Introduced by Sen. KRUEGER -- read twice and ordered printed, and when printed to be committed to the Committee on Health

AN ACT to amend the public health law, in relation to specifying the settings in which an ultrasound or similar medical imaging device procedure may be offered

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 3517 of the public health law is renumbered section 3518 and a new section 3517 is added to read as follows:

§ 3517. Performance of ultrasounds. 1. An ultrasound, or a similar medical imaging device or procedure used for a medical, counseling, or diagnostic service or purpose, shall only be offered in the following settings:

(a) An organized and licensed clinic that provides direct medical, surgical, dental, optometric, or podiatric advice, services, or treatment to patients who remain less than twenty-four hours, and that may also provide diagnostic or therapeutic services to patients in the home as an incident to care provided at the clinic facility.

(b) An outpatient setting comprised of any facility, clinic, unlicensed clinic, center, office, or other setting that is not part of a general acute care facility and where anesthesia, except local anesthesia or peripheral nerve blocks, or both, is used in compliance with the community standard of practice, in doses that, when administered have the probability of placing a patient at risk for loss of the patient's life-preserving protective reflexes.

(c) A licensed health facility that is organized, maintained, and operated for the diagnosis, care, prevention, and treatment of human illness, physical, or mental, including convalescence and rehabilitation and including care during and after pregnancy, or for any one or more of these purposes, for one or more persons, to which the persons are admitted for a twenty-four-hour stay or longer, including a hospital, acute
