

# STATE OF NEW YORK

4901

2025-2026 Regular Sessions

## IN ASSEMBLY

February 10, 2025

Introduced by M. of A. CUNNINGHAM -- read once and referred to the  
Committee on Transportation

AN ACT to amend the vehicle and traffic law, in relation to autonomous  
vehicle driving

The People of the State of New York, represented in Senate and Assem-  
bly, do enact as follows:

1 Section 1. The vehicle and traffic law is amended by adding a new  
2 article 34-E to read as follows:

### ARTICLE 34-E

#### AUTONOMOUS VEHICLE DRIVING

#### Section 1290. Definitions.

6 1291. Operation of fully autonomous vehicles without a human  
7 driver.

8 1292. Licensing.

9 1293. Insurance.

10 1294. Duties following crashes involving fully autonomous vehi-  
11 cles.

12 1295. On-demand autonomous vehicle network.

13 1296. Registration and title.

14 1297. Controlling authority.

15 1298. Operation of a motor vehicle with an automated driving  
16 system by a human driver.

17 § 1290. Definitions. For purposes of this article the following terms  
18 shall have the following meanings:

19 1. "Automated driving system" shall mean the hardware and software  
20 that are collectively capable of performing the entire dynamic driving  
21 task on a sustained basis, regardless of whether it is limited to a  
22 specific operational design domain;

23 2. "Dynamic driving task or DDT" shall mean all of the real-time oper-  
24 ational and tactical functions required to operate a vehicle in on-road  
25 traffic, excluding the strategic functions such as trip scheduling and

EXPLANATION--Matter in italics (underscored) is new; matter in brackets  
[-] is old law to be omitted.

LBD00929-01-5

1 selection of destinations and waypoints, and including without limita-  
2 tion: lateral vehicle motion control via steering, longitudinal motion  
3 control via acceleration and deceleration, monitoring the driving envi-  
4 ronment via object and event detection, recognition, classification, and  
5 response preparation, object and event response execution, maneuver  
6 planning; and enhancing conspicuity via lighting, signaling, and gestur-  
7 ing;

8 3. "DDT Fallback" shall mean the response by the person or human driv-  
9 er to either perform the DDT or achieve a minimal risk condition after  
10 occurrence of a DDT performance-relevant system failure or failures or  
11 upon operational design domain exit, or the response by an automated  
12 driving system to achieve minimal risk condition, given the same circum-  
13 stances;

14 4. "Fully autonomous vehicle" shall mean a motor vehicle equipped with  
15 an automated driving system designed to function without a human driver  
16 as a level 4 or 5 system under SAE J3016;

17 5. "Human driver" shall mean a natural person in the vehicle with a  
18 valid license to operate a motor vehicle who controls all or part of the  
19 dynamic driving task;

20 6. "Minimal risk condition" shall mean a condition to which a person,  
21 human driver, or an ADS may bring a vehicle after performing the DDT  
22 Fallback in order to reduce the risk of a crash when a given trip cannot  
23 or should not be completed;

24 7. "On-demand autonomous vehicle network" shall mean a transportation  
25 service network that uses a software application or other digital means  
26 to dispatch or otherwise enable the pre-arrangement of transportation  
27 with fully autonomous vehicles for purposes of transporting passengers  
28 or goods, including for-hire transportation and transportation of  
29 passengers or goods for compensation;

30 8. "Operational design domain or ODD" shall mean operating conditions  
31 under which a given automated driving system is specifically designed to  
32 function, including, but not limited to, environmental, geographical,  
33 and time-of-day restrictions, and/or the requisite presence or absence  
34 of certain traffic or roadway characteristics;

35 9. "Person" shall mean a natural person, corporation, business trust,  
36 estate, trust, partnership, limited liability company, association,  
37 joint venture, governmental agency, public corporation, or any other  
38 legal or commercial entity;

39 10. "Request to intervene" shall mean notification by an automated  
40 driving system to a human driver, that the human driver should promptly  
41 begin or resume performance of part or all of the dynamic driving task;  
42 and

43 11. "SAE J3016" shall mean the Taxonomy and Definitions for Terms  
44 Related to Driving Automation Systems for On-Road Motor Vehicles  
45 published by SAE International in April 2021.

46 § 1291. Operation of fully autonomous vehicles without a human driver.

47 1. A person may operate a fully autonomous vehicle on the public roads  
48 of this state without a human driver provided that the automated driving  
49 system is engaged and the vehicle meets the following conditions:

50 (a) If a failure of the automated driving system occurs that renders  
51 that system unable to perform the entire dynamic driving task relevant  
52 to its intended operational design domain, the fully autonomous vehicle  
53 shall achieve a minimal risk condition;

54 (b) The fully autonomous vehicle is capable of operating in compliance  
55 with the applicable traffic and motor vehicle safety laws and regu-

lations of this state when reasonable to do so, unless an exemption has been granted by the department; and

(c) When required by federal law, the vehicle bears the required manufacturer's certification label indicating that at the time of its manufacture it has been certified to be in compliance with all applicable Federal Motor Vehicle Safety Standards, including reference to any exemption granted by the National Highway Traffic Safety Administration.

