1 (iii) requiring the immediate removal from athletic activities of any
2 pupil believed to have sustained or who has sustained a mild traumatic
3 brain injury. In the event that there is any doubt as to whether a pupil
4 has sustained a concussion, it shall be presumed that ~~[he-or-she]~~ such
5 pupil has been so injured until proven otherwise. No such pupil shall
6 resume athletic activity until ~~[he-or-she]~~ such pupil shall have been
7 symptom free for not less than twenty-four hours, and has been evaluated
8 by and received written and signed authorization from a licensed physi-
9 cian or a certified nurse practitioner. Such authorization shall be

11 rules and regulations shall provide guidelines for limitations and
12 restrictions on school attendance and activities for pupils who have
13 sustained mild traumatic brain injuries, consistent with the directives
14 of the pupil's treating physician or a nurse practitioner.

16 chapter 500 of the laws of 2021, is amended to read as follows:

17 b. The commissioner shall promulgate rules and regulations requiring

21 student has been evaluated by and received written and signed authori-
22 zation from a licensed physician or a certified nurse practitioner.
23 Such authorization shall be kept on file in the pupil's permanent health
24 record.

25 § 4. Section 3624 of the education law, as amended by chapter 529 of
26 the laws of 2002, is amended to read as follows:

27 § 3624. Drivers, monitors and attendants. The commissioner shall
28 determine and define the qualifications of drivers, monitors and attend-

30 all transportation facilities used by pupils which rules and regulations
31 shall include, but not be limited to, a maximum speed of fifty-five
32 miles per hour for school vehicles engaged in pupil transportation that
33 are operated on roads, interstates or other highways, parkways or bridg-
34 es or portions thereof that have posted speed limits in excess of
35 fifty-five miles per hour, prohibitions relating to smoking, eating and
36 drinking and any and all other acts or conduct which would otherwise
37 impair the safe operation of such transportation facilities while actu-
38 ally being used for the transport of pupils. The employment of each
39 driver, monitor and attendant shall be approved by the chief school
40 administrator of a school district for each school bus operated within
41 ~~[his-or-her]~~ such chief school administrator's district. For the purpose
42 of determining ~~[his-or-her]~~ such driver, monitor and attendant's phys-
43 ical fitness, each driver, monitor and attendant may be examined on
44 order of the chief school administrator by a duly licensed physician or
45 nurse practitioner within two weeks prior to the beginning of service in
46 each school year as a school bus driver, monitor or attendant. The
47 report of the physician or certified nurse practitioner, in writing,
48 shall be considered by the chief school administrator in determining the
49 fitness of the driver to operate or continue to operate any transporta-
50 tion facilities used by pupils and in determining the fitness of any
51 monitor or attendant to carry out ~~[his-or-her]~~ such monitor or attend-
52 ant's functions on such transportation facilities. Nothing in this
53 section shall prohibit a school district from imposing a more restric-
54 tive speed limit policy for the operation of school vehicles engaged in
55 pupil transportation than the speed limit policy established by the
56 commissioner.

1 § 5. Paragraph (i) of subdivision 1 and subdivision 3 of section

28 the aid of an assisting device, as certified by [~~a-physician~~] any
29 healthcare practitioner authorized to certify that an individual is

31 four-a of this chapter. Such temporary special vehicle identification
32 parking permit shall be valid for not more than six months and shall be
33 recognized statewide.

1 provide a physician's or nurse practitioner's statement with the reason
2 for the exemption, the name of the individual with a medically necessary
3 condition operating or transported in the vehicle, the specific condi-
4 tion involved, and the minimum level of light transmission required. The
5 commissioner shall only authorize exemptions where the medical condition
6 certified by the physician or nurse practitioner is contained on a list
7 of medical conditions prepared by the commissioner of health pursuant to
8 subdivision sixteen of section two hundred six of the public health law.
9 If such [~~such~~] exemption is granted, the commissioner shall make a

26 the request of the driver or the motor carrier such illness, fatigue, or
27 other cause shall be certified by a qualified physician or nurse practi-

30 compliance with this section, the driver may continue to operate the bus
31 to the nearest place at which that hazard is removed.

32 § 10. Subdivision 7 of section 1229-c of the vehicle and traffic law,
