FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would modify the service retirement benefit for members of  
the New York State and Local Employees' Retirement System employed by  
the county of Nassau as correction officers. The modified service  
retirement benefit will be one-half of final average salary (FAS) upon  
completion of twenty-five years of creditable service and sixty percent  
of FAS upon completion of thirty years of creditable service. The  
current service retirement benefit is one-half of FAS upon completion of  
twenty-five years of creditable service.

We estimate that the county of Nassau's annual contributions will increase \$418,000 beginning FYE 2027. Annual costs will vary but are expected to average 0.3% of salary.

In addition, there will be an immediate past service cost of \$7.31 million borne by the county of Nassau as a one-time payment. This cost assumes that payment will be made on February 1, 2027. If the county of Nassau elects to amortize this cost over 10 years, the cost for each year will be \$933,000.

These estimated costs are based on 729 affected members employed by the county of Nassau, with annual salary of approximately \$112 million as of March 31, 2025.
