1 limitations on, the installation or use of a central air conditioner or  
2 heat pump. A restriction on use which effectively prohibits the instal-  
3 lation or use of a central air conditioner or heat pump is unenforceable  
4 and shall be void as contrary to public policy. For the purposes of this  
5 subdivision, an unreasonable limitation includes, but is not limited to,  
6 any restriction on use that:

7 (a) inhibits the central air conditioner or heat pump from functioning  
8 at its intended maximum efficiency; or

9 (b) increases the central air conditioner or heat pump's installation  
10 or maintenance costs by an amount which is estimated to be greater than  
11 ten percent of the total cost of the initial installation of the central  
12 air conditioner or heat pump, including the costs of labor and equip-  
13 ment.

14 3. Notwithstanding subdivision two of this section, a homeowners'  
15 association may adopt or enforce a restriction on use to prohibit the  
16 installation of a central air conditioner or heat pump that is located  
17 on property owned by the homeowners' association or that is located on  
18 property owned in common by the members of the homeowners' association.

19 4. If approval for the installation or use of a central air condition-  
20 er or heat pump is required by a homeowners' association, the applica-  
21 tion for approval shall be processed and approved by the association in  
22 a manner prescribed by the association and shall not be willfully  
23 avoided or delayed. The approval or denial of an application shall be in  
24 writing. Any denial of a homeowner's application shall include a  
25 detailed description of the exact basis for the denial and shall include  
26 specific examples of the homeowners' association's concerns, if applica-  
27 ble. If an application is not denied in writing within sixty days from  
28 the date of receipt of the application, the application shall be deemed  
29 approved, unless that delay is the result of a reasonable request for  
30 additional information.

31 5. A central air conditioner or heat pump shall meet the requirements  
32 established by any local, state or federal law, rule or regulation on  
33 health and safety standards and those requirements imposed by state and  
34 local permitting authorities.

35 6. In any action by a homeowner requesting to have a central air  
36 conditioner or heat pump installed and seeking to enforce compliance  
37 with this section, the homeowner shall be awarded reasonable attorney's  
38 fees if such homeowner prevails.

39 § 2. This act shall take effect on the sixtieth day after it shall  
40 have become a law.
