remedial programs at sites placed
50 in classification 1 or 2, as described in subparagraphs one and two of
51 paragraph b of this subdivision, that are located in disadvantaged
52 communities as identified pursuant to subdivision five of section
53 75-0101 of this chapter, consistent with the protection of public health
54 and the environment.

1 § 3. Paragraph b of subdivision 5 of section 27-1313 of the environ-
2 mental conservation law, as amended by chapter 857 of the laws of 1982,
3 is amended to read as follows:

4 b. In the event that the commissioner has found that hazardous wastes
5 at a site constitute a significant threat to the environment, but after
6 a reasonable attempt to determine who may be responsible is either
7 unable to determine who may be responsible, or is unable to locate a
8 person who may be responsible, the department may develop and implement
9 an inactive hazardous waste disposal site remedial program for such
10 site. The department shall prioritize implementation of remedial
11 programs at sites located in disadvantaged communities as identified
12 pursuant to subdivision five of section 75-0101 of this chapter. The
13 commissioner shall make every effort, in accordance with the require-
14 ments for notice, hearing and review provided for in this title, to
15 secure appropriate relief from any person subsequently identified or
16 located who is responsible for the disposal of hazardous waste at such
17 site, including, but not limited to, development and implementation of
18 an inactive hazardous waste disposal site remedial program, payment of
19 the cost of such a program, recovery of any reasonable expenses incurred
20 by the state, money damages and penalties.

21 § 4. Section 27-1315 of the environmental conservation law, as amended
22 by section 7 of part E of chapter 1 of the laws of 2003 and subdivision
23 1 as amended by section 50 of part D of chapter 60 of the laws of 2012,
24 is amended to read as follows:

25 § 27-1315. Rules and regulations.

26 1. The commissioner shall have the power to promulgate rules and regu-
27 lations necessary and appropriate to carry out the purposes of this
28 title. [~~Any regulations shall include provisions which establish the~~
29 ~~procedures for a hearing pursuant to subdivision four of section 27-1313~~
30 ~~of this title and shall ensure a division of functions between the~~
31 ~~commissioner, the staff who present the case, and any hearing officers~~
32 ~~appointed.] In addition, any regulations shall set forth findings to be
33 based on a factual record, which must be made before the commissioner
34 determines that a significant threat to the environment exists.~~

35 2. Any regulations concerning a hearing pursuant to subdivision four
36 of section 27-1313 of this title shall include provisions which estab-
37 lish the procedures for such hearing and shall ensure a division of
38 functions between the commissioner, the staff who present the case, and
39 any hearing officers appointed.

40 3. Such rules and regulations of the department as shall be in effect
41 on the effective date of this subdivision that shall have been promul-
42 gated to carry out the purposes of this title shall be deemed to be
43 revised, as of the effective date of this subdivision, to include the
44 definition of "hazardous waste" as it appears in section 27-1301 of this
45 title.

46 § 5. Subdivision 2 of section 27-1323 of the environmental conserva-
47 tion law, as added by section 9 of part E of chapter 1 of the laws of
48 2003, is amended to read as follows:

49 2. Municipal exemption. (a) For the purposes of this title no municipi-
50 ality or public corporation shall incur any liability from any statuto-
51 ry claims of the state as an owner or operator of a site, or a person
52 responsible for the disposal of a hazardous waste at such site, if such
53 public corporation acquired such site involuntarily, and such public
54 corporation retained such site without participating in the development
55 of such site as a responsible person.

1 (b) This exemption shall not apply to any municipality or public
2 corporation that has caused or contributed to the release or threatened
3 release of a hazardous waste from or onto the site, or to any public
4 corporation that generated, transported, or disposed of, arranged for,
5 or that caused the generation, transportation, or disposal of hazardous
6 waste, from or onto the site, except where such municipality's liability
7 arises out of PFAS contamination resulting from the use of firefighting
8 foam containing PFAS and such use was at that time mandated by state or
9 federal law, and such contamination was not through gross negligence or
10 willful or intentional misconduct. For purposes of this paragraph, PFAS
11 shall mean PFAS chemicals, as such term is defined in paragraph f of
12 subdivision one of section three hundred ninety-one-u of the general
13 business law, as added by chapter eighty-eight of the laws of two thou-
14 sand twenty.

15 (c) When used in this section:

16 (1) "Public corporation" means a public corporation as defined in
17 section sixty-five of the general construction law, a local public
18 authority, supervisory district, improvement district within a county,
19 city, town, or village, or Indian nation or tribe recognized by the
20 state or the United States with a reservation wholly or partly within
21 the boundaries of New York state, or any combination thereof.

22 (2) "Involuntary acquisition of ownership or control" includes but is
23 not limited to the following:

24 (i) Acquisitions by a public corporation in its sovereign capacity,
25 including but not limited to acquisitions pursuant to abandonment
26 proceedings or bequest;

27 (ii) Acquisitions by a public corporation, or its agent, acting as a
28 conservator or receiver pursuant to a clear and direct statutory mandate
29 or regulatory authority;

30 (iii) Acquisitions of assets through foreclosure and its equivalents,
31 or otherwise, by a public corporation in the course of administering a
32 loan, loan guarantee, tax lien, or tax forbearance agreement, or loan
33 insurance program; or

34 (iv) Acquisitions by a public corporation pursuant to seizure, injunc-
35 tion, condemnation, or forfeiture authority; provided that such owner-
36 ship or control is not retained primarily for investment purposes.

37 (d) For the purpose of this section, the terms "foreclosure" and
38 "foreclose" mean, respectively, acquiring or to acquire a brownfield
39 site through:

40 (1) purchase at sale under a judgment or decree, power of sale, or
41 non-judicial foreclosure sale;

42 (2) a deed in lieu of foreclosure, or similar conveyance, or abandon-
43 ment from a person or trustee;

44 (3) conveyance pursuant to an extension of credit or tax forbearance
45 previously contracted; or

46 (4) any other formal or informal manner by which a person acquires,
47 for subsequent disposition, title to or possession of a site in order to
48 protect the security interest of the public corporation or lender.

49 (e) "Participating in development" means the carrying out, or causing
50 or permitting the carrying out, of any above-grade improvements to the
51 site or any other environmental investigation or remediation, except for
52 those improvements which are part of a site remedial program pursuant to
53 this article or in furtherance of site safety, such as fencing or light-
54 ing, but does not include licensing, regulatory oversight, or the mere
55 capacity to regulate or influence, or the unexercised right to control

1 the operation of the property. For purposes of this section, participat-
2 ing in development does not include:

3 (1) having the capacity to influence management of a site;

4 (2) having the unexercised right to control or to regulate the site or
5 operations thereof;

6 (3) holding, abandoning, or releasing a security interest or tax lien
7 on such site;

8 (4) including a condition relating to environmental compliance in a
9 contract, permit, license, or security agreement;

10 (5) monitoring or enforcing the terms and conditions of an agreement
11 or tax forbearance agreement;

12 (6) monitoring or undertaking one or more inspections of a site
13 including, but not limited to, boring test wells;

14 (7) exercising other remedies available under applicable laws;

15 (8) licensing, permitting, or granting permits, certificates of occu-
16 pancy and variances as allowed by law and/or regulation;

17 (9) applying for or participating in federal or state statutory
18 programs or benefits; or

19 (10) declining to take any of the actions described in subparagraphs
20 one through nine of this paragraph.

21 (f) Any public corporation that has taken possession of a site shall
22 notify the department of any release of hazardous waste within ten days
23 of obtaining actual knowledge of such release, unless a shorter notice
24 period is required under any other provision of law, in which case the
25 shorter notice period controls. Failure to notify the department within
26 the ten day or shorter notification period shall result in the loss of
27 the exemption set forth in this section.

28 § 6. The environmental conservation law is amended by adding a new
29 section 27-1325 to read as follows:

30 § 27-1325. Financial responsibility provisions.

31 1. The department may promulgate regulations regarding financial
32 responsibility for the implementation of an inactive hazardous waste
33 disposal site remedial program.

34 2. Financial responsibility required by subdivision one of this
35 section may be established in accordance with regulations promulgated by
36 the commissioner by any one, or any combination, of the following:
37 insurance, guarantee, surety bond, letter of credit, or qualification as
38 a self-insurer. In promulgating requirements under this section, the
39 commissioner is authorized to specify policy or other contractual terms,
40 conditions, or defenses which are necessary or are unacceptable in
41 establishing such evidence of financial responsibility in order to
42 effectuate the purposes of this article.

43 3. In any case where the responsible person is in bankruptcy, reorgan-
44 ization, or arrangement pursuant to the Federal Bankruptcy Code or
45 where, with reasonable diligence, jurisdiction in any state or federal
46 court within the state cannot be obtained over a responsible person
47 likely to be solvent at the time of judgment, any claim arising from
48 conduct for which evidence of financial responsibility shall be provided
49 under this section may be asserted directly against the guarantor
50 providing such evidence of financial responsibility. In the case of any
51 action pursuant to this subdivision, such guarantor shall be entitled to
52 invoke all rights and defenses which would have been available to the
53 responsible person if any action had been brought against the responsi-
54 ble person by the claimant and which would have been available to the
55 guarantor if an action had been brought against the guarantor by the
56 responsible person.

1 4. The total liability of any guarantor shall be limited to the aggregate amount which the guarantor has provided as evidence of financial responsibility to the responsible person under this chapter. Nothing in this subdivision shall be construed to limit any other state or federal statutory, contractual or common law liability of a guarantor to its responsible person including, but not limited to, the liability of such guarantor for bad faith either in negotiating or in failing to negotiate the settlement of any claim. Nothing in this subdivision shall be construed to diminish the liability of any person under section 27-1313 of this article or other applicable law.

11 5. For the purpose of this section, the term "guarantor" means any person, other than the responsible person, who provides evidence of financial responsibility for a responsible person under this section.

14 § 7. The environmental conservation law is amended by adding a new section 27-1327 to read as follows:

16 § 27-1327. Recovery of response costs and natural resource damages.

17 1. Each responsible person shall be strictly liable, jointly and severally, for all response costs and for all natural resource damages resulting from the disposal of hazardous waste at an inactive hazardous waste disposal site. The commissioner may commence an action in a court of competent jurisdiction to recover the response costs and/or natural resource damages. The commissioner shall prioritize securing relief or other action at sites placed in classification 1 or 2, as described in subparagraphs one and two of paragraph b of subdivision two of section 27-1305 of this title, that are located in disadvantaged communities as identified pursuant to subdivision five of section 75-0101 of this chapter. Notwithstanding any provisions of this subdivision to the contrary, the commissioner shall have the authority to approve expenditures from the hazardous waste remedial fund to finance a share of the overall site response costs in instances where the commissioner in their sole discretion determines that such action is in the public interest, is consistent with the National Contingency Plan, would expedite effective remedial actions, and would minimize litigation. The absence of any such financing expenditures shall not be subject to administrative or judicial review.

36 2. A determination or assessment of natural resource damages for the purposes of this section made or adopted by the commissioner in accordance with any applicable regulations promulgated under section 27-1315 of this title or under section 9651(c) of title 42 of the United States Code, after giving consideration to the National Contingency Plan as defined by 42 U.S.C. 9601(31), shall have the force and effect of a rebuttable presumption on behalf of the commissioner in any judicial proceeding.

44 3. In an action to recover response costs and/or natural resource damages, the commissioner may also seek civil penalties under section 71-2705 of this chapter.

47 4. All amounts received to satisfy liability for natural resource damages shall be credited to the department's natural resource damages fund and first used to assess, restore, rehabilitate, and replace the natural resources at the site for which the damages were assessed, to the extent practicable. Any amounts that would otherwise be allocated to assessment, restoration, rehabilitation, and replacement at the site where assessment, restoration, rehabilitation or replacement is not practicable shall be used exclusively to pay or reimburse costs of acquiring the equivalent of the affected natural resources. The measure

1 of compensation for injury to, destruction of, or loss of natural
2 resources is the cost of:

3 (a) restoration or rehabilitation of the injured natural resources to
4 a condition where they can provide the level of services available had
5 the disposal of hazardous waste not occurred; or

6 (b) the replacement and/or acquisition of equivalent natural
7 resources capable of providing such services.

8 5. The state shall have a lien for all response costs incurred by the
9 state and for all natural resource damages for which a judicial determi-
10 nation of liability has been made upon such real property located within
11 the state:

12 (a) owned by a person liable to the state for such response costs
13 and/or natural resource damages under this title at the time a notice of
14 environmental lien is filed; and

15 (b) upon which the disposal of hazardous wastes occurred, except that
16 the state shall not have a lien against real property of a volunteer as
17 such term is defined in paragraph (b) of subdivision one of section
18 27-1405 of this article that is the subject of a brownfield cleanup
19 under title fourteen of this article that is being undertaken or has
20 been completed by a volunteer, provided that the volunteer is in full
21 compliance with the requirements of this chapter with respect thereto,
22 does not impede the performance of a response action or natural resource
23 restoration, rehabilitation, or replacement, and is not engaging with
24 the department in bad faith with respect to such response costs and/or
25 natural resource damages.

26 6. An environmental lien shall attach when:

27 (a) response costs are incurred by the state and/or a judicial judg-
28 ment of liability for natural resource damages is entered;

29 (b) the responsible person fails to pay such costs within ninety days
30 after a written demand therefor by the state is mailed by certified or
31 registered mail, return receipt requested, and/or fails to pay such
32 natural resource damages within ninety days after entry of judgment; and

33 (c) a notice of environmental lien is filed by the department as
34 provided in paragraph (a) of subdivision ten of this section; provided,
35 however, that a copy of the notice of environmental lien is served upon
36 the owner of the real property subject to the environmental lien within
37 thirty days of such filing in accordance with the provisions of section
38 eleven of the lien law.

39 7. (a) An environmental lien shall continue against the real property
40 until:

41 (i) the claim or judgment against the person referred to in subdivi-
42 sion one of this section for response costs and/or natural resource
43 damages is satisfied or becomes unenforceable;

44 (ii) the lien is released by the commissioner pursuant to this subdivi-
45 vision;

46 (iii) the lien is discharged by payment of monies into court; or

47 (iv) the lien is otherwise vacated by court order.

48 (b) Upon the occurrence of any event under subparagraphs (i) through
49 (iv) of paragraph (a) of this subdivision, except where the lien is
50 vacated by court order, the commissioner shall execute the release of an
51 environmental lien and file the release as provided in subdivision nine
52 of this section. The commissioner may release an environmental lien
53 where:

54 (i) a legally enforceable agreement satisfactory to the commissioner
55 has been executed relating to the response costs and/or natural resource
56 damages that are the subject of the lien or reimbursing the state for

1 such response costs and/or natural resource damages; or an owner or
2 operator of the site subject to the lien agrees to perform remedial
3 work, site management, or other in-kind services of sufficient value to
4 the commissioner; or

5 (ii) the attachment or enforcement of the environmental lien is deter-
6 mined by the commissioner not to be in the public interest.

7 8. An environmental lien is subject to the rights of any other person,
8 including an owner, purchaser, holder of a mortgage or security inter-
9 est, or judgment lien creditor, whose interest is perfected before a
10 lien notice has been filed as provided in subdivision ten of this
11 section.

12 9. A notice of environmental lien shall state:

13 (a) that the lienor is the state of New York;

14 (b) the name of the record owner of the real property on which the
15 environmental lien has attached;

16 (c) the real property subject to the lien, with a description thereof
17 sufficient for identification;

18 (d) that the real property described in the notice is the property
19 upon which a disposal of hazardous wastes occurred and that response
20 costs have been incurred by the lienor and/or that natural resource
21 damages have been judicially determined to be due to the lienor as a
22 result of such disposal;

23 (e) that the owner is potentially liable for response costs and/or
24 subject to a judgment for natural resource damages pursuant to this
25 title; and

26 (f) that an environmental lien has attached to the described real
27 property.

28 10. (a) A notice of environmental lien shall be filed in the clerk's
29 office of the county where the property is situated. If such property is
30 situated in two or more counties, the notice of environmental lien shall
31 be filed in the office of the clerk of each of such counties. The notice
32 of lien shall be indexed by the county clerk in accordance with the
33 provisions of section ten of the lien law. The notice of lien shall be
34 served upon the owner of the real property subject to the lien in
35 accordance with the provisions of section eleven of the lien law.

36 (b) A release of an environmental lien shall be filed in the clerk's
37 office of each county where the notice of environmental lien was filed
38 and shall be indexed in the manner prescribed for indexing environmental
39 liens.

40 11. An environmental lien may be enforced against the property speci-
41 fied in the notice of environmental lien, and an environmental lien may
42 be vacated or discharged, as prescribed in article three of the lien
43 law; provided, however, that nothing in this article or in article three
44 of the lien law shall affect the right of the state to bring an action
45 to recover response costs and/or natural resource damages under section
46 one hundred seven of the federal comprehensive environmental response,
47 compensation and liability act (42 U.S.C. § 9601 et seq).

48 12. Amounts received by the administrator to satisfy all or part of an
49 environmental lien for response costs shall be deposited in the depart-
50 ment's hazardous waste remedial fund, and amounts received to satisfy
51 all or part of an environmental lien for natural resource damages shall
52 be deposited in the department's natural resource damages fund.

53 13. (a) An owner or operator of an inactive hazardous waste disposal
54 site whose liability under this title and/or 42 U.S.C. § 9607 et seq.
55 arises solely from being considered an owner or operator of such site
56 shall not be liable as long as it can demonstrate that one or more of

1 the defenses in paragraph (a) of subdivision four of section 27-1323 of
2 this title or 42 U.S.C. §9607(b) and (d) applies, and the owner or oper-
3 ator does not impede the performance of a response action or natural
4 resource restoration.

5 (b) If there are unrecovered response costs incurred by the department
6 at an inactive hazardous waste disposal site for which an owner or oper-
7 ator of the site is not liable by reason of paragraph (a) of this subdivi-
8 vision, and if each of the conditions described in paragraph (c) of this
9 subdivision is met, the department shall have a lien on the facility for
10 the incremental increases in the fair market value of the site due to
11 the response action being carried out by the department above the fair
12 market value of the site that existed before the response action was
13 initiated, or may by agreement with the owner or operator, obtain from
14 the owner or operator a lien on any other property or other assurance of
15 payment satisfactory to the department, for the unrecovered response
16 costs.

17 (c) The conditions referred to in paragraph (b) of this subdivision
18 are the following:

19 (i) A response action is carried out at the inactive hazardous waste
20 disposal site for which there are unrecovered costs of the department.

21 (ii) The response action increases the fair market value of the site
22 above the fair market value of the site that existed before the response
23 action was initiated.

24 (d) A lien under paragraph (b) of this subdivision:

25 (i) shall be in an amount not to exceed the increase in fair market
26 value of the property attributable to the response action at the time of
27 a sale or other disposition of the property;

28 (ii) shall arise at the time at which costs are first incurred by the
29 department with respect to a response action at the site;

30 (iii) shall be subject to the requirements of subdivisions seven,
31 eight, and nine of this section; and

32 (iv) shall continue until the earlier of:

33 (A) satisfaction of the lien by sale or other means; or

34 (B) recovery of all response costs incurred at the site.

35 § 8. The environmental conservation law is amended by adding a new
36 section 27-1329 to read as follows:

37 § 27-1329. Abatement actions.

38 1. Maintenance, jurisdiction, etc. (a) When the commissioner deter-
39 mines that there may be an imminent danger to the health or welfare of
40 the people of the state or the environment, or an actual or threatened
41 release of a hazardous substance from an inactive hazardous waste
42 disposal site resulting in, or likely to result in, irreversible or
43 irreparable damage to natural resources, the commissioner may request
44 the attorney general to secure such relief as may be necessary to abate
45 such danger, threat or damage, and to grant such relief as the public
46 interest and the equities of the case may require. The commissioner may
47 also take other action under this section including, but not limited to,
48 issuing such orders as may be necessary to protect public health and
49 welfare and the environment.

50 (b) An abatement action may not be taken against a person who estab-
51 lishes to the satisfaction of the commissioner, and in the timeframe set
52 forth by the commissioner to do so, that their liability arises solely
53 as a result of such person's ownership or operation of or involvement
54 with the site, the site was acquired by such person after the disposal
55 or placement of the hazardous waste on, in, or at such site, that at
56 the time such person acquired the site, such person did not know and had

1 no reason to know as established to the satisfaction of the commissioner
2 within the meaning of subparagraph (i) of paragraph (b) of subdivision
3 four of section 27-1323 of this title that any hazardous waste which
4 is the subject of the abatement action was disposed of on, in, or at

10 (iii) prevent or limit human, environmental, or natural resource
11 exposure to any previously released hazardous waste.

17 subdivision one of this section may, in an action brought in the appro-

41 required by the relevant order.

42 (iv) A petitioner under subparagraph (i) of this paragraph may also
43 recover its reasonable costs of response to the extent that such peti-
44 tioner can demonstrate, on the administrative record, that the commis-

33 herein shall be construed to prohibit the disclosure of taxpayer identi-
34 ty information, including name, mailing address and taxpayer identifying
35 number (social security account number, or such other number as has been
36 assigned by the secretary of the United States treasury or [~~his~~] such
37 secretary's delegate, or by the commissioner of taxation and finance),
38 with respect to persons who are registered as residual petroleum product
39 or aviation fuel businesses under this article or as distributors of
40 motor fuel or diesel motor fuel or kero-jet fuel only for the purpose of

45 business or as such distributor has been refused pursuant to this arti-
46 cle or such article twelve-A. In addition, the commissioner may disclose
47 the fact that a person is not registered as a residual petroleum busi-
48 ness under this article or as a distributor of motor fuel, diesel motor
49 fuel or kero-jet fuel only under article twelve-A of this chapter.
50 Information disclosed pursuant to this subdivision shall not, by itself,
51 be construed as proof of compliance or noncompliance with the provisions
52 of this chapter.

53 § 2. This act shall take effect immediately.

1 Section 1. The vehicle and traffic law is amended by adding a new
2 section 404-ii to read as follows:

3 § 404-ii. Distinctive plates for gold star families. 1. Any gold star
4 family recipient or the spouse of a gold star family recipient residing
5 in this state shall, upon request, be issued a license plate bearing the
6 words "gold star family". If a distinctive plate is issued to a gold
7 star family recipient pursuant to this section, additional distinctive
8 plates may be issued for every vehicle registered in the name of the
9 gold star family recipient residing in this state or the spouse of such
10 gold star family recipient. For purposes of this section, a member of a
11 gold star family shall include but not be limited to a resident of this
12 state who is a gold star parent as defined in section twenty-six of the

25 plate, as well as no bond requirement to offset costs associated with
26 the production of such license plate.

27 § 2. This act shall take effect on the one hundred eightieth day after
28 it shall have become a law.

29 PART BBB

30 Section 1. Legislative intent. Pursuant to 2 U.S.C. § 2131, every
31 state is invited to provide and furnish to the United States Capitol two
32 statues, in marble or bronze, of deceased persons who were distinguished
33 and prominent citizens of the state for placement in the National Statu-
34 ary Hall Collection. New York is currently represented in the National
35 Statuary Hall Collection at the United States Capitol by Robert R.
36 Livingston and George Clinton, statues which were placed there in the
37 1870s.

38 Pursuant to 2 U.S.C. § 2132, a state has the option to replace statues
39 in the National Statuary Hall, that have been displayed for at least 10
40 years, by making a request to the Joint Committee on the Library of
41 Congress.

