2025-2026 Regular Sessions

## IN ASSEMBLY

January 9, 2025

---

Introduced by M. of A. HUNTER, SHIMSKY, STECK, ALVAREZ, JACOBSON, SIMONE, STIRPE, CUNNINGHAM, COLTON, ROSENTHAL, STERN, SIMON, PAULIN, SEAWRIGHT, SLATER, K. BROWN, BLUMENCRANZ, FORREST, LUNSFORD -- read once and referred to the Committee on Transportation

AN ACT to ensure the safe and efficient delivery of materials for the timely construction of major renewable energy facilities in furtherance of the goals mandated by the New York state climate leadership and community protection act

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings and declaration. In 2019, the state  
2 enacted the historic New York state climate leadership and community  
3 protection act to mitigate the impacts of climate change and reduce  
4 greenhouse gas emissions from anthropogenic sources 100% over 1990  
5 levels by the year 2050. In 2020, the state enacted the accelerated  
6 renewable energy growth and community benefit act, which provided for  
7 the expedited siting of major renewable energy facilities and related  
8 transmission. The legislature hereby finds and declares that to mean-  
9 ingfully and timely achieve the historic goals mandated in the New York  
10 state climate leadership and community protection act, and to meet the  
11 technology-specific requirements set forth therein, including the  
12 installation of wind and solar-powered electric generation, the  
13 construction of new and repowered wind turbines and solar arrays is an  
14 urgent matter of great importance to New York. The legislature further  
15 finds that current rules, regulations, and policies addressing the  
16 transport of large loads on the state highways and the thruway present  
17 impediments to the efficient transport of construction materials used  
18 for these projects, including large loads such as wind turbines, which  
19 is inconsistent with the goals of the accelerated renewable energy  
20 growth and community benefit act. Because of the unprecedented volume  
21 and size of materials planned for transport, the current rules regarding

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD01246-01-5

1 the use of police escorts for the transport of such loads may result in  
2 delays, shortages of police officer escorts, and retention of truck  
3 traffic, that may hinder construction of major renewable energy facili-  
4 ties. Therefore, it is the intent of this act to supersede any such rule  
5 or policy, and to allow materials used for the construction of any major  
6 renewable energy facility to be transported on state highways and on the  
7 thruway safely using either a police escort, or a private security  
8 escort.

9 § 2. (a) For the purposes of this act, the term "major renewable ener-  
10 gy facility" shall have the same meaning as defined in section 137 of  
11 the public service law.

12 (b) Notwithstanding any other law, rule, regulation, or internal poli-  
13 cy of any state department, agency, public authority, or public benefit  
14 corporation, vehicles carrying materials intended for the construction  
15 of any major renewable energy facility, including oversize and superload  
16 transport vehicles, shall be permitted to travel on the thruway and  
17 state highways, in compliance with the requirements set forth in subdivi-  
18 sion (c) of this section, on any day of the week, including Saturday  
19 and Sunday.

20 (c) Notwithstanding any other law, rule, regulation, or internal poli-  
21 cy of any state department, agency, public authority, or public benefit  
22 corporation, vehicles carrying materials intended for the construction  
23 of any major renewable energy facility, including oversize and superload  
24 transport vehicles, shall be permitted to travel either with a police  
25 escort, including but not limited to environmental conservation offi-  
26 cers, parks police, county sheriff deputies or the national guard, or  
27 with a private security certified escort vehicle as that term is defined  
28 in 17 NYCRR 154-1.12. The state shall not bear the cost of any private  
29 security escort utilized under this section.

30 (d) Vehicles carrying materials intended for the construction of any  
31 major renewable energy facility, including oversize and superload trans-  
32 port vehicles, shall have a certified annual inspection demonstrating  
33 compliance with all applicable state and federal safety standards in  
34 lieu of a state police level I full inspection, provided the certified  
35 inspection is performed within seven calendar days of the trip, the  
36 vehicle is not subject to commercial use in the interim, and the opera-  
37 tor of such vehicle makes satisfactory inspection paperwork available to  
38 the state police, the department of transportation, and the thruway  
39 authority upon request.

40 (e) All state departments, agencies, public authorities, or public  
41 benefit corporations shall prioritize the permitting and requests for  
42 approval for such travel for the transport of materials intended for use  
43 in a major renewable energy facility. The department of transportation,  
44 in consultation with the thruway authority and the state police, shall  
45 establish through regulation a program for the certification of private  
46 security escorts authorized to escort vehicles transporting materials  
47 intended for the construction of any major renewable energy facility.

48 § 3. This act shall take effect immediately.
