§ 7701. Definitions. 1. Practice of licensed master social work.

(a) The practice of licensed master social work shall mean the professional application of social work theory, principles, and the methods to prevent, assess, evaluate, formulate and implement a plan of action based on client needs and strengths, and intervene to address mental, social, emotional, behavioral, developmental, and addictive disorders, conditions and disabilities, and of the psychosocial aspects of illness and injury experienced by individuals, couples, families, groups, communities, organizations, and society.

(b) Licensed master social workers engage in the administration of tests and measures of psychosocial functioning, social work advocacy, case management, counseling, consultation, research, administration and management, and teaching.

(c) Licensed master social workers provide all forms of supervision other than supervision of the practice of licensed clinical social work as defined in subdivision two of this section.

(d) Licensed master social workers practice licensed clinical social work in facility settings or other supervised settings approved by the department under supervision in accordance with the commissioner's regulations.

2. Practice of clinical social work. (a) The practice of clinical social work encompasses the scope of practice of licensed master social work and, in addition, includes the diagnosis of mental, emotional, behavioral, addictive and developmental disorders and disabilities and of the psychosocial aspects of illness, injury, disability and impairment undertaken within a psychosocial framework; administration and interpretation of tests and measures of psychosocial functioning; development and implementation of appropriate assessment-based treatment plans; and the provision of crisis oriented psychotherapy and brief, short-term and long-term psychotherapy and psychotherapeutic treatment to individuals, couples, families and groups, habilitation, psychoanalysis and behavior therapy; all undertaken for the purpose of preventing, assessing, treating, ameliorating and resolving psychosocial dysfunction with the goal of maintaining and enhancing the mental, emotional, behavioral, and social functioning and well-being of individuals, couples, families, small groups, organizations, communities

and society.

(b) Diagnosis in the context of licensed clinical social work practice is the process of distinguishing, beyond general social work assessment, between similar mental, emotional, behavioral, developmental and addictive disorders, impairments and disabilities within a psychosocial framework on the basis of their similar and unique characteristics consistent with accepted classification systems.

(c) Psychotherapy in the context of licensed clinical social work practice is the use of verbal methods in interpersonal relationships with the intent of assisting a person or persons to modify attitudes and behavior which are intellectually, socially, or emotionally maladaptive.

(d) Development of assessment-based treatment plans in the context of licensed clinical social work practice refers to the development of an integrated plan of prioritized interventions, that is based on the diagnosis and psychosocial assessment of the client, to address mental, emotional, behavioral, developmental and addictive disorders, impairments and disabilities, reactions to illnesses, injuries, disabilities and impairments, and social problems.