42 The Legislature recognizes that Harriet Tubman was a distinguished and
43 prominent New Yorker who meets the high standards required to represent
44 the great state of New York in the United States Capitol. One of Ameri-
45 ca's most famous abolitionists, Harriet Tubman was born enslaved in
46 Maryland in 1822 before escaping to freedom. She became a leading figure
47 of the Underground Railroad and she risked her life to help free dozens
48 of enslaved people. During the Civil War she became one of the first
49 African American woman to serve in the military. In 1859, Harriet Tubman
50 purchased property in Auburn, NY, where she would live until her death
51 in 1913.

52 § 2. Commission. (a) A commission is hereby established to replace the
53 statue of Robert R. Livingston with a statue of Harriet Tubman in the
54 National Statuary Hall of the United States Capitol. The commission

1 shall consist of the following appointees: the Governor, or a designee,
2 the Temporary President of the Senate, or a designee, the Speaker of the
3 Assembly, or a designee, the Executive director of the council on the
4 arts, or a designee, and the Commissioner of the office of general
5 services, or a designee.

6 (b) The commission shall be responsible for selecting the design of
7 the statue of Harriet Tubman. The statue shall be designed and created
8 in accordance with the published guidelines set forth by the Architect
9 of the United States Capitol.

10 (c) The Governor, along with the commission, shall submit an official,
11 written request, along with a copy of this act to the Joint Committee on
12 the Library of Congress, the Architect of the Capitol, the Speaker of
13 the United States House of Representatives, and the Presiding Officer of
14 the United States Senate. The request shall include a description of the
15 location in the state where the replaced statue of Robert R. Livingston
16 will be displayed after it is transferred.

17 (d) Upon approval for replacement of the statue of Robert R. Living-
18 ston by the Architect of the Capitol with a statue of Harriet Tubman,
19 the Governor shall formalize an agreement between the Architect of the
20 Capitol and the State of New York to complete the process.

21 § 3. This act shall take effect September 1, 2025.

22

PART CCC

23 Section 1. Legislative findings and intent. The legislature hereby
24 finds that children are an inherently vulnerable population, and that
25 marketing food and beverages high in saturated fatty acids, trans-fatty
26 acids, and free sugars in a targeted and persistent manner to this group
27 is inconsistent with this state's efforts to curb the disastrous health
28 outcomes that follow the overconsumption of these products which include
29 but are not limited to increased rates of malnutrition, undernutrition,
30 micronutrient deficiencies, obesity, and other diet-related illnesses.
31 Such marketing is inherently misleading, aggressive, and pervasive as
32 children often lack the same ability to resist the rewarding cues
33 presented in unhealthy food marketing as adults. New York has a strong
34 and substantial interest in protecting our children from negative health
35 consequences and remain aligned with the goals of the Convention on the
36 Rights of the Child which ensures access to nutritious foods and freedom
37 from exploitation of all kinds. Additionally, the power of the state is
38 at its greatest when protecting the health and welfare of its citizens,
39 especially those most vulnerable. Thus, the legislature finds that
40 unfair and deceptive marketing targeted at children can mislead and
41 manipulate children into lifelong habits, and that such unfair and
42 deceptive advertising should be regulated accordingly.

43 § 2. Section 350-a of the general business law is amended by adding
44 two new subdivisions 4 and 5 to read as follows:

45 4. In determining whether any advertising concerning a food or food
46 product is false advertising, factors shall include, but not be limited
47 to:

48 (a) Whether the advertisement targets a consumer who is reasonably
49 unable to protect their interests because of their age, illiteracy,
50 inability to understand the language of an agreement or similar factor.

51 (b) For the purposes of this subdivision and subdivision five of this
52 section, a "consumer" is defined as a person who is targeted by an
53 advertisement, or those acting on such a person's behalf.

1 5. For purposes of paragraph (a) of subdivision four of this section,
2 special consideration shall be given to advertisements directed at a
3 child as defined in section three hundred seventy-one of the social
4 services law. In determining whether an advertisement concerning a food
5 or food product is directed at a child, factors shall include, but not
6 be limited to:

7 (a) Subject matter;

8 (b) Visual content;

9 (c) Use of bright colors and animated characters or child-oriented
10 activities and incentives;

11 (d) Music or other audio content;

12 (e) Age of models;

13 (f) Presence of child celebrities or celebrities who appeal to chil-
14 dren;

15 (g) Language including claims, buzzwords, sayings, and/or phrases that
16 are trending such as common colloquial words specific to the age group;

17 (h) Competent and reliable empirical evidence regarding audience
18 composition and evidence regarding the intended audience composition and
19 evidence regarding the intended audience;

20 (i) Physical location of advertisement, including, but not limited to,
21 proximity to schools or other institutions frequented by children;

22 (j) Medium by which the advertisement is communicated, including, but
23 not limited to, social media, or television/commercial advertising; and

24 (k) Other similar factors including price, products that offer conven-
25 ience in financial savings, and saving time such as easy-to-make or
26 purchase meals.

27 § 3. Section 202-a of the agriculture and markets law is amended by
28 adding a new subdivision 4 to read as follows:

29 4. In determining whether a violation of this section has occurred,
30 the court shall consider factors and special consideration given to
31 advertising directed at a child pursuant to section three hundred
32 fifty-a of the general business law.

33 § 4. Subdivision 1 of section 2599-b of the public health law, as
34 amended by section 1 of part A of chapter 469 of the laws of 2015, is
35 amended to read as follows:

36 1. The program shall be designed to prevent and reduce the incidence
37 and prevalence of obesity in children and adolescents, especially among
38 populations with high rates of obesity and obesity-related health
39 complications including, but not limited to, diabetes, heart disease,
40 cancer, osteoarthritis, asthma, emphysema, chronic bronchitis, other
41 chronic respiratory diseases and other conditions. The program shall use
42 recommendations and goals of the United States departments of agricul-
43 ture and health and human services, the surgeon general and centers for
44 disease control and prevention in developing and implementing guidelines
45 for nutrition education and physical activity projects as part of obesi-
46 ty prevention efforts. The content and implementation of the program
47 shall stress the benefits of choosing a balanced, healthful diet from
48 the many options available to consumers[~~, without specifically targeting~~
49 ~~the elimination of any particular food group, food product or food-re-~~
50 ~~lated industry] while specifically including education on access and the
51 nutritional value of locally grown foods and food products including,
52 but not limited to dairy, fruit and vegetable food products. The
53 program shall cooperate with the department of agriculture and markets
54 to add access to locally grown foods and food products including, but
55 not limited to dairy, fruit and vegetable food products within the
56 guidelines and framework of the program.~~

1 § 5. Severability. If any part or provision of this act or its appli-
2 cation to a person is held invalid, the invalidity of that part,
3 provision or application does not affect other parts, provisions or
4 applications of this act that can be given effect without the invalid
5 provision or application.

6 § 6. This act shall take effect on the thirtieth day after it shall
7 have become a law.

8 PART DDD

9 Section 1. The agriculture and markets law is amended by adding a new
10 section 501 to read as follows:

11 § 501. Sanitary retail food store grant program. 1. Legislative
12 intent. The legislature hereby finds, determines, and declares that
13 retail food stores located in New York should maintain proper sanitary
14 conditions to ensure the health and safety of all patrons. Preserving
15 stores that are unable to meet proper sanitary conditions, and are
16 located in areas where low-income people have limited access to affor-
17 dable and nutritious food, is in the best interest of those communi-
18 ties and the state. The legislature hereby declares that in order to ensure
19 the health and safety of its citizens, and preserve retail food stores
20 located in food deserts, the department shall, in cooperation with the
21 empire state development corporation, create a sanitary retail food
22 store grant program.

23 2. Definitions. For the purposes of this section, the following terms
24 shall have the following meanings:

25 (a) "Potentially hazardous foods" means any foods that can support the
26 rapid growth of disease-causing bacteria, including but not limited to
27 the following: meat, poultry, seafood, eggs, pre-sliced or cooked vege-
28 tables, dairy, sliced fruit and cooked rice;

29 (b) "Critical deficiencies" means factors that are leading causes of
30 foodborne illnesses, including but not limited to the following:

31 (i) insect, rodent, bird, or vermin activity likely to result in prod-
32 uct contamination;

33 (ii) contact surfaces are unclean or not properly sanitized, such as
34 food contact equipment, utensils, or conveyances for handling potential-
35 ly hazardous foods;

36 (iii) inadequate employee handwashing facilities;

37 (iv) lack of proper equipment for cleaning and sanitizing surfaces
38 where any potentially hazardous foods are prepared, stored and sold; and

39 (v) potentially hazardous foods that are not stored at safe temper-
40 atures.

41 (c) "Food desert" shall have the same meaning as section two hundred
42 sixty of this chapter.

43 3. Sanitary retail food store grant program. Subject to appropriation,
44 the commissioner, in conjunction with the commissioner of the empire
45 state development corporation, shall establish a sanitary retail food
46 store grant program to ensure that retail food stores that are unable to
47 sustain the costs to immediately correct critical deficiencies, are
48 located in food deserts, and would otherwise be unable to stay in opera-
49 tion due to their inability to meet and maintain sanitary standards, may
50 be awarded funds to correct such critical deficiencies to ensure commu-
51 nities with limited food sources are held harmless and have access to
52 retail food stores with proper sanitary conditions.

1 4. Eligibility. To be eligible to receive sanitary retail food store
2 grant program funding, retail food stores shall meet the following
3 criteria:

4 (a) found to have critical deficiencies that were not or could not be
5 corrected at the time of inspection creating a need for immediate
6 corrective action or fails for two consecutive inspections;

7 (b) located in a food desert whereby closing the retail food store
8 would have a substantial impact on food access to the community it
9 serves;

10 (c) the retail food store is able to establish that it does not have
11 adequate funding or resources to correct the critical deficiencies, nor
12 would it be able to attain such funding within a reasonable amount of
13 time to prevent a negative impact to the community;

14 (d) the retail food store is able to establish that it is unable to
15 attain credit or loan for all or part of the costs needed to correct the
16 critical deficiencies; and

17 (e) the retail food store supplies the community with affordable and
18 nutritious food, such as fresh produce, canned goods, and refrigerated
19 foods.

20 5. Grants. The commissioner shall make grants to retail food stores
21 located in food deserts and meet all eligibility criteria that submit a
22 plan to correct the critical deficiencies and maintain proper sanitation
23 for at least five years. The grant shall be based on the scope and
24 nature of the resources associated with correcting the critical defi-
25 ciencies and the long-term maintenance of the correction of critical
26 deficiencies. Grants shall be approved and released every six months in
27 order to provide retail food stores with certainty on when they will be
28 able to attain funding and resources to correct the critical deficien-
29 cies and failed inspections.

30 § 2. Subdivision 4 of section 500 of the agriculture and markets law,
31 as amended by section 8 of part II of chapter 62 of the laws of 2003, is
32 amended to read as follows:

33 4. (a) The department shall inspect each retail food store at least
34 once in every twelve month period. Any store that fails two consecutive
35 inspections shall be inspected at least once in every six month period
36 until [~~it has passed~~] no critical deficiencies were found or critical
37 deficiencies were found but remedied at the time of the inspection for
38 two consecutive inspections. In the event that a retail food store was
39 found to have critical deficiencies that were not or could not be
40 corrected creating a need for immediate corrective action or fails for
41 three consecutive inspections, the department [~~may, in its discretion,~~
42 shall order such establishment to cease all retail operation until it
43 passes inspection or suspend or revoke any license issued to such estab-
44 lishment pursuant to article twenty-C of this chapter. However, the
45 department may, in its discretion allow such establishments to maintain
46 operation even if they would otherwise need to cease operation if they
47 are able to establish that they qualified for the sanitary retail food
48 store grant program, described in section five hundred one of this arti-
49 cle, and would otherwise be able to remedy their critical deficiencies
50 but were not awarded a grant in that calendar year due to exhaustion of
51 funds for the grant program.

52 (b) For the purposes of this subdivision, "critical deficiencies"
53 means the same as such term is defined in section five hundred one of
54 this article.

55 § 3. This act shall take effect on the one hundred twentieth day after
56 it shall have become a law.

1

PART EEE

2 Section 1. Short title. This act shall be known and may be cited as
3 the "NY Home Energy Affordable Transition Act" or the "NY HEAT Act".

4 § 2. Legislative findings. The legislature finds and declares that:

5 1. The Climate Leadership and Community Protection Act (CLCPA) sets
6 forth ambitious mandates to achieve significant greenhouse gas (GHG)
7 emission reductions across New York's economy, while prioritizing
8 reductions in co-pollutant emissions in disadvantaged communities and
9 requiring significant state investments to bring the affordability and
10 health benefits of energy efficiency and clean energy to these communi-
11 ties.

12 2. Buildings are the largest source of GHG emissions in New York,
13 contributing approximately one-third of the state's total emissions.
14 They also produce significant local air pollution, leading to adverse
15 health outcomes such as asthma and heart disease, especially in disad-
16 vantaged communities. Reducing emissions and pollution from buildings is
17 essential to meeting the CLCPA's climate and equity goals and improving
18 public health.

19 3. Achieving New York's climate and equity objectives necessitates
20 updating the regulation of gas utilities. Current policies create misa-
21 lignment between gas system investments and the CLCPA's 2030 and 2050
22 mandates, increasing the risk of a costly and disorderly transition.
23 Strategic planning and investment are needed to decarbonize buildings,
24 right-size the gas system, and ensure coordinated enhancements to the
25 electric system, enabling equitable and affordable access to clean ener-
26 gy solutions for all New Yorkers. Such investments will lead to signif-
27 icant benefits: the Climate Action Council found that the cost of
28 inaction on climate exceeds the cost of action by more than \$115
29 billion.

30 4. Outdated public service laws are misaligned with the state's energy
31 affordability goals and CLCPA mandates in the following ways:

32 a. The "utility obligation to serve gas" compels utilities to expand
33 gas infrastructure, making it challenging to redirect investments toward
34 insulating and upgrading homes and installing clean energy alternatives
35 like electrification and thermal energy networks that align with climate
36 goals while mitigating costs for ratepayers.

37 b. Mandated system extension allowances require existing ratepayers to
38 subsidize gas hookups for new customers, costing ratepayers hundreds of
39 millions of dollars annually.

40 c. Utilities are projected to spend \$150 billion to replace leak-prone
41 gas pipelines. Through the changes implemented in this act, many of
42 these investments could be avoided by redirecting funds to neighbor-
43 hood-scale decarbonization projects. Neighborhood-scale projects offer
44 the most cost-effective pathway to transition gas customers to alterna-
45 tive heating and cooling solutions. These projects reduce costs, mini-
46 mize stranded investments in the gas system, and enable coordinated
47 efforts among utilities, customers, and other stakeholders.

48 5. This legislation, the NY Home Energy Affordable Transition (NY
49 HEAT) Act, seeks to:

50 a. Reduce unjust and disproportionate energy cost burdens by avoiding
51 unnecessary, non-strategic, and expensive gas infrastructure invest-
52 ments, and improving affordability protections.

53 b. Ensure utility regulations do not work at cross-purposes with the
54 CLCPA.

1 c. Provide the Public Service Commission with clear authority and
2 direction to align utility planning with CLCPA goals, proactively
3 addressing regulatory barriers and recommending necessary legislative
4 changes.

5 d. Minimize the need for new gas infrastructure investments by redi-
6 recting ratepayer funds to alternatives including electrification, ther-
7 mal energy networks, targeted energy efficiency, demand response, and
8 market transformation measures.

9 e. Facilitate a planned, neighborhood-scale transition away from
10 fossil fuels, avoiding stranded gas infrastructure costs and supporting
11 coordinated investments that reduce emissions, increase affordability,
12 and create good paying jobs.

13 f. Ensure equitable access to affordable, clean energy for heating,
14 cooling, and other building needs, protecting customers from undue
15 burdens during the transition.

16 6. This legislation does not impose a ban on the use of gas. It is the
17 intent of the Legislature to support a gradual and carefully planned
18 transition for existing gas customers to cleaner alternatives, ensuring
19 affordability, reliability, and equity throughout the process.

20 § 3. The public service law is amended by adding two new sections 66-y
21 and 66-z to read as follows:

22 § 66-y. Statewide affordable gas transition plan. 1. No later than
23 two years after the effective date of this section, the commission shall
24 publish a statewide affordable gas transition plan to guide an orderly,
25 affordable, and equitable right-sizing of the utility gas system in a
26 manner that aligns with, and supports achievement of, the climate
27 justice and emissions reduction provisions in chapter one hundred six of
28 the laws of two thousand nineteen, and such successors in law and func-
29 tion as may arise from time to time, incorporating in such plan prudent
30 investments and strategic opportunities to generate cost efficiencies
31 for all gas and electric customers and redirect resources toward assist-
32 ing customers to upgrade their homes and energy appliances. Such plan
33 shall include, at a minimum:

34 (a) Targets for the transition of gas system infrastructure and recom-
35 mendations for planning and investment strategies for the state's gas
36 corporations to achieve such targets.

37 (b) General requirements for utility home energy affordable transition
38 programs pursuant to section sixty-six-z of this article, regarding
39 criteria for approval of such programs and neighborhood gas transition
40 projects implemented as part of such programs, including requirements:

41 (i) to ensure customers affected by a neighborhood gas transition
42 project have continued access to safe and reliable energy services for
43 heating, cooling, cooking, and water heating;

44 (ii) for utilities to notify customers affected by a neighborhood gas
45 transition project in a timely manner;

46 (iii) to ensure the ability of the electrical grid to safely support
47 any new electric load created by a home energy affordable transition
48 program, including for utility participation in any coordination activ-
49 ities regarding grid planning; and

50 (iv) to prioritize voluntary disconnections from gas service, to mini-
51 mize the cost of transition for existing gas and electric customers, and
52 to encourage utilization of existing resources for weatherization, ener-
53 gy efficiency, and electrification programs available in the state.

54 (c) In collaboration with the state's gas and electric corporations,
55 identification of a preliminary list of neighborhood gas transition

1 projects best suited for home energy affordable transition programs
2 pursuant to section sixty-six-z of this article.

3 (d) A review of the public service law and its current rules and poli-
4 cy guidance to identify any law, rule, guidance, or lack thereof, that
5 may inhibit timely and equitable achievement of the climate justice and
6 emission reduction provisions in chapter one hundred six of the laws of
7 two thousand nineteen, and such successors in law and function as may
8 arise from time to time.

9 2. In developing an affordable gas transition plan pursuant to this
10 section, the department shall hold no fewer than four public hearings in
11 different regions of the state.

12 3. Upon completion, the statewide affordable gas transition plan shall
13 be made available on the department's website and shall be delivered to
14 the governor, the temporary president of the senate, and the speaker of
15 the assembly.

16 § 66-z. Utility home energy affordable transition programs. 1. The
17 commission shall, for each gas corporation in this state, issue an order
18 to develop home energy affordable transition programs pursuant to this
19 section, and in accordance with the statewide affordable gas transition
20 plan in section sixty-six-y of this article, and shall require partic-
21 ipation of such gas corporation as necessary for implementation. Such
22 programs shall require implementation of neighborhood gas transition
23 projects for the purpose of decommissioning discrete segments of the
24 utility gas system in order to provide for an orderly gas system transi-
25 tion to achieve consistency with the climate justice and emission
26 reduction provisions in chapter one hundred six of the laws of two thou-
27 sand nineteen, and such successors in law and function as may arise from
28 time to time. Development and approval of such programs shall be
29 completed no later than one year after the statewide affordable gas
30 transition plan has been published.

31 2. Prior to January first, two thousand thirty, no existing residen-
32 tial gas customer, as such term is referenced in section thirty of this
33 chapter, shall have their gas service discontinued as part of a neigh-
34 borhood gas transition project implemented pursuant to this section
35 except by consent of such customer.

36 3. Programs shall be designed to maximize cost efficiencies from
37 avoided investments in the expansion and maintenance of the gas system,
38 and redirect resources toward implementation of neighborhood gas transi-
39 tion projects, including assisting customers to upgrade their homes and
40 energy appliances, including those used for heating, cooling, cooking,
41 and water heating, in addition to utilizing state and federal appliance
42 and efficiency incentive programs and other available funding streams.

43 4. The commission shall only approve programs that ensure that all
44 affected residential customers will:

45 (a) have continued access to safe and reliable energy services for
46 heating, cooling, cooking, and water heating;

47 (b) have access to funding and technical support for the purchase and
48 installation of customer-owned equipment at low or no cost, as well as
49 for the purposes of identifying, planning, and securing services to
50 undertake weatherization and energy efficiency measures, and pre-elec-
51 trification upgrades, using any resources available for such purposes;

52 (c) be given notice at least two years in advance of the cessation of
53 gas service, and at least every six months subsequently, via mail and,
54 when applicable, electronically, and, where feasible, through at least
55 one in-person contact, and be provided notification of financial and

1 technical assistance available to such customers from the utility or
2 other state or federal programs to support electrification;

3 (d) have an opportunity to comment on the proposed neighborhood gas
4 transition project before it is finalized; and

5 (e) be provided notice when an adjacent customer connected to their
6 local gas grid has voluntarily opted to discontinue service, via mail
7 and, when applicable, electronically.

8 5. The commission shall require each gas corporation to reevaluate its
9 existing plans, policies, and programs related to proactive replacement
10 of gas system infrastructure based on analyses of discrete segments of
11 the gas system that are most suitable to be prioritized for neighborhood
12 gas transition projects.

13 6. The commission shall ensure that any program approved pursuant to
14 this section will not compromise the safety and reliability of the elec-
15 tric distribution grid or gas distribution system, or result in unrea-
16 sonable disruption of service to buildings that are used for an indus-
17 trial or commercial use that is difficult to electrify using
18 commercially available technology or that house an energy intensive and
19 trade exposed industry, or to critical infrastructure as such terms are
20 defined by the commission.

21 7. Programs approved pursuant to this section shall not compromise the
22 ability of a gas corporation to seek to recover prudent, commission-ap-
23 proved investments in infrastructure that was used and useful.

24 8. Prior to approval, the commission shall consider whether a program
25 is adequately designed to mitigate potential financial hardship to
26 affected residential customers in connection with the replacement of
27 gas-fired appliances as part of neighborhood gas transition projects
28 implemented pursuant to the program.

29 § 4. Subdivision 1 of section 4 of the public service law, as amended
30 by chapter 594 of the laws of 2021, is amended to read as follows:

31 1. There shall be in the department of public service a public service
32 commission, which shall possess the powers and duties hereinafter speci-
33 fied, and also all powers necessary or proper to enable it to carry out
34 the purposes of this chapter and to enable achievement of the climate
35 justice and emission reduction provisions in chapter one hundred six of
36 the laws of two thousand nineteen, and such successors in law and func-
37 tion as may arise from time to time. The commission shall consist of
38 five members, to be appointed by the governor, by and with the advice
39 and consent of the senate. A commissioner shall be designated as [~~chair-~~
40 ~~man~~] chairperson of the commission by the governor to serve in such
41 capacity at the pleasure of the governor or until [~~his~~] the commission-
42 er's term [~~as commissioner~~] expires whichever first occurs. At least one
43 commissioner shall have experience in utility consumer advocacy. No more
44 than three commissioners may be members of the same political party
45 unless, pursuant to action taken under subdivision two of this section,
46 the number of commissioners shall exceed five, and in such event no more
47 than four commissioners may be members of the same political party.

48 § 5. Paragraph b of subdivision 1 of section 5 of the public service
49 law, as amended by chapter 155 of the laws of 1970, is amended to read
50 as follows:

51 b. To the manufacture, conveying, transportation, sale or distribution
52 of gas (natural or manufactured or mixture of both) and electricity for
53 light, heat, cooling, or power, to gas plants and to electric plants and
54 to the persons or corporations owning, leasing or operating the same.

