At the time of such conversion, the eligible beneficiary shall relinquish all rights to the prospective benefits payable under the service or disability retirement benefit, including any post-retirement death benefits, since the retiree's death. If the eligible beneficiary is not the only beneficiary receiving or entitled to receive a benefit under the service or disability retirement benefit (including, but not limited to, post-retirement death benefits or benefits paid or payable pursuant to the retiree's option selection), the accidental death benefit payments to the eligible beneficiary will be reduced by any amounts paid or payable to any other beneficiary.

(e) Notwithstanding any other provision of law to the contrary, the rules and regulations adopted pursuant to this section shall be deemed to be amended to provide that if a retiree or vestee who: (1) has met the criteria of paragraph (d) of this subdivision and retired on a service or disability retirement, would have met the criteria if not already retired on an accidental disability, or was separated from service with a vested right to deferred payability of a retirement allowance; and (2) has not been retired for more than [~~twenty-five~~] thirty-five years; and (3) dies from a qualifying World Trade Center condition, as defined in section two of the retirement and social security law, as determined by the applicable head of the retirement system or applicable medical board, then unless the contrary be proven by competent evidence, such retiree or vestee shall be deemed to have died as a natural and proximate result of an accident sustained in the performance of duty and not as a result of willful negligence on [~~his or her~~] such retiree's or vestee's part. Such retiree's or vestee's eligible beneficiary, as set forth in title twenty-one of the rules and [~~regulation~~] regulations, shall be entitled to an accidental death benefit as provided by title twenty-one of the rules and regulations, however, for the purposes of determining the salary base upon which the accidental death benefit is calculated, the retiree or vestee shall be deemed to have died on the date of [~~his or her~~] such retiree's or vestee's retirement or separation from service with vested rights. Upon the retiree's or vestee's death, the eligible beneficiary shall make a written application to the head of the retirement system within the time for filing an application for an accidental death benefit as set forth in title twenty-one of the rules and regulations requesting conversion

of such retiree's service, vested right or disability retirement benefit to an accidental death benefit. At the time of such conversion, the eligible beneficiary shall relinquish all rights to the prospective benefits payable under the service or disability retirement benefit, or vested right to such benefit, including any post-retirement death benefits, since the retiree's or vestee's death. If the eligible beneficiary is not the only beneficiary receiving or entitled to receive a benefit under the service or disability retirement benefit (including, but not limited to, post-retirement death benefits or benefits paid or payable pursuant to the retiree's option selection), or that will be eligible under the vested right the accidental death benefit payments to the eligible beneficiary will be reduced by any amounts paid or payable to any other beneficiary.

Upon such determination, the eligible beneficiary of such retiree, as defined in either section sixty-one, five hundred one or six hundred one of the retirement and social security law or section 13-149, 13-244, or 13-347 of the administrative code of the city of New York shall be entitled to a special accidental death benefit as provided by this section, payable in accordance with subdivisions b, c and d of this section, however, for the purposes of determining the salary base upon which the special accidental death benefit is calculated, the retiree shall be deemed to have died on the date of [~~his or her~~] **such retiree's** retirement. In no event shall the special accidental death benefit be paid unless a written application is made by the eligible beneficiary of such retiree to the head of the applicable retirement system requesting conversion of the retiree's service or disability benefit to an accidental death benefit and upon the approval of said application. At the time of such conversion, the eligible beneficiary shall relinquish all rights to the prospective benefits under the service or disability retirement benefit, including any post-retirement death benefits, since the retiree's death. Data on who filed World Trade Center (WTC) Notices of Participation for TRS and BERS was unavailable when preparing this Fiscal Note, however, the impact of this bill on these systems is assumed to be minimal.

IMPACT ON SURVIVOR BENEFITS: Currently, NYCRS members who die within 25 years of retirement may be eligible for accidental death benefits if they participated in WTC rescue, recovery or clean-up operations and died from a WTC qualifying condition.

Under the proposed legislation, this benefit would be extended to those who die from a WTC qualifying condition within 35 years of retirement.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

* Because there is insufficient data to determine the likelihood of WTC reclassification, a range of results are shown to illustrate the potential costs under two scenarios:

o Under Scenario A, it is assumed that 25% of deaths that occur between 25 and 35 years from retirement would be eligible for WTC death benefit reclassification.

o Under Scenario B, it is assumed that 75% of deaths that occur between 25 and 35 years from retirement would be eligible for WTC death benefit reclassification.

Actual WTC reclassification percents may be outside of the range presented in this Fiscal Note.

* Under both scenarios, 100% of members who are currently receiving accidental disability benefits due to a WTC condition are assumed to be eligible for the accidental death benefit reclassification afforded by this proposed legislation.

* For receiving members, supplemental OLR data was used to identify pensioners with spousal beneficiaries eligible for WTC benefits. Where there was no dependent spouse on the OLR data, it was assumed that such members would not benefit from the proposed legislation. For active and terminated vested members, 100% of deaths were assumed to qualify for spousal death benefits.

* Costs associated with the 10-year deadline extension for filing Notices of Participation provided by this proposed legislation are assumed to be de minimis, as most eligible members have likely already filed the form required to register for participation.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.
