Note that Chapter 55 of the Laws of 2024 established 25-year retirement programs for Fire Protection Inspectors. The preliminary census data as of June 30, 2024 does not reflect members' elections to join these plans.

IMPACT ON MEMBER BENEFITS: Currently, Fire Protection Inspector members of NYCERS are not able to purchase service credit for periods while on authorized unpaid childcare leave.

Under the proposed legislation, Fire Protection Inspector members would be eligible to purchase up to one year of service credit for each period of authorized unpaid childcare leave, provided that they file a claim within 90 days of the termination of such leave (or by December 31, 2025, if later) and pay the amount that would have been contributed during such leave, with interest.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems.

The number of members who will benefit from this proposed legislation is unknown. The cost of this proposed legislation could vary greatly depending on the number of future members who benefit and on their length of service, age, and salary history.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.
