FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would modify the in-service death benefit for retirement eligible members of the New York State and Local Employees' Retirement System employed by New York State as correction officers and security hospital treatment assistants. The in-service death benefit will be the value of the pension reserve as if the member had retired on their date of death.

If this bill is enacted during the 2025 Legislative Session, we anticipate that there will be an increase of approximately \$1.7 million in the annual contributions of the State of New York for the fiscal year ending March 31, 2026. In future years this cost will vary but is expected to average 0.1% of salary annually.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately \$16.6 million which will be borne by the state of New York as a one-time payment. This estimate assumes that payment will be made on March 1, 2026.

These estimated costs are based on 15,927 affected members employed by the State of New York, with annual salary of approximately \$1.5 billion as of March 31, 2024.
