Changes in UAL for active members were amortized over the expected remaining working lifetime of those impacted using level dollar payments. UAL attributable to inactive members was recognized in the first year.

Data on who filed World Trade Center (WTC) Notices of Participation for TRS and BERS was unavailable when preparing this Fiscal Note, however, the impact of this bill on these systems is assumed to be minimal.

IMPACT ON SURVIVOR BENEFITS: Currently, NYCERS members who die within 25 years of retirement may be eligible for accidental death benefits if they participated in WTC rescue, recovery or clean-up operations and died from a WTC qualifying condition.

Under the proposed legislation, this benefit would be extended to those who die from a WTC qualifying condition within 35 years of retirement.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

- * Because there is insufficient data to determine the likelihood of WTC reclassification, a range of results are shown to illustrate the potential costs under two scenarios:

- o Under Scenario A, it is assumed that 25% of deaths that occur between 25 and 35 years from retirement would be eligible for WTC death benefit reclassification.

- o Under Scenario B, it is assumed that 75% of deaths that occur between 25 and 35 years from retirement would be eligible for WTC death benefit reclassification.

Actual WTC reclassification percents may be outside of the range presented in this Fiscal Note.

- * Under both scenarios, 100% of members who are currently receiving accidental disability benefits due to a WTC condition are assumed to be eligible for the accidental death benefit reclassification afforded by this proposed legislation.

- * For receiving members, supplemental OLR data was used to identify pensioners with spousal beneficiaries eligible for WTC benefits. Where there was no dependent spouse on the OLR data, it was assumed that such members would not benefit from the proposed legislation. For active and terminated vested members, 100% of deaths were assumed to qualify for spousal death benefits.

- * Costs associated with the 10-year deadline extension for filing Notices of Participation provided by this proposed legislation are assumed to be de minimis, as most eligible members have likely already filed the form required to register for participation.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.
