AN ACT to amend the executive law, in relation to establishing a statewide youth mental health advisory board

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative findings. The legislature acknowledges the need for youth voice and youth leadership in advocating for themselves and others regarding mental and behavioral needs. Amongst the shortage of behavioral and mental specialists, lack of representation within marginalized communities, and insufficient funding infrastructure and opportunities for appropriate school-based services, the legislature hereby finds the importance in establishing a dedicated board to support youth in their mental and behavioral needs by increasing youth participation in state government. A dedicated board would provide advancement in creating policies that aid in improving youth outcomes in an effort to address and resolve the youth mental health crisis in New York.
