The superintendent shall direct insurers to establish segregated accounts for premiums, payments, reserves and investment income attributable to such premium periods and shall require periodic reports by the insurers regarding claims and expenses attributable to such periods to monitor whether such accounts will be sufficient to meet incurred claims and expenses. On or after July 1, 1989, the superintendent shall impose a surcharge on premiums to satisfy a projected deficiency that is attributable to the premium levels established pursuant to this section for such periods; provided, however, that such annual surcharge shall not exceed eight percent of the established rate until July 1, [~~2026~~] **2027**, at which time and thereafter such surcharge shall not exceed twenty-five percent of the approved adequate rate, and that such annual surcharges shall continue for such period of time as shall be sufficient to satisfy such deficiency. In the event any insurer that provided coverage during such policy periods is in liquidation, the property/casualty insurance security fund shall receive the portion of surcharges to which the insurer in liquidation would have been entitled. The surcharges authorized herein shall be deemed to be income earned for the purposes of section 2303 of the insurance law. The superintendent, in establishing adequate rates and in determining any projected deficiency pursuant to the requirements of this section and the insurance law, shall give substantial weight, determined in [~~his~~] **their** discretion and judgment, to the prospective anticipated effect of any regulations promulgated and laws enacted and the public benefit of stabilizing malpractice rates and minimizing rate level fluctuation during the period of time necessary for the development of more reliable statistical experience as to the efficacy of such laws and regulations affecting medical, dental or podiatric malpractice enacted or promulgated in 1985, 1986, by this act and at any other time. Notwithstanding any provision of the insurance law, rates already established and to be established by the superintendent pursuant to this section are deemed adequate if such rates would be adequate when taken together with the maximum authorized annual surcharges to be imposed for a reasonable period of time whether or not any such annual surcharge has been actually imposed as of the establishment of such rates.

§ 48-a. 1. Notwithstanding any contrary provision of law, the commissioners of the office of addiction services and supports and the office of mental health are authorized, subject to the approval of the director of the budget, to transfer to the commissioner of health state funds to be utilized as the state share for the purpose of increasing payments under the medicaid program to managed care organizations licensed under article 44 of the public health law or under article 43 of the insurance law. Such managed care organizations shall utilize such funds for the purpose of reimbursing providers licensed pursuant to article 28 of the public health law or article 36, 31 or 32 of the mental hygiene law for ambulatory behavioral health services, as determined by the commissioner of health, in consultation with the commissioner of addiction services and supports and the commissioner of the office of mental health, provided to medicaid enrolled outpatients and for all other behavioral health services except inpatient included in New York state's Medicaid

The commissioner of health shall, in consultation with the commissioner of addiction services and supports and the commissioner of mental health, waive such conditions if a sufficient number of providers, as determined by the commissioner, suffer a financial hardship as a consequence of such alternative payment methodology requirements, or if [~~he or she~~] such commissioner shall determine that such alternative payment methodologies significantly threaten individuals access to ambulatory behavioral health services.
