§ 27-1909. Market development.

No later than one year after the effective date of this title and continuing annually thereafter, the department of economic development shall:

1. assist private market development with new technologies for waste tire reuse and recycling with an emphasis on higher-value end uses in order to further create and enhance sustainable markets;

2. provide industrial and consumer education on other benefits of recycled waste tire product through the preparation of fact sheets and public workshops; and

3. prepare an annual summary report and analysis of markets and disposition of both New York state stockpiled tires and New York state annually generated waste tires. This report shall be submitted to the department and legislature by the last day of March of each year.
