20 or midwife providing primary care shall ask specific questions to deter-
21 mine if there are any signs or symptoms that may indicate ovarian
22 cancer. Once signs and symptoms of ovarian cancer have been detected, or
23 a provider is suspicious the patient has ovarian cancer, ovarian cancer
24 "testing" may then be performed, which could encompass a pelvic exam,
25 FDA-approved testing, transvaginal ultrasound, and other exams for
26 ovarian cancer. Additionally, providers shall avail patients with ovari-
27 an cancer education, including, but not limited to, information on the
28 signs and symptoms of ovarian cancer and providing the patient with a
29 copy of the informational pamphlet developed and supplied by the depart-

31 reasonably believes that: (a) the individual is being treated for a life
32 threatening emergency; or (b) the individual lacks capacity to consent
33 to ovarian cancer testing.

34 2. As used in this section, "primary care" means the medical fields of
35 family medicine, general pediatrics, primary care, internal medicine,
36 primary care obstetrics, or primary care gynecology, without regard to
37 board certification.

38 3. The offering of ovarian cancer testing under this section shall be
39 culturally and linguistically appropriate in accordance with rules and
40 regulations promulgated by the commissioner.

41 4. The department shall develop informational pamphlets on ovarian
42 cancer and supply such pamphlets to health service providers.

43 5. This section shall not affect the scope of practice of any health
44 care practitioner or diminish any authority or legal or professional
45 obligation of any health care practitioner to offer ovarian cancer test-
46 ing or to provide services or care for the subject of ovarian cancer
47 testing.

48 § 6. This act shall take effect on the first of January next succeed-

50 policies issued, reissued, renewed, modified or amended on or after such
51 date.
