FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow participating fire districts to elect to provide emergency medical technicians and similar titles the option to retire with twenty-five years of service credit. The benefit would be one-half of final average salary (FAS) plus one-sixtieth of FAS for each additional year of creditable service, not to exceed three-fourths (75%) of FAS. Additionally, members covered under Article 14 would be permitted

one year to make an irrevocable election to switch to the twenty-five-year plan benefit.

We estimate that the annual contribution required of an electing employer will increase by 5% of the salary paid to the affected members. Annual costs will vary as the billing rates and salary of the affected members change.

In addition, there will be an immediate past service cost borne by each electing employer as a one-time payment. This cost will vary by employer but is expected to average approximately 50% of the salary paid to the affected members.

Further, we anticipate additional administrative costs to implement the provisions of this legislation.

The exact number of current members as well as future members who could be affected by this legislation cannot be readily determined. Prior to electing to provide these benefits, an employer would be required to submit a roster of eligible members to the New York State and Local Retirement System. This roster would be used to determine an exact cost to the individual participating fire district electing to provide these benefits.
