It is intended to ensure contamination from floodwaters is addressed in a timely manner to prevent additional losses and potential health and safety concerns. If home repair assistance is subsequently awarded to the applicant, the amount of clean and removal assistance will be deducted from the home repair assistance funds. The maximum amount per household is five hundred fifty dollars. An applicant seeking clean and removal assistance must provide documentation of the need. Such documentation may include a self-declaration that the applicant incurred disaster related damage to their home that requires immediate cleaning to avoid contamination from floodwaters and potential health and safety concerns and that the funds will reimburse the applicant for expenditures already made for cleaning and removal in their home or will be used to purchase materials necessary for cleaning and removal in their home.

10. Funding for such program shall consist of all revenue received pursuant to an appropriation therefor, and any other monies appropriated, credited or transferred from any other source pursuant to law, including but not limited to state emergency appropriations established by the governor and based on the magnitude of the disaster and the number of impacted residents of the state. Nothing in this section shall be deemed to prevent the state from receiving grants, gifts or bequests for the purpose of the program. Grants shall only be awarded based upon the availability of funds.

1 11. The division of homeland security and emergency services, in
2 conjunction with the New York state office for new Americans, shall have
