IN SENATE

April 25, 2025

Introduced by Sen. STAVISKY -- read twice and ordered printed, and when printed to be committed to the Committee on Finance

AN ACT to amend the education law, in relation to enacting the nursing education support act of 2025; and making an appropriation therefor

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Short title. This act shall be known and may be cited as the "nursing education support act of 2025".

§ 2. Legislative findings and purpose. The healthcare system in New York state faces a critical shortage of registered nurses, projected to peak by the year 2030. Community colleges play a vital role in training and graduating a significant portion of the state's nursing workforce. Current funding levels for nursing programs are insufficient to meet the growing demand for qualified nursing professionals. The costs associated with nursing education-particularly clinical instruction, advanced equipment, and smaller faculty-to-student ratios-are significantly higher than for other programs. On average, nursing programs incur an additional $1,000 per semester per student in costs, which has made it difficult for community colleges to expand their programs. Sustained expansion of nursing programs requires operational funding to support faculty and staff hiring, maintain facilities, and meet growing student needs.

The purpose of this act is to allocate additional funds to nursing programs at community colleges across New York state to expand capacity, improve program quality, and ensure a robust pipeline of skilled nurses to meet the state's healthcare needs.

§ 3. The education law is amended by adding a new article 127-A to read as follows:

ARTICLE 127-A

NURSING EDUCATION SUPPORT ACT OF 2025

Section 6360. Definitions.

EXPLANATION--Matter in *italics* (underscored) is new; matter in brackets [-] is old law to be omitted.
