The entire increase in employer contributions will be allocated to New York City.

PRESENT VALUE OF BENEFITS: The Present Value of Benefits is the discounted expected value of benefits paid to current members if all assumptions are met, including future service accrual and pay increases. Future new hires are not included in this present value.

- Number Count:	1,816

- Average Age:	39.0
- Average Service:	6.7
- Average Salary:	118,200

IMPACT ON MEMBER BENEFITS: Currently, correction officers who are determined to be disabled by the NYCERS' Medical Board, and have accumulated at least 10 years of service credit, are eligible for an immediate ordinary disability retirement (ODR) allowance equal to the greater of 1/3 of Final Average Salary (FAS), or 1/60th of FAS multiplied by credited service.

If the correction officer is also eligible for Service Retirement, the ODR benefit cannot be less than the retirement allowance for Service Retirement.

Under the proposed legislation, the ODR benefit would become available to disabled correction officers, subject to approval under the applicable statutes and procedures established by NYCERS, irrespective of service credit accumulation.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

* New entrants were assumed to replace exiting members so that total payroll increases by 3% each year for impacted groups. New entrant demographics were developed based on data for recent new hires and actuarial judgement.

* The proposed Section 507-a benefit is assumed to only be available to eligible correction officers prospectively on and after the effective date of the legislation.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS, but do not believe it impairs our objectivity, and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.
