 for Tier 6 New York City Transit Authority (NYCTA) members subject to  
 the 25-Year and Age 55 Retirement Program (the 55/25 NYCTA Plan) for  
 wages used to calculate member contributions and pension benefits.

The entire increase in employer contributions will be allocated to the New York City Transit Authority.

PRESENT VALUE OF BENEFITS: The Present Value of Benefits is the discounted expected value of benefits paid to current members if all assumptions are met, including future service accrual and pay increases. Future new hires are not included in this present value.

UNFUNDED ACCRUED LIABILITY (UAL): Actuarial Accrued Liabilities are the portion of the Present Value of Benefits allocated to past service. Changes in UAL were amortized over the expected remaining working lifetime of those impacted using level dollar payments.

AMORTIZATION OF UNFUNDED ACCRUED LIABILITY

	NYCERS
Increase (Decrease) in UAL:	111.6 M
Number of Payments:	16

CENSUS DATA: The estimates presented herein are based on preliminary census data collected as of June 30, 2025. The census data for the impacted population is summarized below.

Active Members	NYCERS
- Number Count:	23,550
- Average Age:	43.7
- Average Service:	5.8
- Average Salary:	89,700

IMPACT ON MEMBER BENEFITS AND CONTRIBUTIONS: Under the proposed legislation, the Overtime Ceiling would become inapplicable to participants in the Tier 6 55/25 NYCTA Plan. As a result, overtime earnings exceeding the Overtime Ceiling would be included in determining member contribution rates and annual contributions to be paid by the member. Participants may be entitled to a higher annual pension benefit if such earnings increase their Final Average Salary.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

\* Future overtime earnings exceeding the Overtime Ceiling were assumed to remain level based on reported overtime for the last three fiscal years.

\* New entrants were assumed to replace exiting members so that total payroll increases by 3% each year for NYC Transit members. New entrant demographics were developed based on data for recent new hires and actuarial judgement.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS, but do not believe it impairs our objectivity, and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2026-69 dated April 22, 2026 was prepared by the Chief Actuary for the New York City Retirement Systems and Pension Funds and is intended for use only during the 2026 Legislative Session.
