

STATE OF NEW YORK

11456

IN ASSEMBLY

May 19, 2026

Introduced by COMMITTEE ON RULES -- (at request of M. of A. Braunstein)
-- read once and referred to the Committee on Corporations, Authorities and Commissions

AN ACT to amend the general business law and the public service law, in relation to protection of underground facilities, mandatory standards for newly installed underground facilities, excavator training and certification, and damage reporting

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Subdivisions 2, 4 and 5 of section 760 of the general business law, as amended by chapter 685 of the laws of 1994, are amended and
2 four new subdivisions 10, 11, 12 and 13 are added to read as follows:

3 2. "Excavation" means an operation for the purpose of movement or
4 removal of earth, rock or other materials in or on the ground or in,
5 under, or adjacent to the bed of a waterbody in the course of submerged
6 excavation by use of mechanized equipment or by blasting, and includes,
7 but is not limited to, anchoring, auguring, backfilling, dredging,
8 drilling, grading, pile driving, plowing in, pulling in, trenching and
9 tunneling; provided, however, that the movement of earth by tools manipulated only by human or animal power and the tilling of soil for agricultural purposes shall not be deemed excavation.

10 4. "Underground facilities" means pipelines, conduits, ducts, cables,
11 wires, manholes, vaults or other such facilities or their attachments,
12 which have been installed underground, including in the bed of a water-
13 body, or submersed by an operator to provide services or materials. Such
14 term shall not include oil and gas production and gathering pipeline
15 systems used primarily to collect oil or gas production from wells.

16 5. "Excavator" means a person who is engaged in a trade or business
17 which includes the carrying out of excavation or demolition[~~; provided,~~
18 ~~however, that an individual employed by an excavator, and having no~~
19 ~~supervisory authority, other than the routine direction of employees,~~
20 ~~over an excavation or demolition, shall not be deemed an excavator for~~
21 ~~the purposes of this article~~]. In construing and enforcing the
22 provisions of this article, the act of any employee or agent of any

LBD15707-01-6

1 excavator or covered excavation worker acting within the scope of [~~his~~
2 ~~or her~~] their official duties or employment, or on behalf of an excava-
3 tor, shall be deemed to be the act of such excavator.

4 10. "Covered excavation worker" means any individual who, for compen-
5 sation, performs excavation or demolition work, including by operating
6 powered equipment, directing excavation activities, or performing exca-
7 vation on behalf of an excavator.

8 11. "Locatable" means capable of being detected, traced, or otherwise
9 located in the field using generally accepted locating equipment and
10 practices, as determined by standards established pursuant to section
11 seven hundred sixty-three-a of this article and regulations adopted by
12 the public service commission.

13 12. "As-built location information" means records or data describing
14 the location of newly installed underground facilities, in a format and
15 with minimum data elements as determined by the public service commis-
16 sion by regulation.

17 13. "Submerged excavation" means excavation or demolition activities
18 occurring in, under, or adjacent to the bed of a waterbody, including
19 dredging, anchoring, pile driving, and related activities, where under-
20 ground facilities may be present.

21 § 2. The general business law is amended by adding a new section 763-a
22 to read as follows:

23 § 763-a. Standards for newly installed underground facilities; locata-
24 bility and mapping. 1. For any underground facility installed on or
25 after the effective date of this section, each operator shall:

26 (a) install such facility in a manner that is locatable;
27 (b) create and retain as-built location information for such facility;
28 and
29 (c) use as-built location data in executing its duties pursuant to
30 section seven hundred sixty-three of this article.

31 2. The public service commission shall, by regulation, establish mini-
32 mum standards and implementation schedules for locatability and as-built
33 location information under this section, which may include requirements
34 applicable to laterals, service drops, service lines, sewer lines, and
35 appurtenances, and which may provide for reasonable phase-in periods and
36 waivers for demonstrated good cause.

