Bill Description:

This fiscal note is prepared for legislative bill draft S.8052. istration, to be eligible for disability benefits from the New York State Teachers' Retirement System (NYSTRS). Current statute, section 605 of the Retirement and Social Security Law, requires that a member be physically or mentally incapacitated for the performance of gainful employment to qualify for a disability benefit. The statute empowers NYSTRS to make that determination and to that end, NYSTRS has a Medical Board of board-certified physicians that meets monthly to review disability applications and medical files.

Cost:

The overall cost to the participating employers of the New York State Teachers' Retirement System cannot be readily determined as the ultimate number of disability retirements granted under this definition cannot be determined at this time.

The System's average cost per individual member impacted is estimated as follows:

Member Age	Disability Benefit
30	\$280,000 (4.5 times salary)
40	\$350,000 (4.2 times salary)
50	\$400,000 (3.8 times salary)

The actual cost per member would depend on the member's age, tier, years of service, and salary. The costs above are determined based on averages, so the actual cost for a member could be higher or lower.