55 § 6. Section 30 of the public service law, as amended by chapter 686
56 of the laws of 2002, is amended to read as follows:

1 § 30. Residential gas, electric and steam service policy. 1. This
2 article shall apply to the provision of all or any part of the gas,
3 electric or steam service provided to any residential customer by any
4 gas, electric or steam and municipalities corporation or municipality.
5 It is hereby declared to be the policy of this state that the continued
6 provision of [~~all or any part of such gas,~~] electric and steam [~~service~~]
7 services to all residential customers without unreasonable qualifica-
8 tions or lengthy delays is necessary for the preservation of the health
9 and general welfare, is consistent with the achievement of the state's
10 climate justice and emission reduction goals, and is in the public
11 interest. It is further the policy of this state that electric and
12 steam services to all residential customers, and gas service for exist-
13 ing residential customers must be provided in a manner that is safe and
14 adequate, not unjustly discriminatory or unduly preferential, and in all
15 respects just and reasonable, while providing for an orderly, affordable
16 and equitable right-sizing of the utility gas system to achieve consist-
17 ency with the climate justice and emission reduction provisions in chap-
18 ter one hundred six of the laws of two thousand nineteen, and such
19 successors in law and function as may arise from time to time, encourag-
20 ing neighborhood-scale transitions and the elimination of on-site
21 co-pollutants.

22 2. (a) The commission shall regulate for the continued provision of
23 gas service to all existing residential gas customers, unless such
24 service is discontinued pursuant to a home energy affordable transition
25 program approved by the commission pursuant to section sixty-six-z of
26 this chapter.

27 (b) For the purposes of this section, any new residential gas customer
28 purchasing or renting or moving into a building with existing gas
29 service, or in which gas service was temporarily interrupted, as defined
30 by the commission, including temporary interruption for emergencies,
31 disasters, maintenance, repairs, renovation, or restoration, shall be
32 treated as an existing customer unless and until such service is discon-
33 tinued pursuant to a home energy affordable transition program approved
34 by the commission.

35 3. (a) Within one year of the effective date of this subdivision, the
36 commission shall develop a plan to ensure that all residential customers
37 be adequately protected from bearing an energy burden greater than six
38 percent of their household income. In developing such plan, the commis-
39 sion shall evaluate available tools, including but not limited to bill
40 discounts, bill credits, redirection of avoided costs of utility infras-
41 tructure, rate making strategies, energy efficiency, distributed renewa-
42 ble energy, and potential budgetary measures, prioritizing mitigation of
43 rate increases on residential customers. Beginning in the calendar year
44 following the effective date of this subdivision, and continuing annual-
45 ly on or before October first, the commission shall report to the gover-
46 nor and legislature on the actions it has taken and progress it has made
47 toward implementing the plan developed pursuant to this paragraph. Such
48 report shall include but not be limited to recommendations regarding any
49 additional legislative or budgetary measures necessary to achieve such
50 goal. The annual report shall also be published on the commission's
51 website. In implementing the plan developed pursuant to this paragraph,
52 the commission shall prioritize low-to-moderate income customers, as
53 defined by the commission, including those who are already eligible for
54 the commission's energy affordability program.

55 (b) In order to ensure that all residential customers be adequately
56 protected from bearing an energy burden greater than six percent of

1 their household income, the commission may authorize the use of reason-
2 able per-customer caps on the amount of energy subject to such
3 protections. The commission may also establish a reasonable cap on
4 collections from ratepayers to fund the commission's energy affordabili-
5 ty program or similar successor programs provided such cap is not less
6 than three percent of total electric or gas revenues for sales to end-
7 use customers for each utility.

8 4. Nothing in this article or any other law of New York state shall be
9 interpreted or otherwise construed as preempting a municipality from
10 adopting building codes or other regulations regarding on-site emissions
11 for new and existing buildings within their localities.

12 § 7. Subdivision 1 of section 1020-cc of the public authorities law,
13 as amended by section 11 of part A of chapter 173 of the laws of 2013,
14 is amended to read as follows:

15 1. All contracts of the authority shall be subject to the provisions
16 of the state finance law relating to contracts made by the state. The
17 authority shall also establish rules and regulations with respect to
18 providing to its residential gas, electric and steam utility customers
19 those rights and protections provided in article two and sections one
20 hundred seventeen and one hundred eighteen of the public service law and
21 section one hundred thirty-one-s of the social services law. It shall
22 be a goal of the authority that all residential customers be adequately
23 protected from bearing an energy burden greater than six percent of
24 their household income pursuant to subdivision three of section thirty
25 of the public service law. The authority shall conform to any safety
26 standards regarding manual lockable disconnect switches for solar elec-
27 tric generating equipment established by the public service commission
28 pursuant to subparagraph (ii) of paragraph (a) of subdivision five and
29 subparagraph (ii) of paragraph (a) of subdivision five-a of section
30 sixty-six-j of the public service law. The authority shall let contracts
31 for construction or purchase of supplies, materials, or equipment pursu-
32 ant to section one hundred three and paragraph (e) of subdivision four
33 of section one hundred twenty-w of the general municipal law.

34 § 8. Subdivisions 1, 3 and 4 of section 31 of the public service law,
35 as added by chapter 713 of the laws of 1981, are amended and a new
36 subdivision 4-a is added to read as follows:

37 1. Every gas corporation, electric corporation or municipality shall
38 provide residential service upon the oral or written request of an
39 applicant, provided that any residential gas service shall only be
40 provided in accordance with section thirty of this article, and provided
41 further that the commission may require that requests for service be in
42 writing under circumstances as it deems necessary and proper as set
43 forth by regulation, and provided further that the applicant:

44 (a) makes full payment for residential utility service provided to a
45 prior account in [~~his~~] the applicant's name; or

46 (b) agrees to make payments under a deferred payment plan of any
47 amounts due for service to a prior account in [~~his~~] the applicant's name
48 and makes a down payment based on criteria to be established by the
49 commission. No such down payment shall exceed one-half of any money due
50 from an applicant for residential utility service, or three months aver-
51 age billing, whichever is less; or

52 (c) is a recipient of public assistance, supplemental security income
53 or additional state payments pursuant to the social services law, or is
54 an applicant for such assistance, income or payments, and the utility
55 corporation or the municipality receives payment from, or is notified of
56 the applicant's eligibility for utility payments by the social services

1 official of the social services district in which such person resides
2 for amounts due for service to a prior account in the applicant's name,
3 together with guarantee of future payments to the extent authorized by
4 the social services law; and

5 (d) receives clear, timely information from the gas corporation, elec-
6 tric corporation, municipality, or retail energy service company, writ-
7 ten in plain language, available in the top twelve most common non-Engl-
8 ish languages spoken by limited English proficient New Yorkers, and
9 approved by the commission after stakeholder input, on incentives and
10 opportunities for installing energy-efficient electric heating and cool-
11 ing technologies, weatherization, demand-side management, and distrib-
12 uted energy resource programs.

13 (e) nothing in this subdivision shall be construed to prohibit exist-
14 ing gas customers, in accordance with section thirty of this article and
15 subject to any other regulations implemented by the commission, from
16 reconnecting to the gas distribution system following a gas interruption
17 due to emergency repairs or remediation of leaking equipment.

18 3. Subject to the requirements of subdivisions four, four-a and five
19 of this section, and in accordance with section thirty of this article,
20 whenever a residential customer moves to a new residence within the
21 service territory of the same utility corporation or municipality, [~~he~~]
22 the applicant shall be eligible to receive service at the new residence
23 and such service shall be considered a continuation of service in all
24 respects except for the purposes of section thirty of this article, with
25 any deferred payment agreement honored, and with all rights of such
26 customer and such utility corporation provided by this article unim-
27 paired.

28 4. In the case of any application for electric service to a building
29 which is not supplied with electricity [~~or gas~~], a utility corporation
30 or municipality shall be obligated to provide electric service to such a
31 building, provided however, that the commission may require applicants
32 for service to buildings located in excess of one hundred feet from [~~gas~~
33 ~~or~~] electric transmission lines to pay or agree in writing to pay mate-
34 rial and installation costs relating to the applicant's proportion of
35 the pipe, conduit, duct or wire, or other facilities to be installed.

36 4-a. In the case of any application for gas service to a building
37 which is not supplied with gas, a utility corporation or municipality
38 shall be obligated to provide gas service to such building in accordance
39 with commission regulation, provided however, that the commission shall
40 require applicants for gas service to such building to pay or agree in
41 writing to pay material and installation costs relating to the pipe or
42 other facilities to be installed to enable service to the applicant.

43 § 9. Section 12 of the transportation corporations law, as separately
44 amended by chapters 713 and 895 of the laws of 1981, is amended to read
45 as follows:

46 § 12. [~~Gas and electricity~~] Electricity must be supplied on applica-
47 tion. Except in the case of an application for residential utility
48 service pursuant to article two of the public service law, upon written
49 application of the owner or occupant of any building within one hundred
50 feet of any [~~main of a gas corporation or gas and electric corporation,~~
51 ~~or a~~] line of an electric corporation or gas and electric corporation,
52 appropriate to the service requested, and payment by [~~him~~] the applicant
53 of all money due from [~~him~~] the applicant to the corporation, it shall
54 supply [~~gas or~~] electricity as may be required for [~~lighting~~] such
55 building, notwithstanding there be rent or compensation in arrears for
56 gas or electricity supplied, or for meter, wire, pipe or fittings

1 furnished, to a former occupant thereof, unless such owner or occupant
2 shall have undertaken or agreed with the former occupant to pay or to
3 exonerate [~~him~~] the former occupant from the payment of such arrears,
4 and shall refuse or neglect to pay the same; and if for the space of ten
5 days after such application, and the deposit of a reasonable sum as
6 provided in the next section, if required, the corporation shall refuse
7 or neglect to supply gas or [~~electric light~~] electricity as required,
8 such corporation shall forfeit and pay to the applicant the sum of ten
9 dollars, and the further sum of five dollars for every day thereafter
10 during which such refusal or neglect shall continue; provided that no
11 such corporation shall be required to lay service pipes or wires for the
12 purpose of supplying gas or electric light to any applicant where the
13 ground in which such pipe or wire is required to be laid shall be
14 frozen, or shall otherwise present serious obstacles to laying the same;
15 nor unless the applicant, if required, shall deposit in advance with the
16 corporation a sum of money sufficient to pay the cost of [~~his propor-~~
17 ~~tion~~] the applicant's portion of the pipe, conduit, duct or wire
18 required to be installed, and the expense of the installation of such
19 portion.

20 § 10. The transportation corporations law is amended by adding a new
21 section 13 to read as follows:

22 § 13. Gas must be supplied in accordance with public service commis-
23 sion rules and regulations. Except in the case of an application for
24 residential utility service pursuant to article two of the public
25 service law, upon written application of the owner or occupant of any
26 building within one hundred feet of any main of a gas corporation or gas
27 and electric corporation appropriate to the service requested, and
28 payment by the applicant of all money due from the applicant to the
29 corporation, it shall supply gas for such building in accordance with
30 public service commission regulations, notwithstanding there be rent or
31 compensation in arrears for gas supplied, or for meter, pipe or fittings
32 furnished, to a former occupant thereof, unless such owner or occupant
33 shall have undertaken or agreed with the former occupant to pay or to

54 the climate justice and emission reduction provisions in chapter one
55 hundred six of the laws of two thousand nineteen, and such successors in
56 law and function as may arise from time to time, and to align with the

17 of public convenience and necessity that expands a gas company's service
18 territory in order to extend gas plant and the availability of gas
19 service into geographic areas where gas service was not available prior
20 to such date. The commission may authorize exceptions to the policy set
21 forth in this section on a case-by-case basis, provided that the commis-
22 sion finds that the amendment of the certificate of public convenience
23 and necessity is limited to a project that serves a compelling state
24 interest, alternatives to gas service are either not technically feasi-
25 ble or prohibitively expensive, and that the project will be completed
26 and put into service not later than December thirty-first, two thousand
27 twenty-eight.

28 § 14. Section 66-g of the public service law is REPEALED.

46 pursuant to an award under a New York state energy research and develop-
47 ment authority solicitation; ~~(d)~~ (d) a "major utility transmission
48 facility" as such term is defined by section one hundred twenty of the
49 public service law; or (e) any covered neighborhood gas transition

56 as part of a home energy affordable transition program pursuant to

1 section sixty-six-z of the public service law have continued access to
2 safe and reliable energy services for heating, cooling, cooking, and
3 water heating. A covered neighborhood gas transition project shall not

12 invalidate the remainder thereof, but shall be confined in its operation
13 to the word, phrase, clause, sentence, paragraph, section, or part ther-
14 eof directly involved in the controversy in which such judgment shall
15 have been rendered. It is hereby declared to be the intent of the legis-

42 threats on the state. This act therefore relates to establishing a
43 statewide office of climate resilience; adding the office of climate
44 resilience to the executive branch of government; creating the office of
45 resilience within the office of the governor; establishing a chief resi-
46 lience officer; establishing resilience coordinators in each state agen-
47 cy; providing for a statewide resilience plan to be coordinated by the

19 approach to adaptation and near-, mid-, and long-term resilience;

20 (l) To serve as a clearinghouse for the benefit of municipalities
21 regarding information relating to flooding, extreme heat, and other risk

55 implementation. Such framework shall include, but not be limited to,
56 the following:

1 (i) Spatial analysis of projected climate threat exposure and vulner-
2 ability, including but not limited to flood, extreme heat and precipi-

10 last thirty days. The penalties described in this section shall not
11 apply to vehicles defined by section one hundred forty-two or owned by a
12 county, town, city, or village of the vehicle and traffic law for a
13 first violation provided the vehicle is repaired within thirty days of
14 ticket issuance.

22

PART III

23 Section 1. Short title. This act shall be known and may be cited as
24 the "harmful algal bloom monitoring and prevention act".

25 § 2. Legislative findings and declarations. The legislature finds that
26 the state of New York has a responsibility to maintain the health and
27 safety of its abundant clean water resources, upon which the residents
28 of New York state, as well as its many visitors, rely on for drinking,
29 agriculture, tourism, recreation, and their livelihoods. Because the
30 waters of the state are under threat by harmful algal blooms (HABS),
31 which are known to be toxic and even fatal to humans, pets, and wild-
32 life, the state has a responsibility to provide coordinated, statewide
33 monitoring, evaluation, prevention and mitigation, going beyond water
34 body-specific data collection and isolated mitigation efforts. While the
35 causes of HABS are complex and varied, with a coordinated and standard-
36 ized approach to monitoring and evaluation, patterns can more readily be
37 identified to isolate the combination of relevant causes specific to
38 different bodies of water across the state and determine the most effec-
39 tive targeted interventions. To address this threat, the state must
40 develop and maintain a comprehensive state clearinghouse to bring
41 together existing and new available statewide cross-sectional and longi-
42 tudinal data and information on harmful algal blooms, potential and
43 known causes, best practice interventions, expertise, and funding
44 resources. This data and subsequent report will enable the state to
45 effectively and efficiently administer a central grant program support-
46 ing data-driven best practices in prevention and mitigation of harmful
47 algal blooms.

48 § 3. The environmental conservation law is amended by adding a new
49 section 15-0519 to read as follows:

50 § 15-0519. Harmful algal bloom monitoring and prevention program.

51 1. Definitions. For the purposes of this section, the following terms
52 shall have the following meanings:

53 a. "Harmful algal blooms" shall mean growths of blooms of algal
54 species present in fresh or salt water that can produce toxins that are

1 harmful to public health, the economy, or recreational enjoyment, or
2 that can impair water quality and the natural ecology therein.

3 b. "Municipality" shall mean a county, city, town, or village.

4 c. "Waters of the state" means all waterways, or bodies of water
5 located within New York state or that part of any body of water which is
6 adjacent to New York state over which the state has territorial juris-
7 isdiction.

8 2. Comprehensive statewide data collection consolidation and analysis;
9 report. a. The commissioner shall develop a program to further the
10 comprehensive and consistent collection, consolidation, analysis and
11 meta-analysis of statewide data relating to the monitoring, evaluation,
12 prevention, and mitigation of harmful algal bloom outbreaks. The commis-
13 sioner shall provide guidelines for the submission of existing and
14 historical harmful algal bloom monitoring, evaluation, mitigation, and
15 prevention data and strategies from relevant institutions, organiza-
16 tions, and individuals with experience in peer-reviewed research, grant-
17 making, or other like activities in the area of water quality relating
18 to the monitoring, evaluation, prevention, and mitigation of harmful
19 algal bloom outbreaks, including but not limited to research programs,
20 clinics, labs, and project management.

21 b. The data collected, consolidated, and analyzed shall consist of
22 elements including but not limited to longitudinal data on the incidence
23 of harmful algal blooms, contextual factors thought to be associated
24 with the incidence of harmful algal blooms such as water temperature,
25 turbidity, flow rate, salinity, nutrient levels for phosphorus and
26 nitrogen, acidity (pH), dissolved oxygen levels, monitoring and evalu-
27 ation of waters of the state that do not contain harmful algal blooms,
28 and results of harmful algal bloom interventions in New York state.

29 c. The data collected, consolidated, and analyzed shall meet a stand-
30 ard that is consistent with the practices and expertise of institutions,
31 organizations, or individuals with experience in peer-reviewed research,
32 grantmaking, or other like activities in the area of water quality
33 relating to the monitoring, evaluation, prevention, and mitigation of
34 harmful algal bloom outbreaks, including but not limited to research
35 programs, clinics, labs, and project management.

36 d. The department shall annually publish and update a list of vetted
37 best practice strategies for harmful algal bloom monitoring, evaluation,
38 prevention, and mitigation, which shall be differentiated by region or
39 water body with unique confirmed causal pathways for the related harmful
40 algal bloom outbreak trends. Such strategies shall be supported by find-
41 ings of the harmful algal bloom database created pursuant to subdivision
42 three of this section, as well as external evaluation, including but not
43 limited to strategies approved by the federal environmental protection
44 agency, certification that such strategies meet or exceed the American
45 National Standards for health effects of drinking water treatment chemi-
46 cals (NSF/ANSI/CAN-60), or testing for efficacy by center of excellence
47 in healthy water solutions. The department shall publish such list and
48 findings supporting the strategies on such list on the department's
49 website.

50 e. No later than five years after the effective date of this section,
51 the commissioner, in consultation with the commissioner of agriculture
52 and markets, shall prepare a report providing comprehensive analysis and
53 meta-analysis of the data collected pursuant to this section, including
54 findings and recommendations for establishing, maintaining, and improv-
55 ing upon a coordinated system of monitoring, evaluation, prevention, and

1 mitigation of harmful algal bloom outbreaks across New York state. The
2 department shall:

3 i. update the report at least once every five years after the initial
4 completion of the report;

5 ii. make the report publicly available on the department's website;

6 iii. hold at least six regional public comment hearings on the draft
7 report and subsequent updates to the report, including three meetings in
8 the upstate region and three meetings in the downstate region, and shall
9 allow at least one hundred twenty days for the submission of public
10 comment;

11 iv. provide meaningful opportunities for public comment from all
12 segments of the populations that live near, or are reliant upon for
13 drinking, recreation, or economic activity, the waters of the state
14 included in the report;

15 v. seek out input from institutions or organizations with relevant
16 expertise, citizen scientists, and labs testing water quality in
17 relation to harmful algal blooms;

18 vi. identify the magnitude of harmful algal blooms across the state
19 and make recommendations on regulatory measures and other state or local
20 actions to monitor, evaluate, prevent, or mitigate harmful algal blooms,
21 including existing opportunities for coordination of federal, state,
22 municipal, and non-governmental organizations;

23 vii. identify best practices, technology, and available federal,
24 state, municipal, or private funding for and existing efforts in moni-
25 toring, evaluating, preventing, and mitigating harmful algal blooms; and

26 viii. identify the current need in specific bodies of water for the
27 establishment of programs or organizations to further the monitoring,
28 evaluation, prevention, and mitigation of harmful algal blooms, and the
29 costs therefor.

30 3. Harmful algal bloom database. a. The commissioner shall establish
31 and maintain a website providing public access to a harmful algal bloom
32 database which shall contain all relevant data, research, and reporting
33 required pursuant to subdivision two of this section.

34 b. Such database, and analysis of the comprehensive statewide data
35 therein, shall support the coordination of efforts across the state to
36 monitor, evaluate, prevent, and mitigate harmful algal blooms, and shall
37 include, but not be limited to:

38 i. the geolocation of harmful algal bloom outbreaks, and efforts to
39 monitor, evaluate, prevent, and mitigate such outbreaks;

40 ii. existing research, analysis, or reports relating to outbreaks of
41 harmful algal blooms in the waters of the state and the causes of such
42 outbreaks;

43 iii. known or developing strategies and best practices of state,
44 municipal, and non-governmental organizations that monitor, evaluate,
45 prevent, or mitigate harmful algal bloom outbreaks, the respective
46 waters of the state in which such strategies and best practices have
47 been conducted, and the geolocations of such waters;

48 iv. available sources of financing for algal bloom monitoring, evalu-
49 ation, prevention, and mitigation, including federal, state, municipal,
50 and/or private funding, grants, or other monies; and

51 v. information on institutions with expertise in peer-reviewed grant-
52 making and research in the area of water quality and/or harmful algal
53 blooms, including but not limited to the New York sea grant at Stony
54 Brook University, the New York water resource institute at Cornell
55 University, the center of excellence in healthy water solutions, the
56 bureau of water supply protection, the New York city department of envi-

1 ronmental protection, the department of agriculture and markets, commu-
2 nity-based nonprofit organizations with missions that specifically
3 involve monitoring, evaluating, mitigating, or preventing harmful algal
4 blooms, and any other institution or organization providing data
5 compiled pursuant to this section, and the contact information, relevant
6 research programs, clinics, labs, and published research of such insti-
7 tutions.

8 4. Rules and regulations. The commissioner shall, in a manner which is
9 coordinated with and supports efforts by federal, state, municipal, and
10 non-governmental organizations, promulgate rules and regulations to:

- 11 a. limit the causes of harmful algal bloom outbreaks; and
12 b. monitor and mitigate harmful algal bloom outbreaks.

13 5. Program development. The commissioner shall establish and support
14 new and existing programs and organizations relevant to the health of
15 waters of the state that have not implemented strategies to monitor,
16 evaluate, prevent, or mitigate harmful algal bloom outbreaks.

17 6. Harmful algal bloom grant program. In addition to the financing to
18 be identified pursuant to subparagraph iv of paragraph b of subdivision
19 three of this section:

20 a. The commissioner, in consultation with the commissioner of agricul-
21 ture and markets, the commissioner of health, and the president of the
22 empire state development corporation, shall establish a harmful algal
23 bloom grant program which shall provide funding to municipalities,
24 intermunicipal organizations, community-based nonprofits, or academic
25 institutions for the deployment of harmful algal bloom monitoring, eval-
26 uation, prevention, and mitigation strategies and best practices.

27 b. The program shall require that applicants for the harmful algal
28 bloom grant program conduct and submit a study, as part of their appli-
29 cation, assessing the most appropriate mitigation and prevention strate-
30 gies for relevant waters of the state and best practices therefor, as
31 informed by the harmful algal bloom database created pursuant to subdivi-
32 sion three of this section.

33 c. In determining which applicants shall be awarded grants pursuant to
34 this subdivision, first preference shall be given to applicants who
35 propose strategies that incorporate principles of least harm and great-
36 est safety to applicators, the public, and the environment, and utilize
37 passive or non-chemical physical controls, including but not limited to:

- 38 i. aeration;
39 ii. hydrological manipulations;
40 iii. mechanical mixing;
41 iv. reservoir drawdown or desiccation;
42 v. surface skimming;
43 vi. ultrasound; or
44 vii. other emerging technologies, as approved by the department.

