(9) "Utility corporation" shall have the same meaning as subdivision twenty-four of section two of the public service law.

(b) Exemption from taxation. Notwithstanding any other provision of law, rule or regulation to the contrary, the taxes imposed on retail sales of fuel gas, motor fuel and diesel motor fuel made during the applicable period shall be exempt from the taxes imposed by articles twelve-A, thirteen-A, and twenty-eight of this chapter. If the retail seller is located within a municipality that has elected to eliminate the tax imposed pursuant to article twenty-nine of this chapter, such taxes shall not be imposed on the retail sale of motor fuel or diesel motor fuel during the applicable period.

(c) Price reduction. (1) During the applicable period, each retail seller shall reduce the price per gallon of motor fuel and diesel motor fuel offered for sale by the amount of the taxes that the retail seller prepaid on the gallon of motor fuel and diesel motor fuel and the amount of tax in excess of the prepaid amount that would have been collected from the consumer if the sale of the motor fuel or diesel motor fuel had not been exempt from tax pursuant to subdivision (b) of this section.

(2) During the applicable period, each utility corporation shall reduce the rate of fuel gas related utility rates per kilowatt hour (kwh) offered by the amount of the taxes that the utility corporation prepaid on the fuel gas and the amount of tax in excess of the prepaid amount that would have been collected from the consumer if the fuel gas rates had not been exempt from tax pursuant to subdivision (b) of this section.

Such advertisement may commence no earlier than three days before the applicable period and shall end by the end of the applicable period.

(e) Refunds and credits. (1) Notwithstanding any other provision of law to the contrary, the retail seller shall be entitled to receive a credit against the taxes due pursuant to article twenty-eight of this chapter for the amount of tax that the retail seller prepaid pursuant to articles twelve-A, thirteen-A, twenty-eight and, if applicable, twenty-nine of this chapter. If the retail seller is located within a municipality that has elected to eliminate the tax imposed pursuant to article twenty-nine of this chapter, the retail seller shall be entitled to claim a credit against the taxes due pursuant to article twenty-eight of this chapter for such prepaid taxes. The amount of credit shall equal the amount of tax that was prepaid pursuant to articles twelve-A, thirteen-A, twenty-eight and, if applicable, twenty-nine of this chapter for each gallon of motor fuel and diesel motor fuel sold at retail during the applicable period. Such credit shall not be allowed for sales that would have otherwise been exempt from tax.

(2) A retail seller may claim the credit prescribed in paragraph one of this subdivision when the retail seller files its return of tax for the sales of motor fuel and diesel motor fuel for the period that includes the applicable period. Notwithstanding the foregoing, if a retail seller is required to file its return more than thirty days after the close of the applicable period defined in paragraph one of subdivi-

sion (a) of this section, such retailer shall be authorized to file an amendment to its most recently filed return to claim such credit. No credit may be claimed for the taxes prepaid pursuant to article twelve-A, thirteen-A, twenty-eight or, if applicable, twenty-nine of this chapter pursuant to this section if the claim would have been barred pursuant to the article that required prepayment of such taxes. No interest shall be paid on any claims for credit made pursuant to this section.