37 § 3. Subdivision 5 of section 764 of the general business law, as
38 amended by chapter 505 of the laws of 2019, is amended to read as
39 follows:

40 ~~5. [In the event of contact with and/or damage to an underground~~
41 ~~facility]~~ Whenever any excavator or covered excavation worker acting on
42 behalf of an excavator causes or discovers damage to an underground
43 facility, the excavator shall immediately notify the operator of the
44 facility and [~~no~~] the one-call notification system serving the area in
45 which the damage occurred. No backfilling shall be done by the excavator
46 until inspection and/or repairs have been made by the operator and no
47 repairs shall be undertaken by the excavator until authorized by the
48 operator. In the event of an electrical short or the escape of gas or
49 hazardous fluids endangering life, the excavator shall immediately noti-
50 fy the operator of the electric, gas or hazardous liquid underground
51 facility and 911, and all persons who might be endangered and assist in
52 the evacuation of such persons.

53 § 4. Paragraphs b, d and e of subdivision 1 of section 119-b of the
54 public service law, as amended by chapter 445 of the laws of 1995, are
55 amended and four new paragraphs i, j, k and l are added to read as
56 follows:

b. "Excavation" means an operation for the purpose of movement or removal of earth, rock or other materials in or on the ground or in, under, or adjacent to the bed of a waterbody in the course of submerged excavation by use of mechanized equipment or by blasting, and includes, but is not limited to, anchoring, auguring, backfilling, dredging, boring, drilling, grading, pile driving, plowing in, pulling in, trenching and tunneling; provided, however, that the movement of earth by tools manipulated only by human or animal power and the tilling of soil for agricultural purposes shall not be deemed excavation.

d. "Underground facilities" means pipelines, conduits, ducts, cables, wires, manholes, vaults or other such facilities or their attachments, which have been installed underground, including in the bed of a waterbody, or submersed by an operator to provide services or materials. Such term shall not include oil and gas production and gathering pipeline systems used primarily to collect oil or gas production from wells.

e. "Excavator" means a person who is engaged in a trade or business which includes the carrying out of excavation or demolition~~[-; provided, however, that an individual employed by an excavator, and having no supervisory authority, other than the routine direction of employees, over an excavation or demolition, shall not himself or herself be deemed an excavator for the purposes of this article]~~. In construing and enforcing the provisions of this article, the act of any employee or agent of any excavator, or covered excavation worker acting within the scope of ~~[his or her]~~ their official duties or employment, or on behalf of an excavator, shall be deemed to be the act of such excavator.

i. "Covered excavation worker" means any individual who, for compensation, performs excavation or demolition work, including by operating powered equipment, directing excavation activities, or performing excavation on behalf of an excavator.

j. "Locatable" means capable of being detected, traced, or otherwise located in the field using generally accepted locating equipment and practices, as determined by standards established pursuant to section seven hundred sixty-three-a of the general business law and regulations adopted by the public service commission.

k. "As-built location information" means records or data describing the location of newly installed underground facilities, in a format and with minimum data elements as determined by the public service commission by regulation.

l. "Submerged excavation" means excavation or demolition activities occurring in, under, or adjacent to the bed of a waterbody, including dredging, anchoring, pile driving, and related activities, where underground facilities may be present.

§ 5. Section 119-b of the public service law is amended by adding a new subdivision 2-a to read as follows:

2-a. The commission shall adopt rules and regulations to implement section seven hundred sixty-three-a and subdivision five of section seven hundred sixty-four of the general business law, including but not limited to: (a) minimum standards for locatability and as-built location information for newly installed underground facilities; (b) training, examination, certification, and renewal requirements for excavators and covered excavation workers; and (c) uniform damage reporting requirements applicable to excavators and operators, including the content, method, and timeliness of reporting to one-call notification systems. Further, the commission shall adopt requirements governing notice, designation and marking, and related procedures for submerged excavation.

1 § 6. This act shall take effect on the one hundred eightieth day after
2 it shall have become a law; provided, however, that section two of this
3 act shall apply to underground facilities installed on or after such
4 effective date. Effective immediately, the public service commission is
5 authorized to promulgate, amend and/or repeal any rule or regulation
6 necessary for the implementation of this act on or before such effective
7 date.
