Projected contributions include future new hires that may be impacted. For Fiscal Year 2052 and beyond, the expected increase in normal cost as a level percent of pay for impacted new entrants is approximately 0.04%. Potential costs related to lost investment earnings are not included above.

The entire increase in employer contributions will be allocated to New York City.

PRESENT VALUE OF BENEFITS: The Present Value of Benefits is the discounted expected value of benefits paid to current members if all assumptions are met, including future service accrual and pay increases. Future new hires are not included in this present value.

INITIAL INCREASE (DECREASE) IN ACTUARIAL PRESENT VALUES
as of June 30, 2025 (\$ in Millions)

Present Value (PV)	NYCERS
(1) PV of Employer Contributions:	61.0
(2) PV of Employee Contributions:	<u>0.0</u>
Total PV of Benefits (1) + (2):	61.0

UNFUNDED ACCRUED LIABILITY (UAL): Actuarial Accrued Liabilities are the portion of the Present Value of Benefits allocated to past service. Changes in UAL were amortized over the expected remaining working lifetime of those impacted using level dollar payments.

AMORTIZATION OF UNFUNDED ACCRUED LIABILITY	
	NYCERS
Increase (Decrease) in UAL:	43.6 M
Number of Payments:	11
Amortization Payment:	6.0 M

CENSUS DATA: The estimates presented herein are based on preliminary census data collected as of June 30, 2025. The census data for the impacted population is summarized below.

	NYCERS
Active Members	
- Number Count:	13,360
- Average Age:	43.4
- Average Service:	11.8
- Average Salary:	120,600

IMPACT ON MEMBER BENEFITS: The proposed legislation would permit members of the Sanitation 20-Year Plan and Correction Officer 20-Year Plans to borrow up to 75% (100% for Tier 1 and Tier 2) of their AMC. The proposed legislation would also permit members of the Uniformed Sanitation Force 22-Year Plan and Uniformed Correction Force 22-Year Plan to borrow up to 75% of their BMC. For members of the Sanitation 20-Year Plan and Correction Officer 20-Year Plans, the loans on AMC would be in addition to currently permissible loans on BMC.

Employer contributions will increase if a member takes a loan and the assets earn more than the rate of interest charged for the loan, or if there is an outstanding loan balance at retirement.

Currently, member contributions are invested with other NYCERS assets which are expected to earn 7.0% per annum. When an active member borrows member contributions from NYCERS, the loan is repaid with interest at 6.0% per annum prior to retirement. The potential costs related to lost investment earnings are not included in the costs measured in this fiscal note.

In the event an outstanding loan balance exists at retirement, the balance of the unpaid loan is converted to an annuity based on the yield on 30-year U.S. Treasury securities and deducted from the annual retirement allowance otherwise payable. This conversion is made on an actuarial basis that is different than the basis used to determine employer

contributions to NYCERS. Therefore unpaid loans result in costs to employers.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

* New entrants were assumed to replace exiting members so that total payroll increases by 3% each year for impacted groups. New entrant demographics were developed based on data for recent new hires and actuarial judgement.

* It has been assumed that the yield on 30-year U.S. Treasury securities would equal 3.5% per year, and that 25% of member balances (BMC and, if permissible, AMC) would be taken as loans at retirement.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS, but do not believe it impairs our objectivity, and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2026-05 dated January 30, 2026 was prepared by the Chief Actuary for the New York City Retirement Systems and Pension Funds and is intended for use only during the 2026 Legislative Session.
