IN ASSEMBLY

January 14, 2026

Introduced by M. of A. KIM -- read once and referred to the Committee on
Tourism, Parks, Arts and Sports Development

AN ACT to amend the parks, recreation and historic preservation law, in relation to requiring operational safety plans to require an employee to check in with the incident commander or safety officer prior to taking action at an incident location, and requiring the office of parks, recreation and historic preservation to make reasonable efforts to provide employees with incident specific operational safety plans under certain circumstances

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Subdivisions 1 and 3 of section 3.16 of the parks, recreation and historic preservation law, as added by a chapter of the laws of 2025 amending the parks, recreation and historic preservation law relating to mandating the development and approval of operational safety plans, as proposed in legislative bills numbers S. 7680-A and A. 6634-A, are amended to read as follows:

1. The office shall develop and approve operational safety plans prior to the deployment of any employee in hazardous conditions. The plan shall include, but not be limited to, a comprehensive risk assessment identifying potential hazards associated with the deployment, mitigation measures to address identified risks, detailed information on team composition including roles and responsibilities, identification of an on-site authorized person responsible for overseeing operations, a clear chain of command for decision-making during the deployment, emergency contact information for all team members, and ~~[evacuation procedures tailored to the specific deployment scenario]~~, to the extent applicable, evacuation procedures. The plan shall require that any employee check in with the incident commander or safety officer for incident specific procedures prior to taking any action at the incident location. The commissioner or the commissioner's designee shall review and approve all operational safety plans to ensure compliance with established safety standards, verify that the employees being deployed are adequately
