

STATE OF NEW YORK

11719

IN ASSEMBLY

September 16, 2026

Introduced by COMMITTEE ON RULES -- (at request of M. of A. Kay) -- read once and referred to the Committee on Health

AN ACT to amend the public health law, in relation to the volunteer emergency medical services infrastructure and response equipment grant program

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. The public health law is amended by adding a new section
2 3002-b to read as follows:

3 § 3002-b. Volunteer emergency medical services infrastructure and
4 response equipment grant program. 1. There is hereby established within
5 the New York state emergency medical services council, the volunteer
6 emergency medical services infrastructure and response equipment grant
7 program. The grant program shall be administered by the commissioner of
8 the division of homeland security and emergency services for the purpose
9 of awarding capital grants to support projects which sustain or enhance
10 emergency medical service operations, infrastructure and equipment,
11 including but not limited to buildings, training facilities, technology
12 and vehicles.

13 2. Subject to appropriation, grants shall be awarded each grant appli-
14 cation cycle on a competitive basis through an application process. The
15 commissioner of the division of homeland security and emergency services
16 shall provide updated information regarding the grant application cycle,
17 available funding, and additional grant information deemed relevant by
18 the commissioner prior to each grant application cycle.

19 3. Eligible entities that are located within the state and which serve
20 one or more municipalities in the state may apply for the grant program.

21 4. Each grant application cycle shall provide grants to:

22 (a) eligible facility projects; and

23 (b) eligible equipment projects.

24 5. The commissioner of the division of homeland security and emergency
25 services shall publish a report on the grant application cycle no later
26 than the thirtieth day after such grant application cycle has ended. The

EXPLANATION--Matter in italics (underscored) is new; matter in brackets
[-] is old law to be omitted.

LBD16320-01-6

report shall be published on the agency's website and shall include, but not be limited to, the following information:

(a) the total available funding for the grant application cycle;

(b) the total number of applicants who applied for a grant during the grant application cycle and, for each applicant:

(i) the total number of active emergency medical technicians and inactive emergency medical technicians in each voluntary ambulance service; and

(ii) the total amount requested per project type, per county; and

(c) a list of all awardees which shall include:

(i) each municipality and county served by awardee; and

(ii) the total amount awarded per project type and per county.

6. The commissioner of the division of homeland security and emergency services shall be authorized to promulgate rules and regulations to carry out the provisions of this section. Such rules and regulations may be included in the grant application and published on the agency's website.

7. For the purposes of this section, the following terms shall have the following meanings:

(a) "Available funding" shall mean the total appropriation made to the volunteer emergency medical services infrastructure and response equipment grant program and shall include the total available funding that will be awarded in the grant application cycle for each type of grant project and the maximum award for each grant project and each grantee.

(b) "Eligible equipment project" shall mean a project to support the repair, enhancement and installation of equipment used to support emergency medical service operations including, but not limited to vehicles, emergency medical technician rehabilitation equipment, communications technology and other safety equipment.

(c) "Eligible entity" shall include a voluntary ambulance service as defined in section three thousand one of this article.

(d) "Eligible facility project" shall mean a project for the acquisition, construction, renovation, rehabilitation and leasehold improvements of buildings owned or utilized by a voluntary ambulance service in the provision of services to the community served by the voluntary ambulance service, including, but not limited to, training facilities and infrastructure improvements to such buildings. For the purposes of this subdivision, electrical upgrades to a facility may be deemed to be infrastructure improvements.

(e) "Grant application cycle" shall mean the period of time determined by the commissioner of the division of homeland security and emergency services that begins on the first day an applicant can submit an application and ends no later than the sixtieth day after grant applicants are notified of award decisions.

§ 2. This act shall take effect on the first of April next succeeding the date on which it shall have become a law. Effective immediately, the addition, amendment and/or repeal of any rule or regulation necessary for the implementation of this act on its effective date are authorized to be made and completed on or before such effective date.
