FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would permit members of the New York State and Local Employees' Retirement System employed by the New York power authority as a mechanic, technician, electrician, equipment operator, power plant operator, utility security officer, or lineperson to retire upon completion of twenty-five years of creditable service with a benefit of one-half final average salary. Members covered under Article 14 would be permitted one year to make an irrevocable election to switch to the twenty-five-year plan.

We estimate that the New York power authority's annual contributions will increase \$1.4 million beginning FYE 2027. Annual costs will vary as the billing rates and salary of the affected members change.

In addition, there will be an immediate past service cost of \$12.1 million borne by the New York power authority as a one-time payment. This cost assumes that payment will be made on February 1, 2027.

These costs are based on 435 affected members employed by the New York power authority, with annual salary of approximately \$52 million as of March 31, 2025. The affected members were identified using job title codes provided by the office of Senator Griffo.