45 d. In determining which applicants shall be awarded grants pursuant to
46 this subdivision, second preference shall be given to applicants who
47 demonstrate expertise with previous experience treating water bodies in
48 the United States larger than one thousand acres, with proven success
49 using accepted strategies, including but not limited to strategies that:

- 50 i. are aimed at reducing cyanotoxins in the water to less than harmful
51 levels;
52 ii. employ ready-to-use technology that is means tested, reproducible,
53 and generalizable, without limitation of size or shape of the water
54 body;
55 iii. employ technology which allows for application under emergency
56 situations and within less than ninety-six hours from approval;

1 iv. utilize products that are modular and can be used as a preventa-
2 tive measure;

3 v. utilize products that are quick and easy to apply and are generally
4 recognized as safe to the applicator, public, and environment;

5 vi. utilize products that float on the surface of the water and do not
6 sink immediately to the bottom of the water column;

7 vii. utilize products that are distributed autonomously across the
8 water body after a localized application;

9 viii. utilize products with a time-release mechanism that applies
10 constant and prolonged oxidative stress of the cyanobacteria triggered
11 by the programmed cell death signaling cascade, resulting in their
12 collapse; and

13 ix. utilize products manufactured in the United States.

14 e. The commissioner shall make monies available from the harmful algal
15 bloom monitoring and prevention fund, as established pursuant to section
16 ninety-nine-ss of the state finance law, within amounts appropriated
17 therefor, pursuant to this section.

18 § 4. The state finance law is amended by adding a new section 99-ss to
19 read as follows:

20 § 99-ss. Harmful algal bloom monitoring and prevention fund. 1. There
21 is hereby established in the joint custody of the state comptroller and
22 commissioner of taxation and finance a special fund to be known as the
23 "harmful algal bloom monitoring and prevention fund".

24 2. Such fund shall consist of all revenues received by the comptroller
25 and all other moneys appropriated, credited, or transferred thereto from
26 the general fund or any other fund or source pursuant to law. Nothing
27 contained in this section shall prevent the state from receiving grants,
28 gifts, or bequests for the purposes of such fund and depositing them
29 into such fund according to law.

30 3. Moneys shall be paid out of the fund on the audit and warrant of
31 the comptroller on vouchers certified or approved by the commissioner of
32 environmental conservation or the commissioner of environmental conser-
33 vation's designee.

34 4. Moneys of the fund shall be available to the commissioner of envi-
35 ronmental conservation for the harmful algal bloom monitoring and
36 prevention program established pursuant to section 15-0519 of the envi-
37 ronmental conservation law.

38 § 5. This act shall take effect one year after it shall have become a
39 law. Effective immediately, the addition, amendment and/or repeal of any
40 rule or regulation necessary for the implementation of this act on its
41 effective date are authorized to be made and completed on or before such
42 effective date.

43 PART JJJ

4 3. Eligibility. (a) The following persons shall be eligible to apply
5 for such grant program:

6 (i) owners of a single or multiple-unit residential property; and

7 (ii) tenants or occupants of a residential property where the owner of
8 such property has not applied for the grant for such property.

9 (b) Installers of such treatments may apply for such grant on behalf
10 of an eligible applicant, provided there is a waiver of claims between
11 such parties.

12 (c) An applicant shall not be eligible to apply for such grant program
13 if such applicant has an offer of an alternate water source from a third
14 party, including bottled water, treatment, or service connection.

15 4. Application. (a) Applicants shall submit an application to the
16 department in a manner and form to be determined by the commissioner,
17 and shall include the following documentation:

31 determine if such applicant is eligible for a grant pursuant to this
32 section.

33 5. Public awareness. The department shall publish information about
34 the grant program on the department's website and create public educa-
35 tion materials to publicize the grant program and distribute these mate-

Such results must show PFAS concentrations below the maximum contaminant level or other drinking water cleanup standard set for PFAS, if applicable.

(b) The commissioner, upon review of an applicant's application, shall determine if such applicant is eligible for a rebate pursuant to this section. The commissioner shall make the determination as to the amount of rebate approved, provided that such amount shall in no event exceed one thousand five hundred dollars.

(c) The commissioner shall promulgate rules and regulations regarding how often an applicant may submit an application pursuant to this subdivision.

5. Public awareness. The department shall publish information about the rebate program on the department's website and create public education materials to publicize the rebate program and distribute these materials to local governments, community organizations, and other relevant institutions.

§ 3. This act shall take effect immediately.

PART KKK

Section 1. This act shall be known and may be cited as the "climate corporate data accountability act".

§ 2. The environmental conservation law is amended by adding a new article 74 to read as follows:

ARTICLE 74

CLIMATE CORPORATE DATA ACCOUNTABILITY ACT

Section 74-0101. Definitions.

74-0102. Climate corporate data accountability act.

§ 74-0101. Definitions.

As used in this section, the following terms shall have the following meanings:

b. Has experience with greenhouse gas emissions disclosure by entities operating in New York.

2. "Reporting entity" means:

a. A partnership, corporation, limited liability company, or other business entity formed under the laws of this state, the laws of any

1 other state of the United States or the District of Columbia, or under

4 in this state within the meaning of section two hundred nine of the tax
5 law; and

6 ii. Has total revenues in excess of one billion dollars in the preced-
7 ing fiscal year, including but not limited to revenues received by all
8 of the business entity's subsidiaries that do business in this state.

9 b. A foreign entity shall not be considered to be doing business in
10 this state exclusively by reason of carrying on in this state any of the
11 activities enumerated in subsection (b) of section thirteen hundred one
12 of the business corporation law. If a reporting entity is included as a
13 consolidated subsidiary in the consolidated financial statements of an
14 ultimate parent entity, then such ultimate parent entity may be the
15 reporting entity for purposes of this definition. If a subsidiary of a
16 parent company qualifies as a reporting entity for the purposes of this
17 definition, the subsidiary is not required to prepare a separate report
18 so long as the parent company prepares a report.

19 3. "Scope 1 emissions" means all direct greenhouse gas emissions that

27 house gas emissions, other than scope 2 emissions, from sources that the
28 reporting entity does not own or directly control and may include, but
29 are not limited to, purchased goods and services, business travel,
30 employee commutes, and processing and use of sold products and services.

31 6. "Assurance provider" means a firm or entity which carries out an
32 assurance engagement.

33 7. "Assurance engagement" means an engagement in which an assurance
34 provider expresses an independent opinion on the reports issued under
35 this section, to enhance the degree of confidence of the department,
36 consumers, and investors about the information disclosed by the report-
37 ing entity.

38 § 74-0102. Climate corporate data accountability act.

39 1. a. The department shall adopt regulations on or before December
40 thirty-first, two thousand twenty-six to require a reporting entity to
41 annually disclose to the emissions reporting organization, and to obtain
42 an assurance engagement performed by an independent third-party assur-
43 ance provider on, all of the reporting entity's scope 1 emissions, scope
44 2 emissions, and scope 3 emissions. The regulations adopted pursuant to
45 this subdivision shall require that:

46 i. (1) (A) Starting in two thousand twenty-seven on a date to be
47 determined by the department, and annually thereafter, a reporting enti-
48 ty shall publicly disclose to the emissions reporting organization all
49 of the reporting entity's scope 1 emissions and scope 2 emissions for
50 the prior fiscal year.

51 (B) Starting in two thousand twenty-eight and annually thereafter, a
52 reporting entity shall publicly disclose its scope 3 emissions to the
53 emissions reporting organization for the prior fiscal year on a schedule
54 set by the department pursuant to regulations developed pursuant to this
55 article.

1 (2) In complying with the requirements of this section, a reporting
2 entity shall measure and report its emissions of greenhouse gases in
3 conformance with the Greenhouse Gas Protocol Corporate Accounting and
4 Reporting Standard and the Greenhouse Gas Protocol Corporate Value Chain
5 (Scope 3) Accounting and Reporting Standard developed by the World
6 Resources Institute and the World Business Council for Sustainable
7 Development, including guidance for scope 3 emissions calculations that
8 detail acceptable use of both primary and secondary data sources,
9 including the use of industry average data, proxy data, and other gener-
10 ic data in its scope 3 emissions calculations.

11 (3) (A) Starting in two thousand thirty-four, the department may
12 survey and assess currently available greenhouse gas accounting and
13 reporting standards. At the conclusion of this assessment the department
14 may adopt a globally recognized alternative accounting and reporting
15 standard if it determines its use would more effectively further the
16 goals of this section. This review process shall include consultation
17 with the stakeholders identified in paragraph d of this subdivision.

18 (B) If the department adopts an alternative accounting and reporting
19 standard, the department shall develop and adopt new regulations, pursu-
20 ant to this paragraph, to ensure full conformance with the new standard
21 and reporting of scopes 1, 2, and 3 emissions and other requirements of
22 this section.

23 (4) On or before January first, two thousand thirty-one, the depart-
24 ment shall review, and update as necessary, the public disclosure dead-
25 lines established pursuant to clause one of this subparagraph to evalu-
26 ate trends in scope 3 emissions reporting and consider changes to the
27 disclosure deadlines to ensure that scope 3 emissions data is disclosed
28 to the emissions reporting organization as close in time as practicable
29 to the deadline for reporting entities to disclose scope 1 emissions and
30 scope 2 emissions data.

31 (5) The reporting timelines shall take into account the timelines by
32 which reporting entities typically receive scope 1, scope 2, and scope 3
33 emissions data, as well as the capacity for an independent assurance
34 engagement to be performed by a third-party assurance provider.

35 ii. A reporting entity's public disclosure shall maximize access for
36 consumers, investors, and other stakeholders to comprehensive and
37 detailed greenhouse gas emissions data across scope 1 emissions, scope 2
38 emissions and scope 3 emissions, as defined by this section, and be made
39 in a manner that is easily understandable and accessible.

40 iii. A reporting entity's public disclosure shall include the name of
41 the reporting entity and any fictitious names, trade names, assumed
42 names, subsidiaries and logos used by the reporting entity.

43 iv. A reporting entity's emissions reporting shall be structured in a
44 way that minimizes duplication of effort and allows a reporting entity
45 to submit to the emissions reporting organization reports prepared to
46 meet other state, national, and international reporting requirements,
47 including any reports required by the federal government or other states
48 or reports voluntarily prepared, including those prepared using the
49 International Financial Reporting Standards Foundation Sustainability
50 Disclosure Standards as issued by the International Sustainability Stan-
51 dards Board, as long as those reports satisfy all of the requirements of
52 this section.

53 v. A reporting entity's disclosure shall take into account acquisi-
54 tions, divestments, mergers, and other structural changes that can
55 affect the greenhouse gas emissions reporting, and is disclosed in a
56 manner consistent with the Greenhouse Gas Protocol standards and guid-

1 ance or an alternative standard, if one is adopted after two thousand
2 thirty-four.

3 vi. (1) A reporting entity shall obtain an assurance engagement,
4 performed by an independent third-party assurance provider, of their
5 public disclosure. The reporting entity shall ensure that a copy of the
6 complete assurance provider's report on the greenhouse gas emissions
7 inventory, including the name of the third-party assurance provider, is
8 provided to the emissions reporting organization as part of or in
9 connection with the reporting entity's public disclosure.

10 (2) The assurance engagement for scope 1 emissions and scope 2 emis-
11 sions shall be performed at a limited assurance level beginning in two
12 thousand twenty-seven and at a reasonable assurance level beginning in
13 two thousand thirty-one.

14 (3) On or before January first, two thousand twenty-eight, the depart-
15 ment shall review and evaluate trends in third-party assurance require-
16 ments for scope 3 emissions, and on or before such date, the department
17 may establish an assurance requirement for third-party assurance engage-
18 ments of scope 3 emissions. If any such requirement is established, the
19 assurance engagement for scope 3 emissions shall be performed at a
20 limited assurance level beginning in two thousand thirty-one.

21 (4) A third-party assurance provider shall have significant experience
22 in measuring, analyzing, reporting, or attesting to the emission of
23 greenhouse gases and sufficient competence and capabilities necessary to
24 perform engagements in accordance with professional standards and appli-
25 cable legal and regulatory requirements. The assurance provider shall be
26 able to issue reports that are appropriate under the circumstances and
27 independent with respect to the reporting entity, and any of the report-
28 ing entity's affiliates for which it is providing the assurance report.
29 On or before January first, two thousand thirty-one, the department
30 shall review, and update as necessary, the qualifications for third-par-
31 ty assurance providers based on an evaluation of trends in education
32 relating to the emission of greenhouse gases and the qualifications of
33 third-party assurance providers.

34 (5) The department shall ensure that the assurance process minimizes
35 the need for reporting entities to engage multiple assurance providers
36 and ensures sufficient assurance provider capacity, as well as timely
37 reporting implementation as required under clause one of subparagraph i
38 of this paragraph.

39 vii. (1) A reporting entity shall pay an annual fee to the department
40 for the administration and implementation of this section.

41 (2) The department shall set the fee established pursuant to clause
42 one of this subparagraph in an amount sufficient to cover the depart-
43 ment's full costs of administrating and implementing this section. The
44 total amount of fees collected shall not exceed the department's actual
45 and reasonable costs to administer and implement this section.

46 (3) The proceeds of the fees imposed pursuant to clause one of this
47 subparagraph shall be deposited in the climate accountability and emis-
48 sions disclosure fund established by section ninety-nine-ss of the state
49 finance law.

50 b. The department shall create or contract with an emissions reporting
51 organization to develop a reporting program to receive and make publicly
52 available disclosures required by this section. Emissions reporting
53 organizations shall not be authorized to provide services to a company
54 where a conflict of interest exists. A conflict of interest shall
55 include:

1 i. The emissions reporting organization and reporting entity sharing
2 any management staff or board of directors membership, or any of the
3 senior management staff of the reporting entity having been employed by
4 the emissions reporting organization or reporting entity within the
5 previous five years.

6 ii. Any employee of the emissions reporting organization, or any
7 employee of a related entity, or a subcontractor who is a member of the
8 emissions reporting organization having provided the reporting entity
9 with services related to the areas of emissions reporting organization,
10 or any services designated by the department, within the previous five
11 years.

12 iii. Any staff member of the emissions reporting organization provid-
13 ing any type of non-monetary incentive to a reporting entity to secure a
14 services contract.

15 c. The department may adopt or update any other regulations that it
16 deems necessary and appropriate to implement this subdivision.

17 d. In developing the regulations required pursuant to this subdivi-
18 sion, the department shall consult with all of the following:

19 i. the attorney general;

20 ii. other government stakeholders, including, but not limited to,
21 experts in climate science and corporate carbon emissions accounting and
22 reporting;

23 iii. investors;

24 iv. stakeholders representing consumer and environmental justice
25 interests; and

26 v. reporting entities that have demonstrated leadership in full-scope
27 greenhouse gas emissions accounting and public disclosure and greenhouse
28 gas emissions reductions.

29 e. This section does not require additional reporting of emissions of
30 greenhouse gases beyond the reporting of scope 1 emissions, scope 2
31 emissions, and scope 3 emissions required pursuant to the Greenhouse Gas
32 Protocol standards and guidance or an alternative standard, if one is
33 adopted after two thousand thirty-four.

34 2. a. The department shall prepare a report on the public disclosures
35 made by reporting entities to the emissions reporting organization
36 pursuant to subdivision one of this section and the regulations adopted
37 by the department pursuant to such subdivision. In preparing the report,
38 consideration shall be given to, at a minimum, greenhouse gas emissions
39 from reporting entities in the context of state greenhouse gas emissions
40 reduction and climate goals. The department shall issue the report of
41 its findings to the governor, the speaker of the assembly and the tempo-
42 rary president of the senate and shall publish such report on its
43 website.

44 b. The emissions reporting organization shall make the reporting enti-
45 ties' disclosures publicly available on the digital platform required to
46 be created by the emissions reporting organization pursuant to subdivi-
47 sion four of this section.

48 3. a. i. The emissions reporting organization, on or before July
49 first, two thousand twenty-seven pursuant to clause one of subparagraph
50 i of paragraph a of subdivision one of this section, shall create a
51 digital platform, which shall be accessible to the public, that will
52 feature the emissions data of reporting entities in conformance with the
53 regulations adopted by the department pursuant to subdivision one of
54 this section and the report prepared for the department pursuant to
55 subdivision two of this section. The emissions reporting organization

1 shall make the reporting entities' disclosures and the department's
2 report available on the digital platform within ninety days of receipt.

3 ii. The digital platform shall be capable of featuring individual
4 reporting entity disclosures, and shall allow consumers, investors, and
5 other stakeholders to view reported data elements aggregated in a varie-
6 ty of ways, including multiyear data, in a manner that is easily under-
7 standable and accessible to residents of the state. All data sets and
8 customized views shall be available in electronic format for access and
9 use by the public.

10 b. The emissions reporting organization shall submit, within thirty
11 days of receipt, the report prepared for the department pursuant to this
12 subdivision to the temporary president of the senate, the speaker of the
13 assembly, and the governor.

14 4. a. The attorney general may bring a civil action against a report-
15 ing entity seeking civil penalties of up to one hundred thousand dollars
16 per day for willful failure to comply with the requirements of this
17 section or regulations set forth by the department, including for
18 nonfiling, late filing, or other failure to meet the requirements of
19 this section. The civil penalties imposed on a reporting entity for
20 such violations shall not exceed five hundred thousand dollars in a
21 reporting year. In seeking civil penalties for a violation of this
22 section, the attorney general shall consider all relevant circumstances,
23 including both of the following:

24 i. the violator's past and present compliance with this section; and
25 ii. whether the violator took any good faith measures to comply with
26 this section and when those measures were taken.

27 b. A reporting entity shall not be subject to a civil action under
28 this section for any misstatements with regard to scope 3 emissions
29 disclosures made with a reasonable basis and disclosed in good faith.

30 c. Penalties assessed on scope 3 reporting, between two thousand twen-
31 ty-eight and two thousand thirty-one, shall only occur for nonfiling.

32 5. This section applies to the state university and city university of
33 New York only to the extent that the regents of the state university or
34 city university, by resolution, make any of these provisions applicable
35 to the university.

36 § 3. The state finance law is amended by adding a new section 99-ss to
37 read as follows:

38 § 99-ss. Climate accountability and emissions disclosure fund. 1.
39 There is hereby established in the joint custody of the state comp-
40 trroller and the department of tax and finance a special fund to be known
41 as the "climate accountability and emissions disclosure fund". Moneys in
42 this account shall be kept separate and not commingled with any other
43 moneys in the custody of the comptroller.

44 2. Such fund shall consist of all revenues received by the department
45 of taxation and finance, pursuant to the provisions of section 74-0102
46 of the environmental conservation law, the tax law and all other moneys
47 credited or transferred thereto from any other fund or source pursuant
48 to law. Nothing contained in this section shall prevent the state from
49 receiving grants, gifts or bequests for the purposes of the fund as
50 defined in this section and depositing them into the fund according to
51 law. Any interest received by the comptroller on moneys on deposit
52 shall be retained and become part of the fund, unless otherwise directed
53 by law.

54 § 4. Severability. If any clause, sentence, paragraph, subdivision,
55 section or part of this act shall be adjudged by any court of competent
56 jurisdiction to be invalid, such judgment shall not affect, impair, or

1 invalidate the remainder thereof, but shall be confined in its operation
2 to the clause, sentence, paragraph, subdivision, section or part thereof
3 directly involved in the controversy in which such judgment shall have
4 been rendered. It is hereby declared to be the intent of the legislature
5 that this act would have been enacted even if such invalid provisions
6 had not been included herein.

7 § 5. This act shall take effect on the one hundred eightieth day after
8 it shall have become a law. Effective immediately, the addition, amend-
9 ment and/or repeal of any rule or regulation necessary for the implemen-
10 tation of this act on its effective date are authorized to be made and
11 completed on or before such effective date.

12 PART LLL

13 Section 1. The environmental conservation law is amended by adding a
14 new article 78 to read as follows:

15 ARTICLE 78

16 SAFE WATER AND INFRASTRUCTURE ACTION PROGRAM

17 Section 78-0101. Safe water and infrastructure action program.

18 § 78-0101. Safe water and infrastructure action program.

19 1. Notwithstanding any other provisions of this chapter or any other
20 law and subject to an appropriation made therefor and in accordance with
21 the provisions of this section and with the rules and regulations
22 promulgated by the commissioner in connection therewith, on and after
23 the first day of April, two thousand twenty-six, a consolidated local
24 infrastructure program is hereby established for the purpose of making
25 payments toward the replacement and rehabilitation of existing local
26 municipally-owned and funded drinking water, storm water and sanitary
27 sewer systems. For purposes of this section, such program shall apply to
28 any drinking water system, storm water system or sanitary sewer system
29 within the state that is under the maintenance and/or operational juris-
30 isdiction of a county, city, town, village or public authority; provided,
31 however, that such system shall not be under the maintenance and/or
32 operational jurisdiction of a private entity; and provided further that
33 no more than ten percent of the moneys paid under the program shall be
34 paid toward replacement and rehabilitation of drinking water, storm
35 water, and sanitary sewer systems under the maintenance and/or opera-
36 tional jurisdiction of any one county, city, town, village, or public
37 authority. The commissioner, in conjunction with the environmental
38 facilities corporation, shall promulgate all necessary rules and regu-
39 lations to carry out the program so that an equitable distribution of
40 aid shall be made for the general operation and/or general maintenance
41 of any such existing drinking water system, storm water system or sani-
42 tary sewer system. Existing water infrastructure includes all the man-
43 made and natural features that move and treat water in terms of drinking
44 water, waste water, and storm water. Monies from this fund may be used
45 for maintenance and repairs of existing water infrastructure as well as
46 new water infrastructure expansion, but only into already developed
47 areas so as not to support sprawl and development of natural areas.
48 Already developed areas are those that are zoned/defined by munici-
49 palties as of January first, two thousand twenty-five as commercial and
50 residential use.

51 2. On or before the twenty-fifth day of April, June, September and
52 November of each state fiscal year commencing with the state fiscal year
53 beginning on April first, two thousand twenty-seven, there shall be
54 distributed and paid to counties, cities, towns, villages and public

1 authorities an amount equal to the moneys appropriated for the purposes
2 of this section divided by the number of payment dates in that state
3 fiscal year. Such amounts shall be distributed and paid pursuant to
4 subdivision three of this section.

5 3. Amounts shall be distributed for local drinking water, storm water
6 and sanitary sewer systems based upon a funding formula that the depart-
7 ment and the department of health shall create taking into consideration
8 factors including but not limited to: the system's length and width of
9 pipes; other physical assets maintained by the system, including treat-
10 ment facilities and pumping stations; the age of the system's infras-
11 tructure; and relevant socioeconomic factors, including the presence of
12 disadvantaged communities within a system's service area, to achieve an
13 equitable distribution of aid.

14 4. Monies made available may be used to match other state and federal
15 funds made available for such projects. The remainder of the apportion-
16 ment may be used for any existing drinking water, storm water or sewer
17 system purchases, including but not limited to, the acquisition of mate-
18 rials for the replacement or rehabilitation.

19 5. For any city, town, village or public authority which proposes
20 infrastructure consolidation under this section or merges with another
21 municipality, the funds appropriated under this section may fund costs
22 associated with such consolidation.

23 6. For each fiscal year, starting in two thousand twenty-seven, funds
24 are to be made available to the local infrastructure assistance account
25 of the general fund, and distributed from that account.

26 7. At the end of each fiscal year, each county, city, town, village
27 and public authority that receives funding pursuant to this section
28 shall submit an annual report to the department detailing how such money
29 was used. The department shall compile all reports and submit them to
30 the comptroller for their review. Once a report is finalized, it shall
31 be made publicly available on the department's website. The department
32 and the comptroller shall reserve the right to conduct sight visits to
33 ensure the money is being used accurately.

