FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY: This proposed bill would allow members of the Metropolitan Transportation Authority 20-year Police Retirement Program (MTA PRP) to transfer MTA service and assets to the New York City Police Pension Fund (NYC PPF).

INCREASE OR (DECREASE) IN EMPLOYER CONTRIBUTIONS: The transfer of a member's service and plan assets from the MTA PRP to the NYC PPF will increase both the assets and liabilities of the NYC PPF.

To the extent that the assets transferred are more or less than the increase in Present Value of Future Employer Contributions (PVFERC) due to the transferred service, there will be a gain or loss.

The potential gains or losses to the NYC PPF would impact future employer contributions, and the increase or decrease in employer contributions would be allocated to New York City.

BACKGROUND: Currently, MTA PRP members cannot transfer their MTA service to the NYC PPF. This proposed bill would allow MTA service to be transferred to the NYC PPF subject to a one-year timing limitation. The proposed bill also provides for a transfer of assets from the MTA PRP to the NYC PPF.

The net increase in PVFERC is equal to the change in the Present Value of Benefits (PVB) minus the change in the Present Value of Future Employee Contributions (PVFEEC), minus the transferred assets. The net increase in the PVFERC could be positive (loss), negative (gain) or zero.

The assets transferred are equal to the Actuarial Accrued Liability (AAL) for the member in the MTA PRP, which is equal to the member's basic member contribution balance (BMCs) in the MTA PRP plus the net pension reserve, if any. After the BMCs in the MTA PRP are transferred to the NYC PPF, the NYC PPF member is no longer also a member in the MTA PRP.

POTENTIAL GAINS / LOSSES: With respect to an individual member, the additional cost of this proposed legislation could vary greatly depending on the member's length of service, age, and salary history. The change in a member's PVFERC for the transferred service is based on data, assumptions, methods, and plan provisions appropriate for the NYC PPF.

The transferred assets are based on the AAL in the MTA PRP which is determined based on data, assumptions, methods, and plan provisions appropriate for the MTA PRP (not the NYC PPF).

The gain or loss to the NYC PPF depends on differences in liability measurements between the MTA PRP and the NYC PPF, and on future investment experience associated with the transferred assets. Examples of factors contributing to potential gains and/or losses include the following:

- * Differences in data.
- * Differences in valuation assumptions.
- * Differences in plan provisions.
- * Future investment returns for the transferred assets.

ASSUMPTIONS AND METHODS: The analysis presented herein is based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement system.

RISK AND UNCERTAINTY: The analysis presented in this Fiscal Note depends highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those

presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.

FISCAL NOTE IDENTIFICATION: This Fiscal Note 2026-66 dated April 21, 2026 was prepared by the Chief Actuary for the New York City Retirement Systems and Pension Funds and is intended for use only during the 2026 Legislative Session.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow membership transfer from the Metropolitan Transportation Authority Defined Benefit Pension Plan Police Retirement Program (MTADBPP) to the New York State and Local Police and Fire Retirement System (NYSLPFRS). For each membership transferred, the MTADBPP member pension reserve will be paid to NYSLPFRS. To transfer, the police officer must be an active member of NYSLPFRS.

The option to transfer membership from the MTADBPP to NYSLPFRS was previously granted by Chapter 533 of the Laws of 2015.

Insofar as this bill affects NYSLPFRS, if enacted during the 2026 Legislative Session, we do not anticipate any costs to the participating employers in NYSLPFRS.
