FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would change the overtime ceiling percentage increase for
Tier 6 members in the New York State and Local Employees' Retirement
System (NYSLERS) to the greater of three percent and the rate of annual
inflation, beginning January 1, 2027. Under current law, the ceiling was
set at \$15,000 at the inception of Tier 6 and is increased annually by
the rate of inflation.

Insofar as this bill affects NYSLERS, the present value of benefits
would increase by approximately \$400 million.

NYSLERS

Increase in present

Increase in required

	value of benefits	contributions
Actives Tiers 1-5 (Closed)	\$ 0 mn	\$ 60 mn
Actives Tier 6 (Open)	\$ 400 mn	\$ 340 mn
Total	\$ 400 mn	\$ 400 mn

Benefit improvements will be funded by increasing the billing rates charged annually. The annual contribution required of all participating employers in NYSLERS would increase 0.1% of billable salary, or approximately \$14 million to the state of New York and approximately \$21 million to the local participating employers. This permanent annual cost will vary in future billing cycles with changes in the billing rate and salary of the affected members.

These estimated costs are based on 313,124 affected Tier 6 members, with annual salary of approximately \$17 billion as of March 31, 2025.

To develop the above costs, our models included a Monte Carlo analysis consisting of 5,000 simulations, each consisting of thirty years of annual CPI-U projections. In all 5,000 simulations, for at least one year in the thirty-year period, the 3% floor provided by the proposed legislation resulted in a higher overtime ceiling. The 3% floor exceeded annual inflation projections in approximately 70% of the 150,000 trial years.
