FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

EXPLANATION--Matter in italics (underscored) is new; matter in brackets  
[-] is old law to be omitted.

LBD15225-03-6

**Bill Description:**

This fiscal note is prepared for legislative bill draft #15225-02-6. This bill would authorize Michael Hall, a retired member of the New York State Teacher's Retirement System (NYSTRS), who elected the 100% joint and survivor option benefit to change his option election to the maximum single life benefit effective as of his date of retirement, January 31, 2004. The increase in pension benefit will be paid retroactively to this date. Michael Hall must file a written request with the head of NYSTRS within one year of the effective date of this act.

**Cost and Current Law:**

The cost of this benefit is equal to the increase in the present value of liabilities, which is estimated to be \$211,000. This cost would be borne by the employers of members of the New York State Teachers' Retirement System. Allowing retired members to change their benefit option after retirement weakens the pooling of longevity risk and the pricing of the options and would result in actuarial losses.

Under current law, benefit option elections are generally irrevocable after retirement. Allowing post-retirement changes for individual members may introduce considerations regarding consistent application of such provisions across the membership.

**Data:**

Member data as of June 30, 2025, prepared for the most recent actuarial valuation was used in determining this cost. The most recent data distributions and statistics can be found in the System's Annual Report for the fiscal year ended June 30, 2025. System assets are as reported in the System's financial statements which can be found in the System's Annual Report. This data will also be provided in the System's Actuarial Valuation Report as of June 30, 2025.
