4 new subdivision 5-a is added to read as follows:  
5 5. The board shall develop guidelines and procedures which include the

7 repeat offense by such sex offender and the threat posed to the public  
8 safety. Such risk assessment instruments shall be periodically subjected  
9 to empirical re-validation. Such guidelines shall [~~be based upon~~]  
10 incorporate factors found to be predictive of risk of re-offense,  
11 including but not limited to, the following:  
12 (a) criminal history factors indicative of high risk of repeat  
13 offense, including:  
14 (i) whether the sex offender has a mental abnormality or personality  
15 disorder that makes [~~him or her~~] the sex offender likely to engage in  
16 predatory sexually violent offenses;  
17 (ii) whether the sex offender's conduct was found to be characterized  
18 by repetitive and compulsive behavior, associated with drugs or alcohol;  
19 (iii) whether the sex offender served the maximum term;

- 1 (v) the age of the sex offender at the time of the commission of the  
2 first sex offense;
- 3 (b) other criminal history factors to be considered in determining  
4 risk, including:
- 5 (i) the relationship between such sex offender and the victim;
- 6 (ii) whether the offense involved the use of a weapon, violence or  
7 infliction of serious bodily injury;
- 8 (iii) the number, date and nature of prior offenses;
- 9 (c) conditions of release that minimize risk [~~ex~~] of re-offense,  
10 including but not limited to whether the sex offender is under super-  
11 vision; receiving counseling, therapy or treatment; or residing in a  
12 home situation that provides guidance and supervision;
- 13 (d) physical conditions that minimize risk of re-offense, including  
14 but not limited to advanced age or debilitating illness;
- 15 (e) whether psychological or psychiatric profiles indicate a risk of  
16 recidivism;
- 17 (f) the sex offender's response to treatment;

24 sex offender recidivism statistics.

25 (b) The board in consultation with the department and the division of  
26 criminal justice services shall conduct a periodic retroactive study at  
27 least every five years to determine the predictive value of the risk  
28 assessment instruments used to assign risk of repeat offense levels to  
29 sex offenders pursuant to subdivision six of this section. After each  
30 such study the board shall prepare a detailed report to the governor and  
31 legislature determining the predictive value of the risk assessment  
32 instruments and the predictive value of each factor considered in the  
33 overall risk assessment when applied to the statewide database main-  
34 tained pursuant to paragraph (a) of this subdivision. The report shall  
35 include recommended changes to the guidelines and risk assessment  
36 instruments to enhance their predictive capabilities for the purpose of  
37 periodic revalidation of such guidelines and risk assessment instruments  
38 pursuant to subdivision five of this section. The first such study shall  
39 be completed within two years of the effective date of this subdivision.

40 § 2. This act shall take effect on the one hundred eightieth day after
