STATE OF NEW YORK

11112--A

IN ASSEMBLY

April 24, 2026

Introduced by M. of A. KASSAY -- read once and referred to the Committee on Health -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the public health law, in relation to requiring the department of health to create and issue a five-year plan with its proposals to best mitigate the persistence of lead in school water across the state

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 1110 of the public health law is amended by adding a new subdivision 7 to read as follows:

7. The department, in consultation with the commissioner of education, shall create and issue a five-year plan with its proposals to mitigate the presence of lead in school water across the state, including specification of any improvements to lead testing accuracy, improvements to verifying that remediation has occurred before an outlet is returned to service, and the development of standardized criteria and reporting requirements to distinguish between outlets that have been remediated through repair, replacement, or other corrective action and outlets that have been deemed remediated solely by being taken out of service or otherwise rendered inoperable. The plan shall also specify any funding or technical assistance the department intends to provide to school districts to support their efforts to test and remove lead from school water under this section.

§ 2. This act shall take effect on the one hundred eightieth day after it shall have become a law.

EXPLANATION--Matter in *italics* (underscored) is new; matter in brackets [-] is old law to be omitted.
