(B) establishing quantitative baseline and reduction targets on greenhouse gas emissions. Greenhouse gas emissions inventory shall be reported annually, starting in two thousand twenty-seven for emissions in the prior fiscal year; include absolute figures; and conform with the rules and regulations made by the department of state in consultation with the department of environmental conservation based on the accounting and reporting requirements of the most recent Greenhouse Gas Protocol Corporate Accounting and Reporting Standard, Scope Two Guidance, and, starting in two thousand twenty-eight, the most recent Corporate Value Chain Scope Three accounting and reporting standard promulgated by the World Resources Institute and the World Business Council for Sustainable Development. Significant suppliers shall mean suppliers representing seventy-five percent of fabric by volume in tier two and fifty percent of fabric by volume in tier three. Greenhouse gas emission reduction targets must be near-term and long-term, covering scopes one, two and three emissions, and align with the rules and regulations made by the department of state in consultation with the department of environmental conservation based on, at a minimum, Science Based Target initiative's most recent target validation criteria as promulgated by World Resources Institute, CDP, United Nations Global Compact and the World Wildlife Fund. Compliance with the rules and regulations made by the department of state shall not waive compliance requirements related to greenhouse gas emissions in any other provision of law. For fashion sellers with global revenue over one billion dollars, the absolute contraction approach must be used to calculate scope three emissions. Fashion sellers shall meet targets and report their compliance on an annual basis in their due diligence report, as required pursuant to subdivision three of this section. If found to be out of compliance, fashion sellers shall have eighteen months to remedy their emissions and return to the necessary reduction pathway to deliver on their targets. (5) track implementation and results;

(6) provide for or co-operate in remediation in the event of an adverse impact;

(A) remedies shall seek to restore the affected person or persons, where practicable, to the situation they would have been in had the adverse impact not occurred and shall enable remediation that is proportionate to the significance and scale of the adverse impact; and

(B) remedies shall include, depending on the nature and extent of the adverse impact, remediation, restitution or financial or non-financial compensation, including establishing compensation funds for victims or for future outreach and educational programs, punitive sanctions includ-

1 ing the dismissals of staff responsible for wrongdoing, and establishing
2 and undertaking measures to prevent future adverse impacts, which may
3 include, but are not limited to the development of internal protocols,
4 practices and procedures to prevent future adverse impacts.

5 (b) The due diligence requirements pursuant to this subdivision shall
6 not be conditional upon the company being effectively involved in the
7 subsidiary's day-to-day operations or exercising a sufficient degree of
8 control on companies within its supply chain.

9 3. Reporting. Every fashion seller shall develop and submit to the
10 department of state annually, beginning within eighteen months of the

28 gation.

29 (d) The department of state shall review the due diligence reports for
30 completeness.

31 (e) Fashion sellers shall have twelve months from the introduction of
32 any updated guidance documents to integrate such guidance into the next
33 annual due diligence report.

36 online for use by fashion sellers in compliance with this section.

38 with the department of environmental conservation, promulgate all rules
39 and regulations necessary to implement the provisions of this section
40 within six months from the effective date of this section.

42 environmental conservation, shall also develop and disseminate educa-
43 tional materials to fashion sellers, including providing alerts on time
44 sensitive issues, emerging issues, and high-risk country situations, and
45 assisting fashion sellers in improving the quality of their due dili-
46 gence processes.

47 (c) The department of state shall develop regulations regarding the
48 information required to be reported by fashion sellers in the due dili-
49 gence report in item (B) of clause four of subparagraph (ii) of para-
50 graph (a) of subdivision two of this section. Such regulations shall be
51 developed in consultation with the department of environmental conserva-
52 tion and the most recent Greenhouse Gas Protocol. Such regulations shall
53 develop methodologies to calculate data capture as laid out in item (A)
54 of clause four of subparagraph (ii) of paragraph (a) of subdivision two
55 of this section, prior to that requirement becoming effective.

1 (d) The department of state shall develop regulations regarding the
2 information required to be reported by fashion sellers in the due dili-
3 gence report in item (C) of clause four of subparagraph (ii) of para-
4 graph (a) of subdivision two of this section. Such regulations shall be
5 developed in consultation with the department of environmental conserva-
6 tion and the Zero Discharge Hazardous Chemicals Program's most recent
7 wastewater guidelines.

8 (e) The department of state shall develop regulations on reporting
9 requirements that minimize duplication of effort and allows a fashion
10 seller to submit a due diligence report to the department of state that
11 is prepared to meet other national and international reporting require-
12 ments, including any reports required by the federal government, as long
13 as such reports satisfy all of the requirements of subdivision two of
14 this section.

15 5. Verification. (a) The department of state shall, in consultation
16 with the department of environmental conservation, develop a process for
17 accrediting verification bodies authorized to provide verification
18 services for the purposes of this section, including which requirements
19 the entity is authorized to verify.

20 (b) Such process shall at a minimum consider:

21 (i) the demonstrated qualifications of verification staff, including
22 their education, experience, and professional licenses. Verification
23 bodies must employ and retain at least five total full-time staff with
24 expertise in the requirements they seek to verify under this section;

25 (ii) any judicial proceedings, enforcement actions, or administrative

37 identifies activities and limits to monetary or non-monetary gifts that
38 apply to all employees and procedures to monitor conflicts of interest.

39 (c) Verification bodies shall not be authorized to provide services to
40 a company where a conflict of interest exists. A conflict of interest

(d) The department of state shall compile and maintain a list of non-compliant fashion sellers on the department's website. The department of state shall refer to the attorney general for investigation any fashion seller who fails to file a due diligence report or fails to conduct effective due diligence, once any grace period lapses and the fashion seller remains in non-compliance.

(e) Fashion sellers found to have failed to conduct effective due diligence pursuant to subdivision two of this section or failed to file a complete due diligence report pursuant to subdivision three of this section, after the attorney general, or the attorney general's designated administrator, as applicable, has provided notice of non-compliance, and after a three-month period to meet obligations under this section has lapsed, may be assessed a civil penalty not to exceed fifteen thousand dollars per violation per day. Such fines shall be deposited in the community benefit fund established by section ninety-seven-ccc of the state finance law.

(f) The attorney general, or the attorney general's designated administrator shall use a risk-based approach in enforcement and shall publish enforcement guidelines.

The governor may grant or deny an extension of up to one year according to their discretion.

§ 5. Severability. If any word, phrase, clause, sentence, paragraph, section, or part of this act shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the word, phrase, clause, sentence, paragraph, section, or part thereof directly involved in the controversy in which such judgment shall have been rendered.

§ 6. The department of state, in consultation with the department of environmental conservation, shall promulgate rules and regulations necessary for the implementation of this act within one hundred eighty days of the effective date of this act.

The attorney general shall notify the legislative bill drafting commission upon the occurrence of such certification in order that the commission may maintain an accurate and timely effective data base of the official text of the laws of the state of New York in furtherance of effectuating the provisions of section 44 of the legislative law and section 70-b of the public officers law.