34 § 2. This act shall take effect on the thirtieth day after it shall
35 have become a law.

36 PART MMM

37 Section 1. The public service law is amended by adding a new section
38 24-c to read as follows:

39 § 24-c. Utility intervenor reimbursement. 1. As used in this
40 section, the following terms shall have the following meanings:

41 (a) "Compensation" means payment from the utility intervenor account
42 fund established by section ninety-seven-uuuu of the state finance law,
43 for all or part, as determined by the department, of reasonable advo-
44 cate's fees, reasonable expert witness fees, and other reasonable costs
45 for preparation and participation in a proceeding.

46 (b) "Participant" means a group of persons that apply jointly for an
47 award of compensation under this section and who represent the interests
48 of a significant number of residential or small business customers, or a
49 not-for-profit organization in this state authorized pursuant to its
50 articles of incorporation or bylaws to represent the interests of resi-
51 dential or small business utility customers. For purposes of this
52 section, a participant does not include a non-profit organization or
53 other organization whose principal interests are the welfare of a public
54 utility or its investors or employees, or the welfare of one or more

1 businesses or industries which receive utility service ordinarily and
2 primarily for use in connection with the profit-seeking manufacture,
3 sale, or distribution of goods or services.

4 (c) "Other reasonable costs" means reasonable out-of-pocket expenses
5 directly incurred by a participant that are directly related to the
6 contentions or recommendations made by the participant that resulted in
7 a substantial contribution.

8 (d) "Party" means any interested party, respondent public utility, or
9 commission staff in a hearing or proceeding.

10 (e) "Proceeding" means a complaint, or investigation, rulemaking, or
11 other formal proceeding before the commission, or alternative dispute
12 resolution procedures in lieu of formal proceedings as may be sponsored
13 or endorsed by the commission, provided however such proceedings shall
14 be limited to those arising under and proceeding pursuant to the follow-
15 ing articles of this chapter: (1) the regulation of the price of gas and
16 electricity, pursuant to article four of this chapter except those
17 described in subparagraph (ii) of paragraph (c) of subdivision twelve of
18 section sixty-six of this chapter; (2) the regulation of the price of
19 steam, pursuant to article four-A of this chapter; (3) the submetering,
20 remetering or resale of electricity to residential premises, pursuant to
21 sections sixty-five and sixty-six of this chapter, and pursuant to regu-
22 lations regarding the submetering, remetering, or resale of electricity
23 adopted by the commission; and (4) such sections of this chapter as are
24 applicable to a proceeding in which the commission makes a finding on
25 the record that the public interest requires the reimbursement of utili-
26 ty intervenor fees pursuant to this section.

27 (f) "Significant financial hardship" means that the participant will
28 be unable to afford, without undue hardship, to pay the costs of effec-
29 tive participation, including advocate's fees, expert witness fees, and
30 other reasonable costs of participation.

31 (g) "Small business" means a business with a gross annual revenue of
32 two hundred fifty thousand dollars or less.

33 (h) "Substantial contribution" means that, in the judgment of the
34 department, the participant's application may substantially assist the
35 commission in making its decision because the decision may adopt in
36 whole or in part one or more factual contentions, legal contentions, or
37 specific policy or procedural recommendations that will be presented by
38 the participant.

39 2. A participant may apply for an award of compensation under this
40 section in a proceeding in which such participant has sought active
41 party status as defined by the department. The department shall deter-
42 mine appropriate procedures for accepting and responding to such appli-
43 cations. At the time of application, such participant shall serve on
44 every party to the proceeding notice of intent to apply for an award of
45 compensation.

46 An application shall include:

47 (a) A statement of the nature and extent and the factual and legal
48 basis of the participant's planned participation in the proceeding as
49 far as it is possible to describe such participation with reasonable
50 specificity at the time the application is filed.

51 (b) At minimum, a reasonably detailed description of anticipated advo-
52 cates and expert witness fees and other costs of preparation and partic-
53 ipation that the participant expects to request as compensation.

54 (c) If participation or intervention will impose a significant finan-
55 cial hardship and the participant seeks payment in advance to an award
56 of compensation in order to initiate, continue or complete participation

1 in the hearing or proceeding, such participant must include evidence of
2 such significant financial hardship in its application.

3 (d) Any other requirements as required by the department.

4 3. (a) Within thirty days after the filing of an application the
5 department shall issue a decision that determines whether or not the
6 participant may make a substantial contribution to the final decision in
7 the hearing or proceeding. If the department finds that the participant
8 requesting compensation may make a substantial contribution, the depart-
9 ment shall describe this substantial contribution and determine the
10 amount of compensation to be paid pursuant to subdivision four of this
11 section.

12 (b) Notwithstanding subdivision four of this section, if the depart-
13 ment finds that the participant has a significant financial hardship,
14 the department shall provide all or part of the compensation to the
15 participant from any funds in the utility intervenor account appropri-
16 ated for such purpose, or where such funds are insufficient, the depart-
17 ment may direct the public utility or utilities subject to the proceed-
18 ing to pay all or part of the compensation to the department to be
19 provided to the participant prior to the end of the proceeding. In the
20 event that the participant discontinues its participation in the
21 proceeding without the consent of the department, the department shall
22 be entitled to, in whole or in part, recover any payments made to such
23 participant to be refunded to the utility intervenor account or the
24 public utility or utilities that provided such payment.

25 (c) The computation of compensation pursuant to paragraph (a) of this
26 subdivision shall take into consideration the market rates paid to
27 persons of comparable training and experience who offer similar
28 services. The compensation awarded may not, in any case, exceed the
29 comparable market rate for services paid by the department or the public
30 utility, whichever is greater, to persons of comparable training and
31 experience who are offering similar services.

32 (d) Any compensation awarded to a participant and not used by such
33 participant shall be returned to the department for refund to the utili-
34 ty intervenor account or the public utility or utilities that provided
35 such payment.

36 (e) The department shall require that participants seeking payment
37 maintain an itemized record of all expenditures incurred as a result of
38 such proceeding.

39 (i) The department may use the itemized record of expenses to verify
40 the claim of financial hardship by a participant seeking payment pursu-
41 ant to paragraph (c) of subdivision two of this section.

42 (ii) The department may use the record of expenditures in determining,
43 after the completion of a proceeding, if any unused funds remain.

44 (iii) The department shall preserve the confidentiality of the partic-
45 ipant's records in making any audit or determining the availability of
46 funds after the completion of a proceeding.

47 (f) In the event that the department finds that two or more partic-
48 ipants' applications have substantially similar interests, the depart-
49 ment may require such participants to apply jointly in order to receive
50 compensation.

51 4. Any compensation pursuant to this section shall be paid at the
52 conclusion of the proceeding, using funds appropriated to the utility
53 intervenor account for such purpose, or where such funds are not suffi-
54 cient for such payment, by the public utility or utilities subject to
55 the proceeding within thirty days. Such compensation shall be remitted

1 to the department which shall then remit such compensation to the
2 participant.

3 5. The department shall deny any award to any participant who attempts
4 to delay or obstruct the orderly and timely fulfillment of the depart-
5 ment's responsibilities.

6 § 2. The state finance law is amended by adding a new section 97-uuuu
7 to read as follows:

8 § 97-uuuu. Utility intervenor account. 1. There is hereby established
9 in the joint custody of the state comptroller and the commissioner of
10 taxation and finance a fund to be known as the utility intervenor
11 account.

12 2. Such account shall consist of any monies appropriated for the
13 purpose of providing compensation pursuant to section twenty-four-c of
14 the public service law, and all utility intervenor reimbursement monies
15 received from utilities pursuant to section twenty-four-c of the public
16 service law.

17 § 3. This act shall take effect on the thirtieth day after it shall
18 have become a law.

19 PART NNN

20 Section 1. Section 15-0601 of the environmental conservation law is
21 amended by adding four new subdivisions 4, 5, 6 and 7 to read as
22 follows:

23 4. "Resident applicant" shall mean a single or multifamily dwelling.

24 5. "Commercial applicant" shall mean a commercial business, private
25 school, university, not-for-profit corporation, or other nonprofit
26 organization located within Nassau or Suffolk counties.

27 6. "Eligible smart irrigation device" shall mean a smart irrigation
28 device that is new, has not been used or previously owned, and is
29 purchased from an in-person or online retailer.

30 7. "Smart irrigation device" shall mean any device which is intended
31 to be used or is actually used for irrigation and the monitoring of
32 local weather data to automatically alter irrigation schedules based on
33 such data, and shall include such devices as smart irrigation control-
34 lers and smart sprinkler systems.

35 § 2. The environmental conservation law is amended by adding a new
36 section 15-0609 to read as follows:

37 § 15-0609. Smart irrigation device rebate pilot program in Nassau and
38 Suffolk counties.

39 1. There is hereby created within the department a smart irrigation
40 device rebate pilot program. The legislature finds that the supply of
41 water from Long Island's aquifers is a precious and finite resource that
42 is specifically threatened by saltwater intrusion. Saltwater intrusion
43 affects many communities on Long Island, including the city of Long
44 Beach, which over the past forty-five years at least, has seen the slow
45 yet steady intrusion of such saltwater into the shallower layers of the
46 Lloyd aquifer, which supplies the city's water. It is essential to
47 properly manage the use of water in order to assure that the water
48 supply will be sufficient to meet current and future needs. The irri-
49 gation of commercial and residential lawns and gardens places a signif-
50 icant demand on the water supply and conservation efforts are a crit-
51 ically important part of proper management of such water supply. Data
52 provided by the United States Geological Survey indicates that Long
53 Island residents use seventy percent more water than the national aver-
54 age; and, consumption spikes in the peak water pumpage season during the

1 summer, mainly because of lawn irrigation. Furthermore, in two thousand
2 seventeen, the department required public water suppliers to develop
3 plans to reduce peak season water pumpage by fifteen percent. According
4 to data from a two thousand twenty-three report from the Long Island
5 commission for aquifer protection, increased irrigation control is need-
6 ed as peak water pumpage in Nassau County was three and one-half percent
7 lower than the average for the previous decade; and, in Suffolk County,
8 water use actually increased. Additionally, smart irrigation systems
9 have a beneficial impact on conserving water and ensure a high level of
10 lawncare beautification by commercial businesses and residents. There-
11 fore, the purpose of the program is to reduce water consumption, proper-
12 ly manage the use of water to meet current and future needs, enhance
13 conservation efforts and increase effective irrigation techniques. The
14 counties of Nassau and Suffolk can benefit from such program.

15 2. The department shall create a program, subject to appropriation
16 therefore, to award rebates to commercial applicants and resident appli-
17 cants within Nassau and Suffolk counties for eligible smart irrigation
18 devices in amounts determined by the department. The program shall open
19 for applications on March first, two thousand twenty-six.

20 3. The department shall determine the maximum rebate allowable for
21 commercial applicants and for resident applicants in accordance with the
22 requirements of this section and rules promulgated by the department,
23 taking into consideration the effectiveness of products at the lowest
24 price point. Rebates shall be allocated to eligible applicants on a
25 first-come, first-served basis, determined by the date the application
26 is received, for systems purchased after the effective date of this
27 section, until the earlier of the expenditure of all appropriated funds
28 or the program end date.

29 4. The department shall promulgate rules and regulations to implement
30 and administer the provisions of this section no later than January
31 thirty-first, two thousand twenty-six, including rules and regulations
32 relating to the types of smart irrigation devices eligible under this
33 section and rebate amounts for such devices, the forms, procedure and
34 guidelines required to claim a rebate, the required documentation and
35 basis for establishing eligibility for a rebate, the collection of
36 economic impact data from applicants, and any other requirements the
37 department deems necessary. In the course of developing such rules and
38 regulations, the department shall consult with relevant stakeholders,
39 including the Nassau county department of health, the Suffolk county
40 department of health and retailers selling eligible smart irrigation
41 devices. The department shall conduct education and outreach, with
42 informational materials made available in English and at least the three
43 most common non-English languages spoken by individuals with limited-
44 English proficiency in Nassau and Suffolk counties, based on United
45 States census data, as necessary to inform potential applicants and
46 manufacturers and retailers of smart irrigation devices about the smart
47 irrigation equipment rebate pilot program.

48 5. The department shall determine and publish on its website on an
49 ongoing basis the amount of available funding for rebates remaining in
50 each fiscal year.

51 6. No later than one year after the program has opened for applica-
52 tions, the department shall issue a report to the temporary president of
53 the senate and the speaker of the assembly detailing the status of the
54 smart irrigation device rebate pilot program in Nassau and Suffolk coun-
55 ties. Such report shall include:

- 1 (a) the amount of funding dedicated by the department for the program
2 in the preceding year;
3 (b) the amount of eligible purchases for which a rebate was awarded;
4 (c) the amount and geographic distribution of rebates;
5 (d) recommendations to improve program effectiveness, including wheth-
6 er such eligible smart irrigation devices should become tax exempt to
7 increase uptake by commercial and residential applicants; and
8 (e) any other information the department deems necessary.

9 § 3. This act shall take effect immediately and shall expire and be
10 deemed repealed three years after it shall have become a law.

11 PART 000

15 sand twenty-six, environmental restoration projects may be funded within
16 available appropriations.

17 § 2. Subdivision 1 of section 56-0502 of the environmental conserva-
18 tion law is REPEALED.

19 § 3. Subdivisions 1-a and 5 of section 56-0502 of the environmental
20 conservation law, subdivision 1-a as added and subdivision 5 as amended
21 by section 2 of part D of chapter 577 of the laws of 2004, are amended
22 and two new subdivisions 1 and 7 are added to read as follows:

25 seventy-two of the navigation law, the chemicals identified in paragraph
26 c of subdivision three of section eleven hundred twelve of the public
27 health law whether or not listed pursuant to the authority of the
28 department of health under such section and any other emerging contam-
29 inants as defined in section eleven hundred twelve of the public health
30 law, and any other PFAS substances for which a testing method has been
31 recommended, certified, approved or is in use by the federal environ-
32 mental protection agency, the department of health or the department.

33 1-a. "Contamination" or "contaminated" shall [~~have the same meaning as~~
34 ~~provided in section 27-1405 of this chapter~~] mean the presence of a
35 contaminant in any environmental media, including soil, surface water,

39 article, except that such term shall not refer to a municipality that
40 [~~generated, transported, or disposed of, arranged for, or that caused~~
41 ~~the generation, transportation, or disposal of contamination located at~~
42 ~~real property proposed to be investigated or to be remediated under an~~

5 responsible party payments become available to the municipality, before,
6 during or after the completion of an environmental restoration project,
7 which were not included when the state share was calculated pursuant to
8 this section, [~~the state assistance share shall be recalculated, and~~
9 the value of such settlement shall be used by the municipality to fund
10 its municipal share, and the state assistance share shall not be recal-
11 culated, to the extent that the total of all such settlement amounts is
12 equal to or less than the municipal share. To the extent the total of
13 all such settlement amounts exceeds the municipal share, the munici-
14 pality shall pay such exceedance to the state, for deposit into the
15 environmental restoration project account of the hazardous waste remedi-
16 al fund established under section ninety-seven-b of the state finance
17 law[~~, the difference between the original state assistance payment and~~
18 ~~the recalculated state share. Recalculation of the state share shall be~~
19 ~~done each time a payment from a responsible party is received by the~~
20 ~~municipality~~];

33 investigation or remediation of such property, including, but not limit-
34 ed to, enforcement actions against responsible parties (other than the
35 municipality to which state assistance was provided under this title; or
36 a successor in title, lender, or lessee who was not otherwise a respon-
37 sible party prior to such municipality taking title to the property),
38 state assistance payments pursuant to title thirteen of article twenty-
39 seven of this chapter, and the existence of private parties willing to
40 remediate such property using private funding sources. Highest priority
41 shall be granted to projects for which other such funding sources are
42 not available[~~+~~]; and

43 (f) for drinking water contamination sites as defined in section
44 27-1201 of this chapter, any requirements made by the commissioner of
45 health pursuant to section 27-1205 of this chapter, for a municipally
46 owned public water system to take action to reduce exposure to an emerg-
47 ing contaminant or contaminants.

53 and as renumbered by this section, is amended to read as follows:

54 2. The remediation objective of an environmental restoration remedi-
55 ation project shall meet the same standard for protection of public

1 health and the environment that applies to remedial actions undertaken
2 pursuant to ~~[section]~~ sections 27-1313 and 27-1205 of this chapter.

3 § 8. Subdivision 3 of section 56-0509 of the environmental conserva-

7 that completes an environmental restoration remediation project in
8 compliance with the terms and conditions of a state assistance contract
9 or written agreement pursuant to subdivision three of section 56-0503 of
10 this title providing such assistance and any successor in title, lessee,
11 or lender ~~[identified in paragraph (a) of subdivision one of this~~
12 ~~section]~~ in the amount of any judgment or settlement, obtained against
13 such municipality, successor in title, lessee, or lender in any court
14 for any common law cause of action arising out of: (i) the presence of
15 any contamination in or on property at anytime before the effective date
16 of a contract entered into pursuant to this title; or (ii) municipal
17 actions related to the implementation of the environmental restoration
18 remediation project.

19 (b) Such municipality, successor in title, lessee, or lender shall be
20 entitled to representation by the attorney general, unless the attorney
21 general determines, or a court of competent jurisdiction determines,
22 that such representation would constitute a conflict of interest, in
23 which case the attorney general shall certify to the comptroller that
24 such party is entitled to private counsel of its choice, and reasonable
25 attorneys' fees and expenses shall be reimbursed by the state. Any
26 settlement of such an action shall be subject to the approval of the
27 attorney general as to form and amount, and this subdivision shall not
28 apply to any settlement of any such action which has not received such
29 approval.

31 413 of the laws of 1996, a memorandum of understanding shall not be
32 required to make available twenty million dollars (\$20,000,000) from the
33 Clean Water/Clean Air Bond Act of 1996 for state assistance payments to
34 municipalities for environmental remediation in accordance with title 5
35 of article 56 of the environmental conservation law.

36 § 10. This act shall take effect immediately.

39 section 1885 to read as follows:

40 § 1885. Previously owned zero-emission vehicles rebate program. 1.
41 There is hereby created within the authority a zero-emission vehicles
42 rebate program. The purpose of the program is to reduce greenhouse gas
43 emissions, improve air quality, and reduce noise pollution by promoting
44 the adoption of quieter, zero-emission vehicles.

45 2. As used in this section:

46 (a) "Institutional or commercial applicant" shall mean a commercial
47 business, or a state agency, state authority, local authority, town,

5 cle that has been used or previously owned, and is purchased or leased
6 from a storefront or online retailer.

7 (e) "Local authority" shall have the same meaning as in subdivision
8 two of section two of this chapter.

16 mined by the authority.

17 4. The authority shall determine the rebate eligibility of each appli-
18 cant in accordance with the requirements of this section and rules
19 promulgated by the authority. The total amount of rebates allocated to
20 certified applicants in each fiscal year shall not exceed the amount of
21 funds available for the program in such fiscal year. Rebates shall be
22 allocated to applicants on a first-come, first-served basis, determined
23 by the date the application is received, until all appropriated funds
24 for the fiscal year are expended or the program ends, whichever comes
25 first.

26 5. The authority shall promulgate rules and regulations to implement
27 and administer the provisions of this section no later than one year
28 after the effective date of this section, including rules and regu-
29 lations relating to the forms required to claim a rebate under this
30 section, the required documentation and basis for establishing eligibil-
31 ity for a rebate, procedures and guidelines for claiming a rebate, the
32 collection of economic impact data from applicants, and any other
33 requirements the authority deems necessary. The authority shall conduct
34 education and outreach, with informational materials made available in
35 at least English and the three most common non-English languages spoken
36 by individuals with limited-English proficiency in the state of New
37 York, based on United States census data, as necessary to inform poten-
38 tial applicants and manufacturers and retailers of eligible zero-emis-
39 sion vehicles about the zero-emission vehicles rebate program.

40 6. The authority shall determine and publish on its website on an
41 ongoing basis the amount of available funding for rebates remaining in
42 each fiscal year.

43 7. No later than two years after the effective date of this section,
44 and annually thereafter on the first of January, the authority shall
45 issue a report to the temporary president of the senate, the speaker of
46 the assembly, the chair of the senate committee on energy and telecommu-
47 nications and the chair of the assembly committee on energy detailing
48 the status of the zero-emission vehicles rebate program. Such report
49 shall include:

50 (a) the amount of funding dedicated by the authority for the program
51 in the preceding year;

52 (b) the amount of eligible purchases for which a rebate was awarded;

53 (c) the amount and geographic distribution of rebates; and

54 (d) any other information the authority deems necessary.

55 § 2. This act shall take effect immediately and shall expire and be
56 deemed repealed January 1, 2031.

PART QQQ

2 Section 1. The public authorities law is amended by adding a new
3 section 1885 to read as follows:

4 § 1885. Floating solar incentive and education program. 1. As used in
5 this section the term "floating solar" shall mean solar photovoltaic
6 systems mounted on floating structures or platforms on the surface of a
7 body of water, including but not limited to canals, lakes, reservoirs,
8 and ponds.

9 2. The authority shall establish and maintain a floating solar incen-
10 tive and education program pursuant to standards and criteria promulgat-
11 ed by the authority which shall provide information and resources
12 including technical assistance, access to industry standards, and
13 financing available through the authority or other public or private
14 sector sources, to municipalities, developers, builders, design profes-
15 sionals, and potential owners for the construction of floating solar.

16 3. The program shall include, but shall not be limited to:

17 (a) Grants for the development of floating solar on sites that are
18 constructed on canals, reservoirs, commercial and industrial ponds, and
19 any other artificially created body of water suitable for siting a
20 floating solar project;

21 (b) Identification of best practices and strategies for siting float-
22 ing solar projects that protect the ecosystems of bodies of water;

23 (c) Monitoring any impacts floating solar may have on water quality,
24 water conservation, and algae control; and

25 (d) Establishing and distributing educational materials and resources
26 about siting, construction, maintenance, and available incentives on
27 floating solar.

28 4. The authority, in consultation with the public service commission
29 and the department of environmental conservation, shall promulgate all
30 rules and regulations necessary for the implementation of the program.

31 § 2. This act shall take effect on the one hundred eightieth day after
32 it shall have become a law. Effective immediately, the addition, amend-
33 ment and/or repeal of any rule or regulation necessary for the implemen-
34 tation of this act on its effective date are authorized to be made and
35 completed on or before such effective date.

36

PART RRR

37 Section 1. The public service law is amended by adding a new section
38 66-x to read as follows:

39 § 66-x. Advancing grid enhancement technologies. 1. For the purposes
40 of this section, the following terms shall have the following meanings:

41 (a) "Grid enhancing technology" means any hardware or software tech-
42 nology that enables enhanced or more efficient performance from the
43 electric transmission system, including, but not limited to, dynamic
44 line rating, advanced power flow control technology, topology optimiza-
45 tion and advanced reconductoring.

46 (b) "Advanced reductors" means hardware technology that can conduct
47 electricity across transmission lines and demonstrate enhanced perform-
48 ance over traditional conductor products.

49 (c) "Dynamic line rating" means hardware and/or software technologies
50 used to appropriately update the calculated thermal limits of existing
51 transmission lines based on real-time and forecasted weather conditions.

52 (d) "Advanced power flow control" means hardware and/or software tech-
53 nologies used to push or pull electric power in a manner that balances

1 overloaded lines and underutilized corridors within the transmission
2 network.