2. Prior to operating a fully autonomous vehicle on the public roads of this state without a human driver, a person shall submit a law enforcement interaction plan to the department which shall describe:

(a) The means of communicating with a fleet support specialist who is available during the times the vehicle is in operation;

(b) The means of safely removing the fully autonomous vehicle from the roadway and steps to safely tow the vehicle;

(c) The means to recognize whether or not the fully autonomous vehicle is in autonomous mode; and

(d) Any additional information the manufacturer or owner deems necessary regarding the hazardous conditions or public safety risks associated with the operation of the fully autonomous vehicle.

§ 1292. Licensing. Notwithstanding the provisions of article nineteen of this chapter, when an automated driving system installed on a motor vehicle is engaged:

1. The automated driving system is considered the driver or operator, for the purpose of assessing compliance with applicable traffic or motor vehicle laws and shall be deemed to satisfy electronically all physical acts required by a driver or operator of the vehicle; and

2. The automated driving system is considered to be licensed to operate the vehicle.

§ 1293. Insurance. Before operating a fully autonomous vehicle on public roads in this state, a person shall submit proof of financial responsibility satisfactory to the department that the fully autonomous vehicle is covered by insurance or proof of self-insurance that satisfies the requirements of article six of this chapter.

§ 1294. Duties following crashes involving fully autonomous vehicles. In the event of a crash:

1. The fully autonomous vehicle shall remain on the scene of the crash when required by article twenty-two of this chapter; and

2. The owner of the fully autonomous vehicle, or a person on behalf of the vehicle owner, shall promptly report any crashes or collisions consistent with article twenty-two of this chapter.

§ 1295. On-demand autonomous vehicle network. An on-demand autonomous vehicle network shall be permitted to operate pursuant to state laws governing the operation of transportation network companies, taxis, or any other ground transportation for-hire of passengers, with the exception that any provision of article forty-four-B of this chapter that reasonably applies only to a human driver does not apply to the operation of fully autonomous vehicles with the automated driving system engaged on an on-demand autonomous vehicle network.

§ 1296. Registration and title. 1. A fully autonomous vehicle shall be properly registered in accordance with title four of this chapter and the vehicle shall be identified on the registration as a fully autonomous vehicle.

2. A fully autonomous vehicle shall be properly titled in accordance with article forty-six of this chapter and the vehicle shall be identified on the title as a fully autonomous vehicle.

§ 1297. Controlling authority. Notwithstanding any law, rule or regulation to the contrary:

1. Unless otherwise provided in this chapter and notwithstanding any other provision of law, fully autonomous vehicles and automated driving systems are governed exclusively by this article. The department is the sole and exclusive state agency that may implement the provisions of this article;

2. Fully autonomous vehicles and automated driving systems operating pursuant to this article shall not be subject to section twelve hundred twenty-six of this chapter; and

3. No state agency, political subdivision, municipality, or local entity may prohibit the operation of fully autonomous vehicles, automated driving systems, or on-demand autonomous vehicle networks, or otherwise enact or keep in force rules or ordinances that would impose taxes, fees, or other requirements including performance standards, specific to the operation of fully autonomous vehicles, automated driving systems, or on-demand autonomous vehicle networks in addition to the requirements of this article.

4. Notwithstanding subdivision one, two, or three of this section, any city with a population of five million or more may establish local rules and regulations governing for-hire vehicle services for trips originating in such city, when such services are provided using fully autonomous vehicles, including, as applicable, on-demand autonomous vehicle networks, tax, limousine, paratransit vehicle, and commuter van services.

§ 1298. Operation of a motor vehicle with an automated driving system by a human driver. 1. A person may operate a motor vehicle equipped with an automated driving system capable of performing the entire dynamic driving task if:

(a) such automated driving system will issue a request to intervene whenever the automated driving system is not capable of performing the entire dynamic driving task with the expectation that the person will respond appropriately to such a request; and

(b) the automated driving system is capable of being operated in compliance with title seven of this chapter when reasonable to do so unless an exemption has been granted by the department.

2. Nothing in this article prohibits or restricts a human driver from operating a fully autonomous vehicle equipped with controls that allow for the human driver to control all or part of the dynamic driving task.

§ 2. The vehicle and traffic law is amended by adding a new section 383-a to read as follows:

§ 383-a. Equipment required for certain automated motor vehicles. 1. For purposes of this section, the terms "fully autonomous vehicle," "automated driving system," and "human driver" shall have the same meanings as defined in section twelve hundred ninety of this chapter.

2. A fully autonomous vehicle that is designed to be operated exclusively by the automated driving system for all trips is not subject to motor vehicle equipment laws or regulations of this state which (a) relate to or support motor vehicle operation by a human driver; and (b) are not relevant for an automated driving system.

§ 3. The vehicle and traffic law is amended by adding a new section 301-c to read as follows:

§ 301-c. Inspection criteria for fully autonomous vehicles. Section three hundred one of this article and any regulations promulgated by the commissioner therewith shall only apply to a fully autonomous vehicle in

1 a manner consistent with the provisions of section three hundred eight-  
2 y-three-a of this title.

3 § 4. This act shall take effect on the ninetieth day after it shall  
4 have become a law. Effective immediately, the addition, amendment and/or  
5 repeal of any rule or regulation necessary for the implementation of  
6 this act on its effective date are authorized to be made and completed  
7 on or before such effective date.
