# IN ASSEMBLY

March 4, 2025

Introduced by M. of A. WALKER, SIMON, WEPRIN -- read once and referred to the Committee on Correction

AN ACT in relation to directing the department of corrections and community supervision to test a program of supplying incarcerated individuals with tablets for educational and recreational means

**The People of the State of New York, represented in Senate and Assembly, do enact as follows:**

Section 1. Legislative finding. The bureau of prisons offers secure email service to all federal incarcerated individuals nationwide. County jails in numerous states have found that granting incarcerated individuals access to tablets with educational and recreational programs including secure email reduces idle time, improves morale and increases incarcerated individuals productivity. Therefore, the legislature finds that it would be beneficial for the department of corrections and community supervision to operate a pilot program to test the benefit of providing secure email and other electronic programs to incarcerated individuals.

§ 2. The department of corrections and community supervision shall develop and implement a pilot program to test the benefit of a tablet-based portfolio of educational and recreation programs, including a secured email program, to improve communication with incarcerated individual's family, attorney, community members and organizations, and with the department itself. Such pilot program shall include no fewer than thirty non-internet based tablet devices providing a secure email communication program in addition to educational and recreational programs which consider the unique needs and circumstances of the population of incarcerated individuals including factors related to health, age, education, religion, vocational training and other determining characteristics as the department may deem appropriate. One year after the department shall have commenced the pilot program the department shall issue a report to the governor and the legislature on the impact of the

LBD06031-01-5

pilot program on facility safety, behavior and performance, and other indicators of the value of providing such tablet-based devices in the correctional setting.

§ 3. This act shall take effect one year after it shall have become a law.