3 (e) "Topology optimization" means hardware and/or software technolo-
4 gies that identify reconfigurations of the transmission grid and can
5 enable the routing of power flows around congested or overloaded trans-
6 mission elements.

7 (f) "Electric corporation" and "combination electric and gas corpo-
8 ration" shall have the same meaning as in section two of this chapter.

9 (g) "Transmission" shall have the same meaning as "major electric
10 transmission facility" as defined in section one hundred thirty-seven of
11 this chapter.

12 2. For proceedings before the commission in which an electric corpo-
13 ration or combination electric and gas corporation proposes capital
14 improvements or additions to the transmission system, the department may
15 authorize such electric corporations or combination electric and gas
16 corporations to conduct a cost-effectiveness analysis of multiple strat-
17 egies, including, but not limited to, the deployment of grid enhancing
18 technologies, and advanced reconductoring. Where grid enhancing tech-
19 nologies or advanced reconductoring, whether in combination with or
20 instead of other capital investments, offer a more cost-effective strat-
21 egy to achieve transmission goals, including, but not limited to,
22 distributed energy resource interconnection, the commission may approve
23 the deployment of grid enhancing technologies or advanced reconductoring
24 as part of the overall solutions strategy.

25 3. As part of a proceeding before the commission in which it proposes
26 capital improvements or additions to the transmission system, an elec-
27 tric corporation or combination electric and gas corporation may propose
28 a performance incentive mechanism that provides a financial incentive
29 for the cost-effective deployment of grid enhancing technologies or
30 advanced reconductoring.

31 4. The department shall promulgate any rules and/or regulations it
32 deems necessary to implement the provisions of this section.

33 5. Beginning five years after the effective date of this section, and
34 every five years thereafter, each electric corporation or combination
35 electric and gas corporation shall report to the federally designated
36 bulk system operator, and the commission on or before September first on
37 the deployment of any grid enhancing technologies or advanced reconduc-
38 toring in a format determined by the department.

39 § 2. Section 1005 of the public authorities law is amended by adding a
40 new subdivision 31 to read as follows:

41 31. For any transmission facility the authority constructs or upgrades
42 in connection with this section the authority may conduct a cost-effec-
43 tiveness analysis of multiple strategies, including, but not limited to,
44 the deployment of grid enhancing technologies and advanced reconduc-
45 ting. Where grid enhancing technologies or advanced reconductoring,
46 whether in combination with or instead of other capital investments,
47 offer a more cost-effective strategy to achieve transmission goals,
48 including, but not limited to, distributed energy resource intercon-
49 nection, the authority, as deemed feasible and advisable by the trustees
50 and with any necessary approval from the public service commission, is
51 authorized to deploy grid enhancing technologies or advanced reconduc-
52 toring, as part of the overall solutions strategy.

53 § 3. This act shall take effect on the ninetieth day after it shall
54 have become a law.

1 Section 1. Paragraphs (a) and (b) of subdivision 2-a of section 314 of
2 the executive law, as amended by chapter 96 of the laws of 2019, subpar-
3 agraph (i) of paragraph (a) as amended by chapter 669 of the laws of
4 2022, are amended to read as follows:

5 (a) The director shall establish a procedure [~~enabling~~] requiring the
6 office to accept New York municipal corporation certification verifica-
7 tion for minority and women-owned business enterprise applicants in lieu
8 of requiring the applicant to complete the state certification process
9 separately. [~~The~~] Any municipal corporation that chooses to use such
10 procedure shall first enter into a memorandum of understanding regarding
11 acceptance of such municipal corporation certification verification with
12 the office, and the director shall promulgate rules and regulations to
13 set forth criteria for the acceptance of municipal corporation certif-
14 ication. [~~All eligible municipal corporation certifications~~] An appli-
15 cant certified in lieu of completing the state certification process
16 separately pursuant to this section shall [~~require~~] meet the definition
17 of a minority-owned business [~~enterprises seeking certification to meet~~
18 ~~the following standards:~~

19 ~~(i) have at least fifty-one percent ownership by a minority]~~ enter-
20 prise or a women-owned business enterprise [~~and be owned by United~~
21 ~~States citizens or permanent resident noncitizens,~~

22 ~~(ii) be an enterprise in which the minority and/or women ownership~~
23 ~~interest is real, substantial and continuing,~~

24 ~~(iii) be an enterprise in which the minority and/or women ownership~~
25 ~~has and exercises the authority to control independently the day-to-day~~
26 ~~business decisions of the enterprise,~~

27 ~~(iv) be an enterprise authorized to do business in this state,~~

28 ~~(v) be subject to a physical site inspection to verify the fifty one~~
29 ~~percent ownership requirement,~~

30 ~~(vi) be owned by an individual or individuals, whose ownership,~~
31 ~~control and operation are relied upon for certification, with a personal~~
32 ~~net worth that does not exceed fifteen million dollars and such other~~
33 ~~amount as the director shall set forth in regulations, as adjusted annu-~~
34 ~~ally for inflation according to the consumer price index; and~~

35 ~~(vii) be an enterprise that is a small business pursuant to subdivi-~~
36 ~~sion twenty of]~~ as set forth in section three hundred ten of this arti-
37 cle in order to receive state certification.

38 (b) The director shall work with all municipal corporations that have
39 a municipal minority and women-owned business enterprise program to
40 develop standards to accept state certification to meet the municipal
41 corporation minority and women-owned business enterprise certification
42 standards whenever a municipal corporation requests assistance. Upon
43 entering into a memorandum of understanding pursuant to paragraph (a) of
44 this subdivision, each municipal corporation that has a municipal minor-
45 ity and women-owned business enterprise program shall establish a proce-
46 cedure requiring such municipality to accept state certification verifica-
47 tion for minority and women-owned business enterprise applicants in lieu
48 of requiring applicants to apply to each entity separately. The municipi-
49 pal corporation shall develop rules and regulations in order to accept
50 state certification in situations where an applicant who is certified as
51 a minority or women-owned business enterprise pursuant to the law or
52 rule for such municipal corporation's certification program also meets
53 the definition of a minority-owned business enterprise or women-owned
54 business enterprise as set forth in section three hundred ten of this
55 article.

1 § 2. This act shall take effect on the two hundred seventieth day
2 after it shall have become a law; provided, however, that the amendments
3 to paragraphs (a) and (b) of subdivision 2-a of section 314 of the execu-
4 tive law made by section one of this act shall not affect the repeal of
5 such section and shall be deemed repealed therewith.

6 PART TTT

7 Section 1. Legislative intent. The legislature finds and declares
8 that:

9 1. The increasing burden of high utility rates leaves New York resi-
10 dents with extreme financial difficulties. Soaring electricity rates
11 leave one in five New York residents at risk of having their electricity
12 cut off. Meanwhile, the long-term trend of utilities receiving record
13 profits threatens the livelihood of millions of New Yorkers who struggle
14 to afford utility bills.

15 2. The current process in which the public service commission (herein-
16 after the "commission") and regulated utilities set rates for utility
17 bills to ratepayers has historically been inaccessible and indeciphera-
18 ble to the public and often runs contrary to the stated goals of the
19 commission to ensure affordable, safe, secure, and reliable utility
20 service for New York residential and business consumers.

21 3. Regulated utilities are entitled to earn a fair and reasonable rate
22 of return on their capital investments, pursuant to Supreme Court
23 rulings in Federal Power Commission et al. v. Hope Natural Gas Co.
24 (1944) and Bluefield Water Works and Improvement Co. v. Public Service
25 Commission of West Virginia (1923). However, recent trends suggest that
26 the "fair and reasonable" legal standard is not always reflected in
27 actual utility rates for consumers. Aligning the incentives of regu-
28 lated utilities and ratepayers is essential to protect the interests of
29 all New York residents by establishing a more accurate standard for a
30 regulated utility's right to earn a fair and reasonable rate of return.

31 § 2. The public service law is amended by adding a new section 65-c to
32 read as follows:

33 § 65-c. Setting a rate of return on equity and common equity ratio. 1.
34 Definitions. For the purposes of this section, the following terms shall
35 have the following meanings:

36 (a) "Regulated utility" means an "electric corporation", "gas corpo-
37 ration", "steam corporation", or "water-works corporation" as defined in
38 section two of this chapter.

39 (b) "Generic financing methodology" means a standardized procedure for
40 determining the authorized rates of return on equity and common equity
41 ratios of utilities regulated by the commission.

42 (c) "Authorized common equity ratio" means the authorized percentage
43 of a utility's total capitalization, such as common equity, preferred
44 stock, and long-term debt, that consists of common equity, retained
45 earnings, and capital surplus.

46 (d) "Actual common equity ratio" means the actual percentage of a
47 utility's total capitalization, such as common equity, preferred stock,
48 and long-term debt, that consists of common equity, retained earnings,
49 and capital surplus.

50 (e) "Authorized rate of return on equity" also known as return on
51 equity ("ROE") or the cost of equity capital, means the return on the
52 equity portion of the rate base that regulated utilities are authorized
53 to collect in rates.

1 (f) "Actual rate of return on equity" means a measure of financial
2 performance calculated by dividing net income by shareholders' equity.

3 (g) "Rate period" means the time period in which a regulated utility
4 collects rates that are authorized and approved by the commission.

5 (h) "Publicly available data" means published data that is openly
6 accessible via the internet, or indirectly accessible through a public
7 library or similar institution.

8 2. Setting the generic financing methodology; common equity ratio;
9 rate of return on equity. (a) On an annual basis, the commission shall
10 promulgate rules and regulations that:

11 (i) update the generic financing methodology such that, to the great-
12 est extent possible, all of its calculations are based upon publicly
13 available data;

14 (ii) set a fair and reasonable authorized common equity ratio for each
15 regulated utility and a single authorized rate of return on equity for
16 all regulated utilities, based on the generic financing methodology; and

17 (iii) reconcile the prior rate period's authorized rate of return on
18 equity to a calculation of the average monthly rate of return on equity
19 produced by the generic financing methodology for that rate period, such
20 as a "true-up mechanism". In making this determination, the commission
21 shall require that: (A) any revenues derived from an authorized rate of
22 return on equity exceeding the average monthly rate of return on equity
23 be returned to ratepayers in the form of a surcredit to their bills for
24 the following rate period; and (B) any revenues that would have been
25 derived from an average monthly rate of return on equity exceeding the
26 authorized rate of return on equity shall be recovered from ratepayers
27 in the form of a surcharge to their bills for the following rate period.

28 (b) The promulgated generic financing methodology, authorized common
29 equity ratio, authorized rate of return on equity, and the prior year's
30 average monthly rate of return on equity shall clearly state the methods
31 used to justify and explain its proposed guidance.

32 (c) The promulgated generic financing methodology, authorized common
33 equity ratio, authorized rate of return on equity, and prior rate peri-
34 od's average monthly rate of return on equity shall be subject to tradi-
35 tional notice and comment procedures, as outlined in the state adminis-
36 trative procedure act, which shall include input from public interest
37 organizations, utility accounting experts, representatives from regu-
38 lated utilities, and other organizations and interested parties, includ-
39 ing residents of this state, as necessary.

40 (d) The final generic financing methodology, authorized common equity
41 ratio, authorized rate of return on equity, and prior rate period's
42 average monthly rate of return on equity adopted by the commission,
43 following the notice and comment period, shall give preference to the
44 best interest of the ratepayers.

45 3. Adopting the authorized common equity ratio, authorized rate of
46 return on equity and/or prior rate period's average monthly rate of
47 return on equity. Except as provided in subdivision four of this
48 section, every regulated utility shall:

49 (a) adopt the authorized common equity ratio based on the generic
50 financing methodology for the following rate period as set specifically
51 for each regulated utility by the commission;

52 (b) adopt the authorized rate of return on equity based on the generic
53 financing methodology for the following rate period; and

54 (c) adopt the surcredit/surcharge based on the prior rate period's
55 average monthly rate of return on equity, as outlined in subdivision two
56 of this section, for the following rate period.

1 4. Rebutting the authorized common equity ratio, rate of return on
2 equity, and prior rate period's average monthly rate of return on equi-
3 ty. (a) The burden of rebutting the authorized common equity ratio,
4 authorized rate of return on equity, and/or prior rate period's average
5 monthly rate of return on equity shall rest exclusively with the regu-
6 lated utility during a public hearing facilitated by the commission. In
7 order to rebut the authorized common equity ratio and/or authorized rate
8 of return on equity, the regulated utility shall first initiate a
9 request for public hearing through procedures outlined by the commis-
10 sion. Should the commission find a substantial basis for the claims
11 outlined by the regulated utility in its request, it shall publish a set
12 of dates from which a public hearing shall take place.

13 (b) During the public hearing the regulated utility shall:

14 (i) present documentary evidence, including but not limited to exhib-
15 its, written and oral testimony, and data, describing why the authorized
16 common equity ratio, authorized rate of return on equity, or prior rate
17 period's average monthly rate of return on equity is insufficient to
18 meet its current or future operating and capital needs;

19 (ii) present documentary evidence, including but not limited to exhib-
20 its, written and oral testimony, and data, describing why the authorized
21 common equity ratio, authorized rate of return on equity, or prior rate
22 period's average monthly rate of return on equity does not provide a
23 fair and reasonable return;

24 (iii) describe with sufficient detail why the authorized common equity
25 ratio, authorized rate of return on equity or prior rate period's aver-
26 age monthly rate of return on equity adopted by the commission is insuf-
27 ficient for the regulated utility to attract capital at reasonable
28 terms; and

29 (iv) describe with sufficient detail why the authorized common equity
30 ratio, authorized rate of return on equity, or prior rate period's aver-
31 age monthly rate of return on equity is insufficient for the regulated
32 utility to maintain its financial integrity during the rate year.

33 (c) If the commission determines, by a preponderance of the evidence,
34 after the conclusion of the public hearing, that the regulated utility
35 has sufficiently demonstrated that the authorized common equity ratio,
36 authorized rate of return on equity, or prior rate period's average
37 monthly rate of return on equity is insufficient to meet the regulated
38 utilities' operating needs, capital needs, or both, then the commission
39 and the regulated utility shall then enter into settlement negotiations
40 through adjudication pursuant to the procedures set out under this arti-
41 cle.

42 5. Settlement negotiations following successful rebuttal. All settle-
43 ment negotiations shall take into consideration the following factors
44 prior to reaching a final authorized common equity ratio, authorized
45 rate of return on equity, or prior rate period's average monthly rate of
46 return on equity:

47 (a) testimonies and exhibits from expert witnesses, including those
48 from outside public interest organizations;

49 (b) how the negotiated settlement reduces delivery rates for consum-
50 ers;

51 (c) how the negotiated settlement improves equity for, minimizes
52 impacts on, and prioritizes benefits to utility rates for disadvantaged
53 communities as defined in section 75-0101 of the environmental conserva-
54 tion law;

1 (d) whether the testimony and exhibits of the regulated utility
 2 reflect positions that are in the best interest of the public and
 3 promote principles of equity for disadvantaged communities;

4 (e) whether the proposals of the regulated utility would result in the
 5 lowest possible delivery cost to the benefit of the rate payer; and

6 (f) whether the new settlement agreement provides a just and reason-
 7 able return for the regulated utility.

8 6. Reports and legislative hearing on findings between the commission
 9 and regulated utilities. (a) Annually, the commission shall submit to
 10 the governor and the legislature, a report outlining the findings and
 11 determinations of the final authorized common equity ratio, authorized
 12 rate of return on equity and/or prior rate period's average monthly rate
 13 of return on equity, whether set through the procedures outlined in
 14 subdivisions three and four of this section or through negotiated
 15 settlements outlined in subdivision five of this section, between a
 16 regulated utility and the commission during the previous year.

17 (b) Such report shall analyze and describe in clear, accessible
 18 language how the final authorized common equity ratio, authorized rate
 19 of return on equity, and/or prior rate period's average monthly rate of
 20 return on equity has changed, reflects new circumstances, or remained
 21 the same during the previous year.

22 (c) Such report shall include all monthly data used for generic
 23 financing methodology calculations that is not publicly available data,
 24 together with an explanation of why it was necessary to use such non-
 25 public data instead of a publicly available data source.

26 (d) The annual report shall be published online on the commission's
 27 website and be made publicly available.

28 § 3. This act shall take effect one year after it shall have become a
 29 law.

32 PART VVV

33 Section 1. Section 2878-a of the public authorities law is amended by
34 adding a new subdivision 3 to read as follows:

35 3. (a) A transportation authority established under this chapter may,
36 by resolution approved by a two-thirds vote of its members then in
37 office, or by a declaration that competitive bidding is impractical or
38 inappropriate with respect to electric-powered omnibuses, rolling stock,
39 vehicles or other related equipment because the item is available
40 through an existing contract between a vendor and (i) another public
41 authority provided that such other authority utilized a process of
42 competitive bidding or a process of competitive requests for proposals
43 to award such contracts, or (ii) the state of New York, or (iii) a poli-
44 tical subdivision of the state of New York, provided that in any case
45 when under this subdivision the authority determines that obtaining such
46 item thereby would be in the public interest and sets forth the reasons
47 for such determination. The authority shall accept sole responsibility
48 for any payment due the vendor as a result of the authority's order. In
49 each case where the authority declares competitive bidding impractical
50 or inappropriate, it shall state the reason therefor in writing and
51 summarize any negotiations that have been conducted. The authority shall
52 not award any contract pursuant to this subdivision earlier than thirty
53 days from the date on which the authority declares that competitive
54 bidding is impractical or inappropriate. All procurements approved

1 pursuant to this subdivision shall be subject to audit and inspection by
2 the department of audit and control or any successor agencies. For
3 purposes of this subdivision, "transportation authority" shall not
4 include transportation authorities governed under titles nine, nine-A
5 and eleven of article five of this chapter or title three of article
6 three of this chapter. For the purposes of this subdivision, "electric-
7 powered omnibuses" shall include any bus owned, leased, rented or other-

9 bus provided in section five hundred nine-a of the vehicle and traffic
10 law that is propelled by an electric motor and associated power elec-
11 tronics which provide acceleration torque to the drive wheels during
12 normal vehicle operation and draws electricity from a hydrogen fuel cell
13 or from a battery which is capable of being recharged from an external
14 source of electricity; or otherwise operates without direct emission of
15 atmospheric pollutants.

16 (b) (i) Notwithstanding any provision of law to the contrary, all
17 rights or benefits, including terms and conditions of employment, and
18 protection of civil service and collective bargaining status of all
19 existing employees of authorized entities shall be preserved and
20 protected. Nothing in this section shall result in the: (1) displacement
21 of any currently employed worker or loss of position, including partial
22 displacement such as a reduction in the hours of non-overtime work,
23 wages, or employment benefits, or result in the impairment of existing
24 collective bargaining agreements; (2) transfer of existing duties and
25 functions related to maintenance and operations currently performed by
26 existing employees of authorized entities to a contracting entity; or
27 (3) transfer of future duties and functions ordinarily performed by
28 employees of authorized entities to a contracting entity.

29 (ii) At least one year prior to the beginning of the procurement proc-
30 ess for new electric-powered omnibuses, rolling stock, vehicles or
31 related equipment, the authority shall create and implement a workforce
32 development report that (1) forecasts the number of jobs provided by
33 existing omnibuses, rolling stock, vehicles or equipment that would be
34 eliminated or substantially changed after the purchase, as well as the
35 number of jobs expected to be created at the authority by the proposed
36 purchase over a six-year period from the date of the publication of the
37 workforce development report, (2) identifies gaps in skills needed to
38 operate and maintain the new electric-powered omnibuses, rolling stock,
39 vehicles or related equipment, (3) includes a comprehensive plan to
40 transition, train, or retrain employees that are impacted by the
41 proposed purchase, and (4) contains an estimated budget to transition,
42 train, or retrain employees that are impacted by the proposed purchase.

43 (c) Nothing contained herein shall be construed to affect (i) the
44 existing rights of employees pursuant to an existing collective bargain-
45 ing agreement, or (ii) the existing representational relationships among
46 employee organizations or the bargaining relationships between the
47 employer and an employee organization. Prior to beginning the procure-
48 ment process for new electric-powered omnibuses, rolling stock, vehicles
49 or related equipment, the transit agency or municipality shall inform
50 the respective collective bargaining agent of any potential jobs that
51 may be affected, altered, or eliminated as a result of the purchase, and
52 it shall be a mandatory subject for collective bargaining.

53 § 2. Section 104 of the general municipal law is amended by adding a
54 new subdivision 3 to read as follows:

56 this article or of any other general, special or local law, any chief

1 executive officer of a political subdivision or agency which operates a
2 public transportation system is authorized to make purchases of elec-

4 approved by a two-thirds vote of its board then in office because the
5 item is available through an existing contract between a vendor and (i)
6 a public authority of the state provided that such other authority

21 under titles nine, nine-A and eleven of article five of the public
22 authorities law or title three of article three of the public authori-
23 ties law. For the purposes of this subdivision, "electric-powered omni-
24 buses" shall include any bus owned, leased, rented or otherwise

29 normal vehicle operation and draws electricity from a hydrogen fuel cell
30 or from a battery which is capable of being recharged from an external
31 source of electricity; or otherwise operates without direct emission of
32 atmospheric pollutants.

33 (b) (i) Notwithstanding any provision of law to the contrary, all
34 rights or benefits, including terms and conditions of employment, and
35 protection of civil service and collective bargaining status of all
36 existing employees of authorized entities shall be preserved and
37 protected. Nothing in this section shall result in the: (1) displacement
38 of any currently employed worker or loss of position, including
39 partial displacement such as a reduction in the hours of non-overtime
40 work, wages, or employment benefits, or result in the impairment of
41 existing collective bargaining agreements; (2) transfer of existing
42 duties and functions related to maintenance and operations currently
43 performed by existing employees of authorized entities to a contracting
44 entity; or (3) transfer of future duties and functions ordinarily
45 performed by employees of authorized entities to a contracting entity.

46 (ii) At least one year prior to the beginning of the procurement proc-
47 ess for new electric-powered omnibuses, rolling stock, vehicles or
48 related equipment, the transit agency or municipality shall create and
49 implement a workforce development report that (1) forecasts the number
50 of jobs provided by existing omnibuses, rolling stock, vehicles or
51 equipment that would be eliminated or substantially changed after the
52 purchase, as well as the number of jobs expected to be created at the
53 transit provider by the proposed purchase over a six-year period from
54 the date of the publication of the workforce development report, (2)
55 identifies gaps in skills needed to operate and maintain the new elec-
56 tric-powered omnibuses, rolling stock, vehicles or related equipment,

1 (3) includes a comprehensive plan to transition, train, or retrain
2 employees that are impacted by the proposed purchase, and (4) contains
3 an estimated budget to transition, train, or retrain employees that are
4 impacted by the proposed purchase.

5 (c) Nothing contained herein shall be construed to affect (i) the
6 existing rights of employees pursuant to an existing collective bargain-
7 ing agreement, or (ii) the existing representational relationships among
8 employee organizations or the bargaining relationships between the
9 employer and an employee organization. Prior to beginning the procure-
10 ment process for new electric-powered omnibuses, rolling stock, vehicles
11 or related equipment, the transit agency or municipality shall inform
12 the respective collective bargaining agent of any potential jobs that
13 may be affected, altered, or eliminated as a result of the purchase, and
14 it shall be a mandatory subject for collective bargaining.

