29 such notification includes information indicating wire burning,  
30 arcing/sparking, or the restriction of ingress and egress from a build-

2 plan or the length of such corporation's outages were materially longer  
3 than they would have been, because of such corporation's failure to  
4 [~~reasonably~~] implement its emergency response plan, the commission may  
5 deny the recovery of any part of the service restoration costs caused by  
6 such failure, commensurate with the degree and impact of the service  
7 outage; provided, however, that nothing herein limits the commission's

12 response plan is sufficient to ensure to the greatest extent feasible  
13 the timely and safe restoration of energy services after an emergency in  
14 compliance with the requirements of this chapter.

15 (e) The filing of each emergency response plan required under para-  
16 graph (a) of this subdivision shall also include a copy of all written

18 (f) Each electric corporation shall file with the county executive or  
19 the chief elected official of a county for each county within its  
20 service territory the most recent approved copy of the emergency  
21 response plan required pursuant to this section. For the purposes of an  
22 electric corporation operating within the city of New York, such corpo-  
23 ration shall file the most recent approved emergency response plan with  
24 the emergency management office of the city of New York.