15 § 3. Section 104 of the general municipal law, as amended by section
16 27 of part L of chapter 55 of the laws of 2012, is amended to read as
17 follows:

18 § 104. Purchase through office of general services. 1. Notwithstanding
19 the provisions of section one hundred three of this article or of any
20 other general, special or local law, any officer, board or agency of a
21 political subdivision, of a district therein, of a fire company or of a
22 voluntary ambulance service is authorized to make purchases of commod-

29 provided that any such purchase shall exceed five hundred dollars and
30 that the political subdivision, district, fire company or voluntary
31 ambulance service for which such officer, board or agency acts shall
32 accept sole responsibility for any payment due the vendor. All purchases
33 shall be subject to audit and inspection by the political subdivision,
34 district, fire company or voluntary ambulance service for which made. No
35 officer, board or agency of a political subdivision, or a district ther-
36 ein, of a fire company or of a voluntary ambulance service shall make
37 any purchase through such office when bids have been received for such
38 purchase by such officer, board or agency, unless such purchase may be
39 made upon the same terms, conditions and specifications at a lower price
40 through such office. Two or more fire companies or voluntary ambulance
41 services may join in making purchases pursuant to this section, and for
42 the purposes of this section such groups shall be deemed "fire companies
43 or voluntary ambulance services."

44 2. (a) Notwithstanding the provisions of section one hundred three of
45 this article or of any other general, special or local law, any chief

13 include any bus owned, leased, rented or otherwise controlled by the
14 political subdivision that otherwise meets the definition of bus
15 provided in section five hundred nine-a of the vehicle and traffic law
16 that is propelled by an electric motor and associated power electronics
17 which provide acceleration torque to the drive wheels during normal
18 vehicle operation and draws electricity from a hydrogen fuel cell or
19 from a battery which is capable of being recharged from an external
20 source of electricity; or otherwise operates without direct emission of
21 atmospheric pollutants.

22 (b) (i) Notwithstanding any provision of law to the contrary, all
23 rights or benefits, including terms and conditions of employment, and
24 protection of civil service and collective bargaining status of all
25 existing employees of authorized entities shall be preserved and
26 protected. Nothing in this section shall result in the: (1) displacement

28 partial displacement such as a reduction in the hours of non-overtime
29 work, wages, or employment benefits, or result in the impairment of
30 existing collective bargaining agreements; (2) transfer of existing
31 duties and functions related to maintenance and operations currently
32 performed by existing employees of authorized entities to a contracting
33 entity; or (3) transfer of future duties and functions ordinarily
34 performed by employees of authorized entities to a contracting entity.

35 (ii) At least one year prior to the beginning of the procurement proc-
36 ess for new electric-powered omnibuses, rolling stock, vehicles or
37 related equipment, the transit agency or municipality shall create and
38 implement a workforce development report that (1) forecasts the number
39 of jobs provided by existing omnibuses, rolling stock, vehicles or
40 equipment that would be eliminated or substantially changed after the

46 (3) includes a comprehensive plan to transition, train, or retrain
47 employees that are impacted by the proposed purchase, and (4) contains
48 an estimated budget to transition, train, or retrain employees that are
49 impacted by the proposed purchase.

50 (c) Nothing contained herein shall be construed to affect (i) the
51 existing rights of employees pursuant to an existing collective bargain-
52 ing agreement, or (ii) the existing representational relationships among
53 employee organizations or the bargaining relationships between the
54 employer and an employee organization. Prior to beginning the procure-
55 ment process for new electric-powered omnibuses, rolling stock, vehicles
56 or related equipment, the transit agency or municipality shall inform

1 the respective collective bargaining agent of any potential jobs that
2 may be affected, altered, or eliminated as a result of the purchase, and
3 it shall be a mandatory subject for collective bargaining.

4 § 4. Severability. The provisions of this act shall be severable, and
5 if the application of any clause, sentence, paragraph, subdivision,
6 section or part of this act to any person or circumstance shall be
7 adjudged by any court of competent jurisdiction to be invalid, such
8 judgment shall not necessarily affect, impair or invalidate the applica-
9 tion of any such clause, sentence, paragraph, subdivision, section or
10 part of this act or remainder thereof, as the case may be, to any other
11 person or circumstance, but shall be confined in its operation to the
12 clause, sentence, paragraph, subdivision, section or part thereof
13 directly involved in the controversy in which such judgment shall have
14 been rendered.

15 § 5. This act shall take effect immediately; provided, however, that
16 the amendments to section 104 of the general municipal law made by
17 section two of this act shall be subject to the expiration and reversion
18 of such section pursuant to section 9 of subpart A of part C of chapter
19 97 of the laws of 2011, as amended, when upon such date the provisions
20 of section three of this act shall take effect.

3 to read as follows:

4 § 7013. Captive insurance program for commuter vans, pre-arranged
5 for-hire vehicles, and accessible vehicles. (a) The superintendent
6 shall utilize and implement a captive insurance program for commuter
7 vans, pre-arranged for-hire vehicles, and accessible vehicles that are

9 The program shall include, but shall not be limited to:

10 (1) identifying and licensing a captive insurance company or companies
11 to provide necessary insurance coverage to commuter vans, pre-arranged

17 PART AAAAA

18 Section 1. Short title. This act shall be known and may be cited as
19 the "Farebox Assistance to Relieve Essential Straphangers Act" or the
20 "FARES Act".

21 § 2. This act enacts into law major components of legislation neces-
22 sary to implement the FARES Act. Each component is wholly contained
23 within a Subpart identified as Subparts A through C. The effective date
24 for each particular provision contained within such Subpart is set forth
25 in the last section of such Subpart. Any provision in any section
26 contained within a Subpart, including the effective date of the Subpart,
27 which makes a reference to a section "of this act", when used in
28 connection with that particular component, shall be deemed to mean and
29 refer to the corresponding section of the Subpart in which it is found.
30 Section four of this act sets forth the general effective date of this
31 act.

32 SUBPART A

33 Section 1. Legislative findings. The New York state legislature finds
34 that the City of New York's "Fair Fares" program, which provides reduced
35 fares on New York City Transit Authority subways and buses for individ-
36 uals earning under one hundred twenty percent of the poverty level, is a
37 tool that can help ensure that mass transit remains affordable for all
38 New Yorkers. However, Fair Fares does not currently apply to intracity
39 commuter rail trips taken in the City, and the legislature finds that
40 expanding this discount to include commuter rail could provide signif-
41 icant affordability benefits for New Yorkers below or near the poverty
42 level and improve the quality of life for many outer borough New Yorkers
43 lacking easy access to subways.

44 § 2. Section 1266 of the public authorities law is amended by adding a
45 new subdivision 16-a to read as follows:

46 16-a. (a) Notwithstanding any other provisions of law or the terms of
47 any contract, the authority, in consultation with the city of New York,
48 shall expand the Fair Fares NYC program to permit individuals who are
49 eligible for the program and any individual whose income is two hundred
50 percent of the federal poverty level to receive a fifty percent discount
51 on trips using the Long Island Rail Road or Metro-North Railroad within
52 the city of New York.

1 (b) For purposes of this subdivision, "Fair Fares NYC program" shall
2 have the same meaning and eligibility standards as set forth in chapter
3 twelve of title sixty-eight of the rules of the city of New York, which
4 provides a fifty percent fare discount for designated transit options.

5 (c) Additionally, the authority shall consult with the city of New
6 York in conducting a public outreach campaign to increase public aware-
7 ness and expand usage of the Fair Fares NYC program by eligible individ-
8 uals.

9 § 3. This act shall take effect on the ninetieth day after it shall
10 have become a law.

11 SUBPART B

12 Section 1. Legislative findings. The New York state legislature finds
13 that the Metropolitan Transportation Authority's "City Ticket" which
14 provides reduced fares on commuter rail trips within New York City, has
15 been incredibly successful in promoting New Yorkers' use of the commuter
16 rail system, and has particularly helped the MTA fill seats during off-
17 peak trips. City Ticket is an important tool for ensuring that mass
18 transit remains affordable for New Yorkers, as well as improving the
19 quality of life for many outer borough New Yorkers lacking easy access
20 to subways. Additional analysis since City Ticket's implementation and
21 expansion has found that providing a weekly ticket option, similar to a
22 previous Atlantic Ticket option, could assist riders with financial
23 planning, ensure greater access to transit, and increase commuter rail
24 ridership.

25 § 2. Section 1266 of the public authorities law is amended by adding a
26 new subdivision 16-b to read as follows:

27 16-b. Notwithstanding any other provisions of law or the terms of any
28 contract, the authority, in consultation with the Long Island Rail Road
29 and Metro-North Railroad and in conjunction with the New York city tran-
30 sit authority, shall offer a weekly and a monthly optional, discounted
31 ticket for Long Island Rail Road and Metro-North Railroad service that
32 is also valid for optional, discounted transfers between the commuter
33 rail services and the city transit authority's subways and buses for
34 trips within the city of New York.

35 § 3. This act shall take effect on the ninetieth day after it shall
36 have become a law.

37 SUBPART C

38 Section 1. Section 1266 of the public authorities law is amended by
39 adding a new subdivision 16-c to read as follows:

40 16-c. Notwithstanding any other provisions of law or the terms of any
41 contract, the authority, in consultation with the Long Island Rail Road
42 and Metro-North Railroad, shall develop a lower cost, intra-city combi-
43 nation ticket valid for transfers between the Long Island Rail Road and
44 Metro-North Commuter Railroad Company for both peak and off-peak trains.

45 § 3. This act shall take effect eighteen months after it shall have
46 become a law.

47 § 3. Severability clause. If any clause, sentence, paragraph, subdivi-
48 sion, section, subpart or part of this act shall be adjudged by any
49 court of competent jurisdiction to be invalid, such judgment shall not
50 affect, impair, or invalidate the remainder thereof, but shall be
51 confined in its operation to the clause, sentence, paragraph, subdivi-
52 sion, section, subpart or part thereof directly involved in the contro-

1 versy in which such judgment shall have been rendered. It is hereby
2 declared to be the intent of the legislature that this act would have
3 been enacted even if such invalid provisions had not been included here-
4 in.

5 § 4. This act shall take effect immediately provided, however, that
6 the applicable effective date of Subparts A through C of this act shall
7 be as specifically set forth in the last section of such Subpart.

8 PART BBBB

9 Section 1. Short title. This act shall be known and may be cited as
10 the "Make Transit Affordable Act".

11 § 2. Legislative findings and intent. The legislature hereby finds and
12 declares the importance of the New York Metropolitan Transportation
13 Authority (MTA) and affirms the duty of the legislature to ensure that
14 the MTA remains affordable. The MTA provides an essential service:
15 transporting millions of New Yorkers on billions of trips each year to
16 and from places of work, worship, and gathering. For many New Yorkers,
17 however, the cost is prohibitive, especially as inflation climbs and
18 wages remain stagnant. As the MTA begins to implement congestion pric-
19 ing, it has never been more important to promote public transit as a
20 truly viable alternative to vehicular transport. To that end, the state
21 of New York must fund a second, more expansive fare-free bus pilot
22 program, building on the success of the 2023-2024 pilot program. It is
23 the intent of the legislature to include \$45,000,000 in additional
24 appropriations in the SFY26 budget to Make Transit Affordable by provid-
25 ing an expanded, world-class free bus pilot program.

26 § 3. The public authorities law is amended by adding a new section
27 1266-n to read as follows:

28 § 1266-n. Fare-free bus pilot program. Subject to appropriation, the
29 authority shall allocate forty-five million dollars in state funds
30 received to expand the fare-free bus pilot program within the city of
31 New York.

32 1. The fare-free bus pilot program expansion shall last for at least
33 one year.

34 2. The fare-free bus pilot program expansion shall consist of at least
35 fifteen new fare-free bus routes and shall cost no more than forty-five
36 million dollars in net operating costs. Net operating costs shall be
37 determined by the total costs of implementing the fare-free bus pilot
38 program expansion and shall not accrue to the city of New York.

39 3. The fare-free bus routes included in the fare-free bus pilot
40 program expansion shall be selected by the authority, and may include
41 either New York City Transit Authority or MTA bus routes, provided that
42 there shall be at least three new fare-free bus routes within each of
43 the following counties: Bronx county, Kings county, New York county,
44 Queens county, Richmond county.

45 4. The factors considered by the authority in selecting such fare-free
46 bus routes shall include but not be limited to:

47 (a) addressing service adequacy and equity for low-income and econom-
48 ically disadvantaged communities;

49 (b) access to employment and commercial activity in areas served by
50 such fare-free routes; and

51 (c) addressing routes facing high rates of operator assaults.

52 5. The routes selected shall rank in the top twenty-five percent of
53 ridership for the given borough.

1 6. Thirty days prior to the implementation of the fare-free bus pilot
2 program expansion, the authority shall provide to the temporary presi-
3 dent of the senate and speaker of the assembly, and prominently publish
4 on its website, a report justifying the authority's choice of fare-free
5 bus routes, according to the criteria in subdivision four of this
6 section and any additional criteria specified by the authority.

7 7. The authority shall report to its board on the fare-free bus pilot
8 program expansion after it has been in effect for three months, six
9 months, and again upon the conclusion of the fare-free bus pilot program
10 expansion. Such reports shall also be prominently published, with copies
11 sent to the governor, temporary president of the senate and speaker of
12 the assembly and shall include, but not be limited to, the following
13 comparative performance metrics:

14 (a) ridership totals relative to equivalent time periods before the
15 fare-free bus pilot program expansion took effect;

16 (b) percent of scheduled service delivered;

17 (c) average end-to-end bus speed changes;

18 (d) customer journey time performance;

19 (e) dwell time at bus stops;

20 (f) the cost to provide such service itemized by route;

21 (g) scheduled service frequency; and

22 (h) data on bus operator assaults per fare-free route in comparison
23 with system wide.

24 8. The authority shall also survey riders on the fare-free routes, by
25 in-person methods at the three-, six- and twelve-month marks on topics
26 including but not limited to:

27 (a) overall rider satisfaction;

28 (b) experience of security and safety when riding the fare-free bus;

29 (c) demographic information including annual income, vehicle access,
30 race and ethnicity, disability status, age, and enrollment status in the
31 fair-fares program; and

32 (d) open-ended questions such as how fare-free buses at the point of
33 service have impacted the rider.

34 9. The authority shall implement all-door boarding on all fare-free
35 buses beginning the first day of the fare-free bus pilot program expan-
36 sion.

37 10. The authority shall promote the fare-free routes through the
38 following methods at a minimum: signage on buses, signage at bus stops,
39 intersecting subway stops, announcement on the authority "fares & tolls"
40 webpage, digital advertisements on subways, and across MTA social media
41 accounts. Any messaging promoting the fare-free routes shall also
42 include messaging reminding riders that such program is on select routes
43 and that such riders should treat their bus operators with respect and
44 decorum.

45 11. The authority shall present the fare-free bus pilot program expan-
46 sion to its board for approval no later than sixty days after the effec-
47 tive date of this section, for implementation no later than ninety days
48 after board adoption.

49 § 4. This act shall take effect immediately.

50

54 metal, aluminum, steel or plastic bottle, can or jar used for containing

1 less than one gallon or 3.78 liters of liquid at the time of sale or
2 offer for sale of a beverage intended for use or consumption in this
3 state. Beverage containers sold or offered for sale or distributed
4 aboard aircraft or ships shall be considered as intended for use or
5 consumption outside this state.

6 § 2. Subdivision 12 of section 27-1003 of the environmental conserva-
7 tion law, as added by section 3 of part SS of chapter 59 of the laws of
8 2009, is amended and a new subdivision 14 is added to read as follows:

9 12. "Reverse vending machine" means an automated device that uses a
10 laser scanner, microprocessor, or other technology to accurately recog-
11 nize the universal product code (UPC) on containers to determine if the
12 container is redeemable and accumulates information regarding containers
13 redeemed, including the number of such containers redeemed, thereby
14 enabling the reverse vending machine to accept containers from redeemers
15 and to issue legal tender or a scrip [~~ex~~], receipt, or other form of
16 credit for their refund value. Such definition shall also apply to
17 alternative technology approved by the commissioner pursuant to subpara-
18 graph (iii) of paragraph (b) of subdivision one of section 27-1007 of
19 this title. Nothing in this definition shall be construed to relieve a
20 dealer specified in subparagraph (iii) of paragraph (b) of subdivision
21 one of section 27-1007 of this title of the requirement to provide an
22 immediate form of deposit repayment if the reverse vending machine or
23 alternative technology does not provide such.

24 14. "Redemption rate" means the percentage of beverage containers sold
25 that are redeemed for the refund value.

26 § 3. Paragraphs (a) and (b) of subdivision 1 and subdivisions 3, 6 and
27 11 of section 27-1007 of the environmental conservation law, paragraph
28 (a) of subdivisions 1 and subdivisions 3, 6 and 11 as added by section 4
29 of part SS of chapter 59 of the laws of 2009 and paragraph (b) of subdivi-
30 sion 1 as amended by chapter 459 of the laws of 2011, are amended and
31 two new subdivisions 13 and 14 are added to read as follows:

32 (a) A dealer shall accept at [~~his or her~~] such dealer's place of busi-
33 ness from a redeemer any empty beverage containers of the design, shape,
34 size, color, composition and brand sold or offered for sale by the deal-
35 er, and shall pay to the redeemer the refund value of each such beverage
36 container as established in section 27-1005 of this title. Redemptions
37 of refund value must be in legal tender, or a scrip or receipt from a
38 reverse vending machine, provided that the scrip or receipt can be
39 exchanged for legal tender for a period of not less than sixty days
40 without requiring the purchase of other goods. In the event such scrip
41 or receipt expires, such scrip or receipt must indicate any expiration
42 date and the dealer must post a conspicuous sign indicating how many
43 days a redeemer has to exchange the scrip or receipt for legal tender.
44 If such notification is not provided, a dealer must redeem the full
45 refund value indicated on any legible scrip or receipt. The use or pres-
46 ence of a reverse vending machine shall not relieve a dealer of any
47 obligations imposed pursuant to this section. If a dealer utilizes a
48 reverse vending machine to redeem containers, the dealer shall provide
49 redemption of beverage containers when the reverse vending machine is
50 full, broken, under repair or does not accept a type of beverage
51 container sold or offered for sale by such dealer and may not limit the
52 hours or days of redemption except as provided by subdivision three of
53 this section.

54 (b) Beginning March first, two thousand ten, a dealer whose place of
55 business is part of a chain engaged in the same general field of busi-
56 ness which operates ten or more units in this state under common owner-

1 ship and whose business has at least: (i) forty thousand but less than
2 sixty thousand square feet devoted to the display of merchandise for
3 sale to the public shall install and maintain at least two reverse vend-
4 ing machines at the dealer's place of business; (ii) sixty thousand but
5 less than eighty-five thousand square feet devoted to the display of
6 merchandise for sale to the public shall install and maintain at least
7 three reverse vending machines at the dealer's place of business; or
8 (iii) eighty-five thousand square feet devoted to the display of
9 merchandise for sale to the public shall install and maintain at least
10 four reverse vending machines at the dealer's place of business. The
11 requirements of [~~paragraph (b) of~~] this subdivision to install and main-
12 tain reverse vending machines shall not apply to a dealer that: (i)
13 sells only beverage containers of twenty ounces or less where such
14 beverage containers are packaged in quantities fewer than six; (ii)
15 sells beverage containers and devotes no more than five percent of its
16 floor space to the display and sale of consumer commodities, as defined
17 in section two hundred fourteen-h of the agriculture and markets law; or
18 (iii) obtains a waiver from the commissioner authorizing dealers to
19 provide consumers with an alternative technology that: (A) determines if
20 the container is redeemable, (B) provides protections against fraud
21 through a system that validates each container redeemed by reading the
22 universal product code and, except with respect to refillable contain-
23 ers, renders the container unredeemable, (C) accumulates information
24 regarding containers redeemed, and (D) issues legal tender, or a scrip,
25 receipt, or other form of credit for the refund value, that can be
26 exchanged for legal tender for a period of not less than sixty days
27 without requiring the purchase of other goods and includes any expira-
28 tion date on the scrip, receipt, or other form of credit. Notwithstand-
29 ing the foregoing, if the alternative technology does not allow consum-
30 ers to immediately obtain the refund value of the redeemed container, a
31 dealer shall be permitted to deploy such alternative technology only if
32 it also offers an alternative that allows consumers to conveniently and
33 immediately obtain such refund value through a reverse vending machine
34 or other alternative method.

35 3. On or after June first, two thousand nine, a dealer may limit the
36 number of empty beverage containers to be accepted for redemption at the
37 dealer's place of business to no less than seventy-two containers [~~per~~
38 ~~visit,~~] per redeemer, per day, provided that:

39 (a) The dealer has a written agreement with a redemption center, be it
40 either at a fixed physical location within the same county and within
41 [~~one-half~~] one mile of the dealer's place of business, or a mobile
42 redemption center, operated by a redemption center, that is located
43 within one-quarter mile of the dealer's place of business. The redemp-
44 tion center must have a written agreement with the dealer to accept
45 containers on behalf of the dealer; and the redemption center's hours of
46 operation must cover at least [~~9:00 a.m. through 7:00 p.m.~~] eight hours
47 daily or in the case of a mobile redemption center, the hours of opera-
48 tion must cover at least four consecutive hours between 8:00 a.m. and
49 8:00 p.m. daily. The dealer must post a conspicuous, permanent sign,
50 meeting the size and color specifications set forth in subdivision two
51 of this section, open to public view, identifying the location and hours
52 of operation of the affiliated redemption center or mobile redemption
53 center; and

54 (b) The dealer provides, at a minimum, a consecutive two hour period
55 between 7:00 a.m. and 7:00 p.m. daily whereby the dealer will accept up
56 to two hundred forty containers, per redeemer, per day, and posts a

1 conspicuous, permanent sign, meeting the size and color specifications
2 set forth in subdivision two of this section, open to public view, iden-
3 tifying those hours. The dealer may not change the hours of redemption
4 without first posting a thirty day notice; and

5 (c) The dealer's primary business is the sale of food or beverages for
6 consumption off-premises, and the dealer's place of business is less
7 than ten thousand square feet in size.

8 6. In addition to the refund value of a beverage container as estab-
9 lished by section 27-1005 of this title, a deposit initiator shall pay
10 to any dealer or operator of a redemption center a handling fee of three
11 and one-half cents for each beverage container accepted by the deposit
12 initiator from such dealer or operator of a redemption center. Begin-
13 ning July first, two thousand twenty-five, the handling fee shall be
14 four and one-half cents. Beginning July first, two thousand twenty-sev-
15 en, the handling fee shall be five cents. Payment of the handling fee
16 shall be as compensation for collecting, sorting and packaging of empty
17 beverage containers for transport back to the deposit initiator or its
18 designee. Payment of the handling fee may not be conditioned on the
19 purchase of any goods or services, nor may such payment be made out of
20 the refund value account established pursuant to section 27-1012 of this
21 title. A distributor who does not initiate deposits on a type of bever-
22 age container is considered a dealer only for the purpose of receiving a
23 handling fee from a deposit initiator.

24 11. Notwithstanding the provisions of subdivision two of section
25 27-1009 of this title, a deposit initiator or distributor shall accept
26 and redeem beverage containers as provided in this title, if the dealer
27 or operator of a redemption center shall have accepted and paid the
28 refund value of such beverage containers, subject to the prohibitions
29 set forth in subdivisions nine and ten of this section.

30 13. The department and the department of taxation and finance are
31 authorized to audit any reverse vending machine.

32 14. Notwithstanding any provision of this section to the contrary, a
33 dealer shall not be required to accept from a redeemer any empty bever-
34 age container at a farmers' market as such term is defined by the
35 department of agriculture and markets.

36 § 4. Section 27-1009 of the environmental conservation law, as amended
37 by section 4 of part F of chapter 58 of the laws of 2013, is amended to
38 read as follows:

39 § 27-1009. Refusal of acceptance.

40 1. a. A dealer or operator of a redemption center may refuse to accept
41 from a redeemer, and a deposit initiator or distributor may refuse to
42 accept from a dealer or operator of a redemption center any empty bever-
43 age container which does not state thereon a refund value as established
44 by section 27-1005 and provided by section 27-1011 of this title.

45 b. Any person who accepts any such container for redemption shall not
46 be entitled to payment of any handling fee or refund value on such
47 container.

48 c. Nothing in this subdivision shall prohibit any such person, at such
49 person's option, from accepting such a container for recycling or
50 disposal.

51 2. a. A dealer or operator of a redemption center and a deposit initi-
52 ator or distributor may also refuse to accept any broken bottle, corroded,
53 crushed or dismembered container, or any beverage container which
54 contains a significant amount of foreign material, as determined in
55 rules and regulations to be promulgated by the commissioner, other than
56 non-corroded containers compacted by a reverse vending machine, as

1 determined in rules and regulations to be promulgated by the commission-
2 er.

3 b. Any person who accepts any such container for redemption shall not
4 be entitled to payment of any handling fee or refund value on such
5 container.

6 c. Nothing in this subdivision shall prohibit any such person, at such
7 person's option, from accepting such a container for recycling or
8 disposal.

9 3. A dealer or operator of a redemption center and a deposit initiator
10 or distributor shall refuse to accept for refund an empty beverage
11 container that the dealer, redemption center, deposit initiator, or
12 distributor knows was purchased outside of the state.

13 § 5. Paragraphs a and c of subdivision 4 of section 27-1012 of the
14 environmental conservation law, as added by section 8 of part SS of
15 chapter 59 of the laws of 2009, are amended to read as follows:

16 a. Quarterly payments.

17 (i) An amount equal to [~~eighty~~] sixty percent of the balance outstand-
18 ing in the refund value account at the close of each quarter shall be
19 paid to the commissioner of taxation and finance at the time the report
20 provided for in subdivision three of this section is required to be
21 filed. The commissioner of taxation and finance may require that the
22 payments be made electronically. The remaining [~~twenty~~] forty percent of
23 the balance outstanding at the close of each quarter shall be the monies
24 of the deposit initiator and may be withdrawn from such account by the
25 deposit initiator.

26 (ii) Notwithstanding subparagraph (i) of this paragraph, a deposit
27 initiator who demonstrates to the satisfaction of the commissioner that
28 at least seventy-five percent of deposits it initiates are redeemed
29 shall pay an amount equal to fifty-five percent of the balance outstand-
30 ing in the refund value account specifically attributable to refillable
31 beverage containers at the close of each quarter to the commissioner of
32 taxation and finance at the time the report provided for in subdivision
33 three of this section is required to be filed.

34 (iii) If the provisions of this section with respect to such account
35 have not been fully complied with, each deposit initiator shall pay to
36 such commissioner at such time, in lieu of the amount described in the
37 preceding sentence, an amount equal to the balance which would have been
38 outstanding on such date had such provisions been fully complied with.
39 The commissioner of taxation and finance may require that the payments
40 be made electronically.

41 c. Final report. A deposit initiator who ceases to do business in this
42 state as a deposit initiator shall file a final report and remit payment
43 of [~~eighty~~] sixty percent of all amounts remaining in the refund value
44 account as of the close of the deposit initiator's last day of business.
45 The commissioner of taxation and finance may require that the payments
46 be made electronically. The deposit initiator shall indicate on the
47 report that it is a "final report". The final report is due to be filed
48 with payment twenty days after the close of the quarterly period in
49 which the deposit initiator ceases to do business. In the event the
50 deposit initiator pays out more in refund values than it collects in
51 such final quarterly period, the deposit initiator may apply to the
52 commissioner of taxation and finance for a refund of the amount of such
53 excess payment of refund values from sources other than the refund value
54 account, in the manner as provided by the commissioner of taxation and
55 finance.

1 § 6. Subdivision 5 of section 27-1012 of the environmental
2 conservation law, as amended by section 2 of part JJ of chapter 58 of
3 the laws of 2017, is amended to read as follows:

4 5. All moneys collected or received by the department of taxation and
5 finance pursuant to this title shall be deposited to the credit of the
6 comptroller with such responsible banks, banking houses or trust compa-

8 kept separate and apart from all other moneys in the possession of the
9 comptroller. The comptroller shall require adequate security from all
10 such depositories. Of the total revenue collected, the comptroller shall
11 retain the amount determined by the commissioner of taxation and finance
12 to be necessary for refunds out of which the comptroller must pay any
13 refunds to which a deposit initiator may be entitled. Of the revenue
14 remaining following payments of any refunds, the comptroller shall annu-
15 ally, through the state fiscal year ending March thirty-first, two thou-
16 sand twenty-nine, retain an amount equal to three million dollars for
17 the beverage container assistance program established pursuant to
18 section 27-1018 of this title. After reserving the amount to pay
19 refunds, the comptroller must, by the tenth day of each month, pay into
20 the state treasury to the credit of the general fund the revenue depos-
21 ited under this subdivision during the preceding calendar month and
22 remaining to the comptroller's credit on the last day of that preceding
23 month; provided, however, that, beginning April first, two thousand
24 thirteen, nineteen million dollars, and all fiscal years thereafter,
25 twenty-three million dollars plus all funds received from the payments

29 hundred twenty-two million two hundred thousand dollars, shall be depos-
30 ited to the credit of the environmental protection fund established
31 pursuant to section ninety-two-s of the state finance law.

32 § 7. Section 27-1012 of the environmental conservation law is amended
33 by adding a new subdivision 13 to read as follows:

34 13. Annually the department, in consultation with the department of
35 taxation and finance, shall use available information to produce an

38 fraud and enforcement actions; an analysis of the handling fee and
39 consumer price index; the financial health of redemption centers in the
40 state, including an analysis of regional variation; and an analysis of
41 redemption rates and relevant incentive structures for deposit initi-
42 ators, dealers, redeemers, redemption centers, and distributors. Such
43 report shall be provided to the legislature and posted publicly on the
44 department's website.

45 § 8. Paragraph a of subdivision 7 of section 27-1012 of the environ-
46 mental conservation law, as amended by section 8 of part SS of chapter

2 ically. The commissioner of taxation and finance shall electronically
3 issue a deposit initiator registration certificate in a form prescribed
4 by the commissioner of taxation and finance within fifteen days of
5 receipt of such application or may take an additional ten days if the
6 commissioner of taxation and finance deems it necessary to consult with
7 the commissioner before issuing such registration certificate. A regis-
8 tration certificate issued pursuant to this subdivision may be issued
9 for a specified term of not less than three years and shall be subject
10 to renewal in accordance with procedures specified by the commissioner
11 of taxation and finance. The commissioner of taxation and finance shall
12 furnish to the commissioner a complete list of registered deposit initi-
13 ators and shall continually update such list as warranted. The commis-
14 sioner shall share any information with the commissioner of taxation and
15 finance that is necessary for the administration of this subdivision.
16 The commissioner shall publish on its website and annually update the
17 list of registered deposit initiators and their covered products, and a
18 list of registered redemption centers and the total combined number of
19 redeemed containers handled by all such redemption centers in the prior
20 year on the department's website.

21 § 9. Section 27-1013 of the environmental conservation law, as amended
22 by section 7 of part F of chapter 58 of the laws of 2013, is amended to
23 read as follows:

24 § 27-1013. Redemption centers.

25 1. (a)(i) As of the effective date of the chapter of the laws of two
26 thousand twenty-five that amended this section and subject to applicable
27 provisions of local and state law, any person, firm or corporation which
28 establishes a redemption center shall submit an application to the
29 commissioner for registration as a condition of operation.

30 (ii) Any redemption center in business on or before April first, two
31 thousand twenty-five may continue to operate as if the department had
32 issued such redemption center a registration required by regulations
33 adopted under this section; provided, however, that such redemption
34 center shall submit a renewal application to the commissioner in accord-
35 ance with applicable regulations by April first, two thousand twenty-
36 six.

37 (iii) An application for registration or renewal shall be in a form
38 prescribed by the commissioner and shall, at a minimum, require the name

45 during the preceding twelve months, as applicable, and such other infor-

47 this title. The commissioner shall issue a redemption center registra-

49 commissioner within thirty days of receipt of such application. A regis-
50 tration certificate or renewal certificate issued pursuant to this
51 subdivision shall be subject to renewal every three years in accordance
52 with procedures specified by the commissioner.

53 (iv) Any redemption center that ceases operations shall notify the
54 commissioner of such cessation in writing within thirty days in a form
55 prescribed by the commissioner.

1 (b) The commissioner shall issue a registration or renewal within
2 thirty days of the submission of an application by a person, firm or
3 corporation which establishes a redemption center in accordance with the
4 provisions of this section, subject to applicable provisions of local
5 and state laws. An application for registration or renewal shall be
6 deemed approved if the department fails to act on such application with-
7 in thirty days of submission. Registrations and renewals shall be issued
8 at no cost to the applicant.

9 (c) After due notice and an opportunity to be heard, the department
10 may deny an application for registration or renewal or revoke a regis-
11 tration. In determining whether or not to revoke a registration, the
12 commissioner shall, at a minimum, take into consideration the compliance
13 history of an applicant, results from audits, good faith efforts of an
14 applicant to comply, any economic benefit from noncompliance, and wheth-
15 er any violation was procedural in nature. The commissioner's determi-
16 nation to revoke a registration is subject to review under article
17 seventy-eight of the civil practice law and rules.

18 (d) Any person, firm or corporation required to be registered under
19 this section which, without being registered, redeems beverage contain-
20 ers in this state, shall not be eligible to receive a handling fee for
21 any such redeemed beverage containers, and if such person, firm or
22 corporation has received a handling fee after the effective date of this
23 paragraph, it shall be promptly refunded to the distributor or deposit
24 initiator which paid such handling fee.

25 2. The commissioner is hereby empowered to promulgate rules and regu-
26 lations governing:

27 (a) the circumstances in which deposit initiators, dealers and
28 distributors, individually or collectively, are required to accept the
29 return of empty beverage containers, including beverage containers proc-
30 essed through reverse vending machines and make payment therefor;

31 (b) the sorting of the containers which a deposit initiator or
32 distributor may require of dealers and redemption centers;

33 (c) the collection of returned beverage containers by deposit initi-
34 ators or distributors, including the party to whom such expense is to be
35 charged, the frequency of such pick ups and the payment for refunds and
36 handling fees thereon;

37 (d) the right of dealers to restrict or limit the number of containers
38 redeemed, the rules for redemption at the dealers' place of business,
39 and the redemption of containers from a beverage for which sales have
40 been discontinued;

41 (e) ~~[to issue] registrations and renewals issued to persons, firms or~~
42 ~~corporations which establish redemption centers, subject to applicable~~
43 ~~provisions of local and state laws, [at which redeemers and dealers may~~
44 ~~return empty beverage containers and receive payment of the refund value~~
45 ~~of such beverage containers. Such registrations shall be issued at no~~
46 ~~cost. Should the department require by regulations adopted pursuant to~~
47 ~~this paragraph that redemption centers must obtain a registration as a~~
48 ~~condition of operation, any redemption center in business as of March~~
49 ~~first, two thousand thirteen that previously provided the department~~
50 ~~with the notification information required by regulations in effect as~~
51 ~~of such date may continue to operate as if the department had issued~~
52 ~~such redemption center a registration required by regulations adopted~~
53 ~~under this paragraph; provided, however, that such redemption center~~
54 ~~shall provide the department with any other information required by~~
55 ~~regulations adopted pursuant to this paragraph. The department may,~~
56 ~~after due notice and opportunity of hearing, pursuant to the provisions~~

~~of section 71-1709 of this chapter, deny an application or revoke a registration. In determining whether or not to revoke a registration the commissioner shall at a minimum, take into consideration the compliance history of a violator, good faith efforts of a violator to comply, any economic benefit from noncompliance and whether the violation was procedural in nature. The commissioner's determination to revoke a registration is subject to review under article seventy-eight of the civil practice law and rules]~~ pursuant to subdivision one of this section; and

(f) the operation of mobile redemption centers in order to ensure that to the best extent practicable containers are not proffered for redemption to a deposit initiator or distributor outside of the geographic area where such deposit initiator sells containers and initiates deposits.

~~[2-]~~ 3. a. The commissioner shall set standards and promulgate rules and regulations governing the performance of audits in connection with pick-ups of redeemed beverage containers. Such audits shall be conducted by the department at least once annually at every redemption center in the state.

b. The department shall take into consideration complaints and requests for audits by distributors, deposit initiators, redemption centers, and dealers when determining how and when to conduct audits, and may coordinate audits with any of the foregoing persons. Audit results shall be promptly reported to the distributor, deposit initiator, redemption center and/or dealer whose pick-up transaction is the subject of such audit.

c. Where an audit finds that a party to a pickup transaction reported more beverage containers than were actually physically tendered, the department shall provide written notice to the redemption center of such shortfall and the redemption center shall provide a refund based on the actual tendered amount, provided that if such audit reveals a discrepancy between the redemption center's reported number of beverage containers and the actual physical count of ten percent or greater, the department may authorize the deposit initiator to withhold up to fifty percent of the handling fee otherwise payable to the redemption center for such tender, and provided further that upon any subsequent audit which produces a discrepancy of ten percent or more, the department may authorize a deposit initiator to withhold up to one hundred percent of the handling fee otherwise payable to such redemption center. For any such audit that reveals a discrepancy between the reported amount and the count of ten percent or greater, or that more than two percent of containers are ineligible, the department may find the applicable person in violation of this title.

4. The department may require a redemption center to obtain a permit, as an alternative to registration if such center is located at the same facility or site as another solid waste management facility otherwise subject to the requirements of title seven of this article or the regulations promulgated pursuant thereto.

~~[3-]~~ 5. No dealer or distributor, as defined in section 27-1003 of this title, shall be required to obtain a permit to operate a redemption center at the same location as the dealer's or distributor's place of business. Operators of such redemption centers shall receive payment of the refund value of each beverage container from the appropriate deposit initiator or distributor as provided under section 27-1007 of this title.

~~[4-]~~ 6. Each dealer and redemption center shall require any person tendering for redemption more than two thousand five hundred containers

1 at one time to such dealer or redemption center to provide; such
2 person's name and address [~~and~~]; the license plate of the vehicle used
3 to transport the containers, or, in the case of an agent or employee of
4 a not-for-profit corporation, a sales tax exemption certificate; and a
5 certification that to the best of such person's knowledge the containers
6 were originally sold as filled beverage containers in this state and
7 were not previously redeemed. After complying at least once with these
8 requirements, a person need not comply at each subsequent tender to a
9 dealer or redemption center for redemption of more than two thousand
10 five hundred containers if: all such containers were collected at one
11 location in this state; all proceeds of the refund value benefit a
12 nonprofit organization that has been determined by the United States
13 Internal Revenue Service to be exempt from taxation under the United
14 States Internal Revenue Code of 1986, Section 501(c)(3); and the person
15 tendering the containers for redemption signs a declaration indicating
16 the person's name, the address of the collection point and the name of
17 the organization or organizations that will receive the refund value.
18 The dealer or redemption center redeeming the beverage containers shall
19 keep [~~the~~] such information on file for a minimum of twelve months and
20 provide [~~same~~] such information to the department upon request.

21 § 10. Section 27-1014 of the environmental conservation law, as

45

PART GGGG

46 Section 1. Short title. This act shall be known and may be cited as
47 the "just energy transition act".

48 § 2. Legislative findings and statement of purpose. The legislature
49 hereby finds, determines and declares:

50 (a) New York state, especially New York city, is reliant on fossil
51 fuels for energy production, making the transition to renewable sources
52 for the downstate electricity system key to achieving the requirements
53 of section 4 of the New York state climate leadership and community
54 protection act, including that seventy percent of the state's electric-

1 ity be from renewable energy sources by the year 2030 and that one
2 hundred percent of the state's electricity be from zero-emission sources
3 by the year 2040.

4 (b) New York state is committed to the responsible replacement and
5 redevelopment of its fossil fueled generation facilities that currently
6 ensure resource adequacy in the state, especially in locations where the
7 health benefits to historically disadvantaged communities can be maxi-
8 mized, and where the cost effective phasing-out of such facilities can
9 be done while helping to ensure a just transition for the existing work-
10 force.

11 (c) A public policy purpose would be served and the interests of the
12 people of the state would be advanced by directing the New York state
13 energy research and development authority, in consultation with the
14 department of public service and the department of environmental conser-
15 vation, to continue the development of the study commenced in 2022, as
16 referenced in the climate action council scoping plan of strategies to
17 facilitate the replacement and redevelopment of New York's oldest and
18 most-polluting fossil fueled generation facilities and their sites by
19 2030, while ensuring resource adequacy, with renewable energy systems as
20 defined in paragraph (b) of subdivision 1 of section 66-p of the public
21 service law, energy storage systems, and electricity transmission and
22 distribution systems and equipment.

23 (d) It is the intent of the legislature in enacting this act to
24 empower the New York state energy research and development authority,
25 department of public service, and department of environmental conserva-
26 tion, to develop a study as described in the climate action council
27 scoping plan and paragraph (c) of section three of this act in the
28 manner authorized and directed herein, and for those entities and the
29 public service commission, and any other agencies or authorities of the
30 state as may be required, to commence any proceedings or other initi-
31 atives necessary to carry out the strategies described therein.

32 § 3. The New York state energy research and development authority is
33 authorized and directed to:

34 (a) develop a study of competitive options to facilitate the phase-
35 out, replacement and redevelopment of New York state's oldest and most-
36 polluting fossil fueled generation facilities and their sites by the
37 year 2030, with renewable generation options that include those
38 described in the scoping plan issued by the climate action council under
39 section 75-0103 of the environmental conservation law, renewable energy
40 systems as defined in paragraph (b) of subdivision 1 of section 66-p of
41 the public service law, energy storage systems, and electricity trans-
42 mission and distribution systems and equipment, while ensuring resource
43 adequacy and other reliability services are maintained, and to do so in
44 consultation with the department of public service, the department of
45 environmental conservation, Long Island power authority, and other rele-
46 vant state agencies and authorities with subject matter expertise, the
47 federally designated electric bulk system operator, the New York State
48 Reliability Council, and the owners of such facilities. The study should
49 prioritize the replacement and redevelopment of such fossil fueled
50 generation facilities with facilities that will directly assist in
51 achieving the energy, environmental justice and emissions reductions
52 requirements of section 66-p of the public service law. The study shall
53 address the phase-out of at least four gigawatts of fossil fueled gener-
54 ation statewide capacity in total and prioritize those facilities that
55 only operate when electricity usage is highest. The study shall include
56 recommendations of standards and requirements that:

1 (i) significantly reduce the state's electricity system reliance on
2 fossil fuels, taking into account the requirements and timing of the
3 state's emission reduction programs;

4 (ii) establish a competitive program to promote private sector invest-
5 ment in eligible technologies that the public service commission has
6 determined, after notice and provision for the opportunity to comment,
7 ensure resource adequacy, while achieving the requirements of section
8 66-p of the public service law;

9 (iii) provide significant environmental, health and other benefits to
10 disadvantaged communities as such communities will be defined under
11 section 75-0111 of the environmental conservation law; and

12 (iv) have significant potential for job creation and retention,
13 economic development, and just transition opportunities benefiting New
14 Yorkers and the state's workforce, as described in the scoping plan
15 issued by the climate action council under section 75-0103 of the envi-
16 ronmental conservation law; and

17 (v) ensure the availability of assistance under the electric gener-
18 ation facility cessation mitigation fund established in section 1 of
19 part BB of chapter 58 of the laws of 2016 to any local government entity
20 impacted by the replacement and redevelopment of fossil fueled gener-
21 ation facilities under this section;

22 (b) provide public notice of the study, and ensure the results of
23 the study are made easily accessible to members of disadvantaged commu-
24 nities, as defined in section 75-0101 of the environmental conservation
25 law, and provide an opportunity for public comment on the study of not
26 less than 60 days and conduct at least two public hearings on the
27 study, of which at least one shall be held in disadvantaged communities,
28 as defined in section 75-0101 of the environmental conservation law with
29 such public hearings offering video participation and accessibility;

30 (c) address public comments and update the study, as appropriate,
31 especially to ensure resource adequacy and reliability services are
32 maintained; and

33 (d) deliver the study to the governor, temporary president of the
34 senate and speaker of the assembly within 180 days of the effective date
35 of this section.

36 § 4. The department of public service, the department of environmental
37 conservation, and Long Island power authority shall commence proceedings
38 and stakeholder processes to establish programs and other initiatives
39 necessary to carry out the strategies, programs, standards, and require-
40 ments described in the study referred to in section three of this act
41 within 60 days of delivery of the study to the governor, temporary pres-
42 ident of the senate and speaker of the assembly.

43 § 5. The public service commission shall:

44 (a) commence a proceeding to implement the strategies, programs, stan-
45 dards, and requirements described in the study referred to in section
46 three of this act within 90 days of delivery of the study to the gover-
47 nor, temporary president of the senate and speaker of the assembly; and

48 (b) issue an order regarding implementation of the strategies,
49 programs, standards, and requirements described in the study referred to
50 in section three of this act no later than July 30, 2026. Such order
51 shall at a minimum:

52 (i) direct the New York state energy research and development authori-
53 ty to implement a competitive award process to facilitate the replace-
54 ment and redevelopment of at least four gigawatts of fossil fueled
55 generation facilities statewide while maintaining reliability consistent
56 with the recommendations of the study pursuant to section three of this

1 act, and that as part of such competitive award process, consideration
2 shall be given to security of offtake with respect to generation and
3 transmission; and

4 (ii) direct that with respect to the competitive award process
5 required, the only eligible electricity generation from hydroelectric
6 facilities shall be electricity that is generated from non-state-owned
7 low impact run-of-river facilities located in the state that provide a
8 year-round electricity capacity resource.

9 (c)(i) Any projects pursuant to this section, or the study provided
10 herein, shall be deemed public work and shall be subject to and
11 performed in accordance with articles 8 and 9 of the labor law. Each
12 contract for such project shall contain a provision that such project
13 shall only be undertaken pursuant to a project labor agreement. For
14 purposes of this section, "project labor agreement" shall mean a pre-
15 hire collective bargaining agreement between the New York state energy
16 research and development authority, a third party on behalf of the
17 authority, or a recipient of support under this section, and a bona fide
18 building and construction trade labor organization establishing the
19 labor organization as the collective bargaining representative for all
20 persons who will perform work on a public work project, and which
21 provides that only contractors and subcontractors who sign a pre-negoti-
22 ated agreement with the labor organization can perform project work. All
23 contractors and subcontractors associated with this work shall be
24 required to utilize apprenticeship agreements as defined by article 23
25 of the labor law.

26 (ii) The New York state energy research and development authority, or
27 public service commission, where appropriate, shall include requirements
28 in any procurement or development of a renewable energy generating
29 project, as defined in this subdivision, that the components and parts
30 shall be produced or made in whole or substantial part in the United
31 States, its territories or possessions. The New York state energy
32 research and development authority's president and chief executive offi-
33 cer, or their designee may waive the procurement and development
34 requirements set forth in this paragraph if such official determines
35 that: the requirements would not be in the public interest; the require-
36 ments would result in unreasonable costs; obtaining such infrastructure
37 components and parts in the United States would increase the cost of a
38 renewable energy generating project by an unreasonable amount; or such
39 components or parts cannot be produced, made, or assembled in the United
40 States in sufficient and reasonably available quantities or of satisfac-
41 tory quality. Such determination shall be made on an annual basis no
42 later than December thirty-first, after providing notice and an opportu-
43 nity for public comment, and such determination shall be made publicly

45 ent that may result in such recipient's insolvency or discharge of work-
